

Worst Strike In England's History

SEVERAL BIG STIKES IN THE UNITED STATES

Rhode Island Car Lines Tied Up
—Trouble at Bridgeport—N. Y. Garment Workers Out

PROVIDENCE, R. I., July 15.—The strike of 2400 members of the street car men's union called at midnight, resulted today in an almost complete stoppage of the Rhode Island company's system. Out of 455 cars that are run in normal times, it was admitted by President A. E. Potter of the Rhode Island Co. today that only 10 were in operation this forenoon. The cars that did run carried but few passengers.

The officials of the car men's union would concede that only eight cars were running on the whole system. At union headquarters it was stated that the 16 men who remained were old employees, mostly starters and inspectors.

President Potter of the railroad company stated that the 80 men manning the cars in operation today are men who have been with the company for many years and do not belong to the union. He said that more cars would be running before night. Asked if

the company intended to import strike breakers, Mr. Potter stated that nothing of the kind had been discussed by the company officials.

Up to 10 o'clock not a single act of violence had been reported. There are no additional policemen detailed on the streets although many officers are held at the various stations in case of emergency.

Cause of Strike

While the union some time ago presented demands for increased wages and improved working conditions, the immediate cause of the strike was a demand by the union that it should be allowed to name three arbitrators to settle the differences.

TIEUP AT PAWTUCKET

PAWTUCKET, R. I., July 15.—Not a car was running in this city today as a result of the car strike which went on since last night. Asked if

WELSH MINERS DEFY BRITISH GOVERNMENT

More Than 150,000 Men Already Have Laid Down Their Tools, Thereby Shutting Down All Mines Which Supply Coal for British Navy

LONDON, July 15, 12:10 p. m.—Out of the various manifestations of unrest in the British labor field shown since the outbreak of the war there developed today what may prove, unless an early solution is found, one of the most serious strikes in the history of the country.

More than 150,000 men already have laid down their tools, thereby shutting down virtually all the mines in the Welsh coal fields, which supply steam coal for the British navy. The government using for the first time the authority granted by the so-called munitions measure, ruled that the miners must not strike, a royal proclamation to this effect was issued yesterday. The miners answer to this proclamation was to go on strike.

Though subject to a heavy daily fine for striking and though urged by their leaders to allow their demands for higher pay to be arbitrated, the miners throw aside all advice and today refused to take up their picks, thus not only stopping the mines but leaving

idle the mine railways and some ships engaged in coal transportation.

Theoretically the government is empowered to check the strike forthwith; but it is a puzzling problem how the fines authorized under the munitions measure are to be enforced.

No rioting in the strike district has been reported.

The men's leaders have called a conference in the hope of reaching a settlement and the whole country is watching the outcome of the case which is to be a test of the government's power to force labor to arbitrate in the face of the men's contention though not of the leaders that, having made their demands there is nothing to arbitrate.

DEFY BRITISH GOVERNMENT

CADIFF, Wales July 15, 12:32 a. m.—In spite of optimistic predictions that serious labor difficulties in the coal fields would be averted, virtually

every miner in Wales was idle this morning, the day fixed for the beginning of the miners' strike for higher wages.

In one district alone 20,000 men struck, defying the government's proclamation that the provisions of the munitions act would be invoked to prevent a cessation of operations. By 10 o'clock it was estimated that upwards of 120,000 men were out in all parts of the Welsh fields.

A meeting of the executive committee of the South Wales Miners' union was called for this forenoon to confer with representatives of the board of trade, but the rank and file of the miners are obdurate and the government proclamation seems only to have stiffened their resolution to stand firm in their demands.

Men who strike in the face of the government prohibition are subject to a fine of \$15 a day in default of which they may be imprisoned.

Prizes were also on the program, and, despite the warm weather, all greatly enjoyed the outdoor program.

At 8 o'clock all sat down to a bountiful dinner, the menu consisting of steamed clams and salmon with all the fixings. This was followed by salads and ices. The home ward trip will be started in the evening.

The committee consisted of the following: Frank Hinchell, chairman; Arthur Dion, Orrin Webster, J. S. Hanson, Harry Briggs, Frank Kenney, Walter Wiley, Otis Byam, Frank Huntley, Wallace Drew, Henry Reynolds, William Potter, Maurice Vaillant, Herbert E. Webster, Albert J. Blazon, Frank Cheney, Thomas Corcoran and Joseph Carroll.

WM. H. GERRISH DEAD

STATE SMOKE INSPECTOR VICTIM OF GASOLINE EXPLOSION—WAS BORN IN LOWELL

MALDEN, July 15.—William H. Gerrish, state smoke inspector, who was burned in a gasoline explosion in a local garage on Sunday, died last night of his injuries. He was born in Lowell in 1866 and leaves a widow and a daughter.

MALDEN CHURCH PARTY

OVER 300 ENJOYING MERRY TIME AT LAKEVIEW—PARTY HAD BAD ACCIDENT LAST YEAR

The annual outing of the members of East Avenue Baptist church of Malden, is being held today at Lakeview, and these present hope the event will not be disturbed by an accident similar to that which occurred last year, when a man and woman lost their lives by drowning while canoeing.

There are 325 people present, including men, women and children and all have made up their minds to make a good day of it. Six special electric cars of the jumbo type left Malden at 8:30 o'clock this forenoon and arrived at Lakeview park shortly after 11 o'clock with one of the merriest crowds abroad that has been seen at Lakeview for a long time.

At noon luncheon was served and it did not matter whether these around the grove were members of the excursion party or not, they were served with substantial food the committee having made arrangements to serve the entire population of Lowell if it so happened that they were all there.

The afternoon was devoted to bathing, fishing, boating and dancing, while a number of the excursionists who were enjoying their first trip in the district took a walk along the country road. Those in charge of the outing were Rev. John L. Nichol, pastor; James E. High, superintendent, and Charles Stokes, assisted superintendent. The return trip will be made at a reasonable hour this evening.

FIRE ON SOUTH STREET

A telephone alarm at 11:41 o'clock this forenoon called the numbers of the fire department to a dwelling at 11 South street, where a fire had been discovered on the roof. The blaze was promptly extinguished with little damage resulting. The building is owned by Mary A. Clark.

LEADING STORES CLOSE FOR ANNUAL OUTINGS

Thousands Left Lowell Today for Beaches—Outings by K. of C. and Other Societies

This is Merchants' day in Lowell and the city is almost deserted for thousands of men and women left during the early hours for the beach and various summer resorts. With the exception of a few variety and fruit stores, all the business establishments closed for the day, the clerks being given an opportunity to spend a whole day at the beach, and many took advantage of the kindness of their employers to leave the hot and dusty city for an excursion to the beach sands.

A few dark clouds in the early hours appeared ominous but fortunately the mists cleared and the day proved a most ideal one, much to the satisfaction of the store clerks, who have had their half holidays spoiled by rain since the stores began closing on Thursday afternoons.

The chief outings which are being held today are as follows: Bon Marche clerks at Nantasket; A. G. Pollard Co's clerks at Nantasket; J. L. Challoux Co's at Bass Point; Saunders' market clerks at Revere; Eastern Star lodge at Revere; Pawtucket Congregational church at Mountain Rock; Knights of Columbus at Nantasket; Druggists association at Nantasket.

Bon Marche

The members of the Bon Marche Employees Mutual Benefit association are holding their annual outing at Nantasket beach. The first plans were to

NEW DRIVE AT WARSAW

Przanysz Captured by Germans—Austria Protests to the U. S. Against Export of War Munitions

Przanysz has been taken by the Germans almost at the inception of what appears to be a new drive at Warsaw from the north to believe.

The official statement from Berlin announces the capture and also records successes along the East Prussian frontier to the northeast. The village of Konyas, south of Kolno, has been taken and the heights of Olszanka, northeast of Suwalki, stormed.

Heavy Losses to French

Simultaneously the Germans report the breaking down of attempts by the French to win back lost ground in the Argonne region and the infliction of heavy losses upon the attacking forces.

German Troops Captured

Paris reports the capture of a line of German trenches north of Arras and the failure of a German attack in the Woerwre region. It concedes a German advantage at one disputed point in the Argonne.

Austria Protests to U. S.

Austria has made representations to Washington that this country's exports of war munitions to the entente allies have reached such dimensions as to threaten the neutrality of the United States.

German Forces Active

German forces again are active in the region north of Warsaw, causing military observers to believe that a drive at the Polish capital from what direction may be imminent.

The Russians admit a German offensive has begun in one sector, where a Russian force retired to its second line positions. Apparently the same operations, however, were alluded to in the most recent German official statement as resulting in "local successes."

French Claim Success

The German drive at the French lines in the Argonne forest region has been followed by attempts on the part of the French to regain lost ground. The latest report from Paris claims partial success in the effort.

On Gallipoli Peninsula

Two hills defending Krithia on the Gallipoli peninsula were occupied by the troops of the entente allies after four assaults on Monday last, according to Athens advices received in London. Constantinople, reporting on the same engagements says that allied attacks, in which warships supported the troops, were repulsed with heavy losses.

A German submarine sank the Norwegian steamer Bym. One of the merchantman's engineers was killed.

Defy British Government

Great Britain's coal strike problem continues acute, 150,000 miners having gone out despite the prohibitions of the munitions act.

FEATURES OF LAST NIGHT'S WAR NEWS IN BRIEF FORM

Paris reports the Germans captured French positions west of Verdun on a two-mile front, capturing 2581 prisoners.

Paris declares the German assault in the Argonne has been stopped, after the Germans gained a quarter of a mile.

French gain foothold in German trenches at several points in Argonne forest and capture wood west of that region.

British on east bank of canal south-

BODY FROM RIVER CITY HALL NEWS

Identified as That of Robert Robinson, a Printer

The body of Robert Robinson, aged 40 years, was found floating on the surface of the Merrimack river, Elmsmere, Dracut, by Paul Robinson of that village about 9 o'clock this morning. The body was removed to the rooms of Undertaker Healey, where it was positively identified by a letter addressed to Robinson and signed by Secretary Fred Speed of the Lowell Typographical union, of which the deceased is believed to have been a member. Mr. Speed had contributed to his support from the union funds.

The body had undoubtedly been in the water for at least a week judging from its condition, when viewed by Medical Examiner Melis.

Little of the man's past could be learned. At Tobin's printery and the Lawler Printing Co., where he had worked, it was said that he never gave any information about himself and they did not even know his address. He was about 40 years of age and single. He was known to the fraternity as "Mysterious" and had been ill for some time past.

In the pocket of his coat was found a newspaper dated July 7.

HOME RULE ACT

Dublin Corporation Leaves it in Mr. Redmond's Hands

DUBLIN, July 15.—By a vote of 30 to 22 the city corporation yesterday refused to endorse a resolution demanding that "the home rule act shall be put into operation in the whole of Ireland on the 15th of September next."

By the same majority the corporation adopted an amendment expressing confidence in John E. Redmond, the Irish nationalist parliamentary leader, to select the speediest means and the proper moment to bring the settlement into operation.

Though the movers of the original resolution protested that there was nothing inimical to Mr. Redmond in it the majority scented mischief and a suggestion of dissension in the nationalist ranks.

A disorderly scene followed the announcement of the result of the vote. It appears that the opposition to the Irish party had been quietly working on the scheme for some time. There is every assurance that the act will take effect at the conclusion of the war.

HIGHLAND CLUB OUTING

MEMBERS STARTED IN AUTO PROCESSION FOR MARTIN LUTHER CAMP

The annual outing of the members of the Highland club is being held at the Martin Luther camp in Tyngsboro this afternoon, and the event, according to several old members, is one of the best of its kind in the history of the organization. The weather is ideal for such an occasion and nothing was spared by the committee in charge to make the outing the best ever.

Shortly after 12 o'clock about 200 members of the club gathered at their street apartment quarters in Princeton street and awaited the forward march signal, when a procession of some 35 well filled automobiles started for the camp. Upon arriving at the camp the waiters provided an appetizing luncheon which was relished by all.

Most of the afternoon was devoted to sporting events, including a baseball game between the married and unmarried men of the club, and this proved one of the attractions of the day. A tug-of-war contest and races of all de-

NEBRASKAN TORPEDOED

Germany Admits Attack by Submarine and Expresses Regret and Offers Reparation

WASHINGTON, July 15.—Germany, in an official memorandum transmitted today from Berlin by Ambassador Gernig, admits that the American steamer Nebraska was torpedoed by a submarine, expresses regret and readiness to make reparation and assures the United States that the attack "was not meant for the American flag but is to be considered an unfortunate accident."

Secretary Lansing made public the German memorandum which disposes of the question whether the Nebraska was struck by a torpedo or by a mine. The German memorandum closes the incident. It was said, except as to the payment of damages.

The Nebraska came coming close on the sinking of the Lefelia and coupled with the attack on the Gulfport, threatened to become one of the important issues in the controversy with Germany over submarine warfare. There were some circumstances which made the case complex.

The Nebraska had been under charter to the White Star line, but the charter had been cancelled and she was returning home to carry coal from Newport News to the California coast.

HIS HAND TORN OFF

OPERATIVE AT BOOTH MILLS CAUGHT IN GEARS OF A MACHINE TODAY

Edward Grouvelles of Suffolk street met with a painful accident while starting a carding machine in the Booth mill at 6:45 o'clock this morning, when his left hand caught in a gear and was amputated before the machine could be stopped. The ambulance was summoned and Grouvelles was taken to the Lowell hospital where his injury was treated.

MR. GIAKOS RELEASED

DISTRICT ATTORNEY ORDERED HIS RELEASE FROM HEAVY BAIL TO-DAY

Athanasios Giakos, the man ordered held in \$2000 bail for his appearance at the Demos murder trial after testifying at the inquest a week ago today, was taken from the Lowell jail to the local police court this afternoon, where Judge Enright discharged the bail and recognized him in the sum of \$50.

This was done at the recommendation of the district attorney's office after Giakos had told his story to the grand jury this forenoon. The sitting of the grand jury was then adjourned till tomorrow morning. D. J. Donahue appeared in behalf of Giakos.

PLACING BOMBS IN FRENCH AIRSHIP JUST BEFORE FLIGHT OVER THE GERMAN LINES

PLACING BOMB ON AIRSHIP

In the accompanying illustration is shown a striking photograph taken on the allies' war front in France. A French aeroplane is about to make a flight over the German lines and is being loaded with its deadly equipment. The aviation squad is loading the ship with bombs, which are to be hurled at the foe.

HELD LAWN FETE

St. Columba's Parish
Opened Annual Event
on Church Grounds

The annual lawn fete of St. Columba's parish was opened very successfully yesterday afternoon with a baby show on the church grounds. There was a large attendance of the parishioners and of young people from the various other parishes of the city. In the evening the grounds were brilliantly illuminated with arc and incandescent lights, which with the various decorated booths and tables and the display of bunting made the scene decidedly fascinating. The attendance last evening was very large and all thoroughly enjoyed the program.

The Lowell Cadet band, John J. Giblin leader, gave a delightful concert program which was highly enjoyed by all present. Some of the features seem to have been borrowed from the Fourth of July midway and Connie Cronin, in charge of the novelty wheel, proved himself as good a "barker" as ever appeared on the midway. There were other wheels and other "barkers," but none to come up to "Connie." There was an African dodger who seemed very anxious to have somebody aim at his cranium and quite a few accepted the invitation while he tallied those who went wide of the

mark. Edward McCarthy, Henry Tighe, Frank Cogger and Charles McQuillan each had charge of a separate feature that helped to swell the re-

REV. JOHN A. DEGAN
Pastor

enues of the evening and at the same time to provide amusement for the crowd. Miss Katherine McDermott and

an able corps of assistants had charge of the jewelry table and Mrs. John Monahan presided over the mystery table. Messrs. Joseph Molloy, Frank Donovan, Thomas J. O'Donnell and Victor Achna provided automobiles which were kept busy during the evening, accommodating those who wished to ride around Pawtucketville. This number made a great hit and the "Jinnies" did a rushing business. Ray Fr. Degan and his assistant, Rev. Fr. Buckley, were busy throughout the evening seeing that nobody was neglected in the distribution of favors. This afternoon an entertainment was provided for the children and the fete will be continued this evening.

The officers and committees in charge were as follows:
General manager, Joseph I. Cunningham; assistant general manager, Jos. McAvinue. Amusement committee, Charles Gallagher, chairman; Cornelius Cronin, Joseph Cunningham, Michael McDermott, John Cryan, Patrick Quill, Charles McQuillan, Norbert Burns, Patrick Brosnan, Matthew Wholey, Henry Tighe, William McKenzie, Michael Barry, William Sullivan.
Music committee, Cornelius Cronin, Joseph McAvinue, William McDonald, Jos. McAvinue, William McDonald, John Clancy, Michael Lynch, Daniel Wholey, Charles McQuillan, Andrew Molloy.

Refreshment committee, John Monahan, chairman; candy table, Miss Katherine McDermott, chairman. The members of the general committee are: Joseph Cunningham, chairman; Andrew Molloy, Timothy Wholey, Thomas Sexton, William McDonald, Matthew Wholey, Patrick Quill, Charles McQuillan, John Duffey, Michael Barry, Thomas Judge, Frank Cogger, Norbert Burns, Michael McDermott, John Clancy, Cornelius Cronin, Charles McQuillan, Charles Gallagher, John Cryan, Patrick Quill, Charles Brennan, John Walsh, Edward McCarthy, Thomas McKone, Mrs. Patrick Sexton, Mrs. John McNamara, Mrs. Lizzy Campbell, Mrs. Thomas Judge, Mrs. John Swift, Mrs. John Monahan, Mrs. George Hammon, Mrs. Daniel Quill, Mrs. John Bessington, Misses Loretta Shea, Gertrude Shea, Elizabeth Murphy, Elizabeth Murray, Minnie Farley, Mary Wholey, Katherine Wholey, Laura Cogger, Agnes Dunfee, Martha Dundon, Mary Manafin, Alice Sexton, Gertrude Schofield, Sadie Murray, Katherine Farrell, Marie Sullivan, Bernice McDermott, Christina Magoe, Stella Quill, Catherine Holmes, Katherine Magoe and Pearl Douglas.

In the baby show, held during the afternoon, the prize winners were as follows: Prettiest blonde, two years and under, Alice G. Brooks; prettiest brunette, two years and under, Malvina Raymond; smallest baby, Stella Gallagher; fattest baby, Josephine Gallagher; prettiest baby between three and four years of age, Rosanna Roberts.

TABOO FREAKISH SHOES

PERFORATIONS AND DECORATIONS WERE FROWNED ON—RETURN TO "NORMAL AND SANE" LINES

NEW YORK, July 15.—As a result of the meeting of representatives of the National Shoe Retailers' association, the National Boot & Shoe Manufacturers' association, the National Wholesalers' association and the National Last association, a decision was issued today against the so-called freakish styles of women's shoes. The manufacture of shoes of odd colors, heels at the side and back was disapproved and it was agreed to return to the more conservative fashioning of the coming season. Women's shoes for ordinary wear will be black with cloth uppers and to be proper the cloth must also be black. Perforations and other decorations were frowned on. This was described by the spokesman of the conference as a return to "normal and sane" lines. Men's shoes are to remain conservative in design and either black or tan.

If you want help at home or in your business, try The Sun "Want" column.

into effect at midnight. Hundreds of motor busses were used to carry many of the factory employees to their places of business this morning and they have been freely patronized during the day. The street railway officials say they hope to be able to operate some cars before the day is over.

JINXES BUSY AT WOONSOCKET

WOONSOCKET, R. I., July 15.—Local car barns were locked and not a street car was put in operation today as a result of the strike of the Rhode Island trolley men which began at midnight. Motor busses carried hundreds from surrounding towns to the local mills and also conducted Woonsocketers to factories in Burrillville and the Blackstone valley. Cars on the Milford, Attleboro and Woonsocket line run as far as the state line at Bellingham and the Worcester Consolidated cars come to the state line at Blackstone. Seventy platform men and 18 track men are affected here. There was no disorder.

SINGLE CAR RUNNING

DANIELSON, Conn., July 15.—With the exception of a single car running between Danielson and East Killingly, a distance of four miles, the Providence and Danielson trolley line of the Rhode Island company, a 30-mile stretch of road was tied up today as a result of the strike at Providence.

CHICAGO CARMEN WIN

14,000 WHO STRUCK TO BE GRANTED WAGE INCREASE AND TWO-YEAR CONTRACT

CHICAGO, July 15.—The 14,000 employees of Chicago's street car systems, who recently tied up the city's transportation facilities with a two days' strike, will be granted a wage increase and a two year contract instead of three, according to the Chicago Tribune today.

The award of the board of arbitration, which for three weeks heard testimony from company officials and employees will be made public tomorrow, the paper says.

The maximum wage will be not less than 35 cents per hour and probably 36 cents, the Tribune says. The maximum wage received now is 32 cents an hour.

The award will establish in Chicago the highest wages for street car men in the country.

70,000 MAY JOIN STRIKE

CONFERENCE IS TO DETERMINE WHETHER GARMENT WORKERS WILL QUIT IN NEW YORK

NEW YORK, July 15.—Whether the 70,000 garment workers still at work in the shops and factories of New York city would join the 21,000 already on strike was likely to be determined by a meeting of 12 men which began this forenoon and was expected to last all day.

The grievances of 50,000 women employed in the garment making industry came before the mayor's council of conciliation, which held its second business meeting today.

Employers and employees were represented by six men each in the joint meeting. The representatives were appointed at a conference this forenoon between employers and employees at the New York chamber of commerce. Dr. J. L. Magness, through whose efforts the conference was arranged was selected as chairman. There was a hopeful feeling among the conferees that the joint meeting would result in averting a general strike.

STRIKE AT BRIDGEPORT

REMINGTON ARMS CO. WORKERS IN RIOT—UNITED STATES MAY ASSESS PENALTY

BRIDGEPORT, Conn., July 15.—With the labor troubles at the great plant of the Remington Arms Co. rapidly growing more complicated and threatening, industrial Bridgeport today turned its eyes hopefully to a conference to be held during the day between Maj. W. W. Penfield of the company and a committee of the millwrights' union in an endeavor to adjust the differences growing out of the company's construction work. Reports are current that the hod carriers, holting engineers and members of the sheet metal workers' union will soon go on a sympathetic strike with the structural

Iron workers unless the troubles are smoothed over.

There is also said to be unrest among machinists in other shops in the city, following the announcement that the Remington company had voluntarily made a reduction from a 10-hour day to one of eight hours with no change in pay for the company men.

Predictions are made that other shops will be asked to make similar concessions.

In view of a disturbance last night, when a laborer was beaten by one of the guards because he stepped over the so-called "dead-line" where the construction work is in progress, extra precautions have been taken by the company to prevent trouble.

Early today the millwrights stationed pickets near the company building.

BRIDGEPORT, Conn., July 15.—One hundred workmen, 24 men and 76 women, took part in a fierce riot last night at the new plant of the Remington Arms company, where small arms for the allies will be made. The riot brings to fever heat the labor excitement of the past week which Tuesday caused the walkout of the structural iron workers at the

plant and yesterday a walkout of the millwrights and the iron workers of the new plant of the sister company, the Remington Union Metallic Cartridge company.

It is said here that the United States contemplates making a government arsenal at Bridgeport.

TENNIS TOURNAMENT
SAN FRANCISCO, July 15.—Four San Francisco players were to compete today in the singles semi-final matches of the Panama-Pacific exposition tennis tournament. Maurice E. McLoughlin, former national singles champion, was to play John R. Strachan, California singles champion, and Clarence J. Griffin was to meet William F. Johnston.

As a result of the defeat yesterday of R. Norris Williams, 2nd, of Harvard university, national singles champion, by Clarence Griffin, eastern player, were eliminated from all semi-final contests with the exception of one doubles team, Dean Matthey and G. M. Church of Princeton university have won preliminary matches and were scheduled to appear today against W. N. Ambrose and F. Bass of San Francisco.

SHOWS BIG INCREASE

REVENUE BUSINESS GOOD—LIQUOR AND INCOME TAXES CAUSE RAPID GROWTH

BOSTON, July 15.—According to figures given out by Collector John F. Malley, business at the local internal revenue office which covers the entire state has nearly doubled in four years. This is due to the money collected from the income tax, which went into effect last year, although the tax from fermented liquors shows an increase of over \$500,000 over the previous years.

The total amount collected from all sources during the year ended June 30 was \$12,044,025, as compared with \$9,116,791 for the fiscal year of 1914, an increase of \$2,927,234. In 1913, the total collections amounted to \$7,239,875, and in 1912 they were \$7,223,121. There has been a gain of approximately \$5,000,000 since Collector Malley came into office.

One of the greatest sources of revenue was the income tax, a total of \$4,536,141 being collected. This is \$1,032,075 more than in 1914, the first year of the tax, when a total of \$3,504,066 was taken in. For this year corporations contributed \$1,853,082 to the income tax total, while \$2,683,105 was collected from individuals.

These figures show a decrease of \$145,146 in the amount collected from corporations, and an increase of \$1,177,221 in the individual collections. The largest source of revenue was fermented liquors and distilled spirits, which together brought a total of \$3,522,959 into the treasury, an increase of \$650,193 over last year, when \$4,872,765 was taken in from these two sources. This year \$2,361,165 came from distilled spirits and \$3,171,793 from fermented liquors. Last year distilled spirits brought in \$2,332,658 and fermented liquors \$2,540,107.

An added source of revenue this year was the special war tax which brought in more than \$1,000,000. A total of \$1,044,335 came from the sale of documentary and proprietary stamps, while brokers paid special taxes amounting to \$25,285, bankers \$126,112, theaters \$24,533, and bowling alleys and billiard tables \$29,945.

From registrations and the sale of blanks under the new narcotic law, in effect March 1, a total of \$9,696.29 was realized. The remainder of the total collected came from the following sources: Tobacco and cigars, \$132,141; butter, \$327,400; margarine, \$19,493; miscellaneous, \$123,683; penalties, \$15,380. Last year the revenue from these sources was: Tobacco and cigars, \$612,667; butter, \$202,000; oleomargarine, \$14,207; miscellaneous, \$137; penalties, \$4927. An increase is shown in nearly every instance.

Collector Malley stated that more than a third of the business was done in the month of June when \$4,473,933 was collected. The last day of the month \$1,513,076 was collected.

OF INTEREST TO WOMEN

The newest of London's 600 railway stations, which has just been opened is situated entirely by women, from stationmaster to porters.

Perhaps the most coveted of all orders for women is the Golden Rose, which is bestowed upon pious daughters of the Catholic church by the pope.

Miss Anna Robertson, head of the millinery department of a large New York firm, has just started on her forthright trip across the Atlantic.

The Illinois Mothers' Pension law has been amended so that mothers whose husbands have deserted them will be eligible to receive pensions.

Miss Jane J. Martin, head of the advertising department of a large trading stamp concern, is said to be the highest paid woman in advertising work.

Paris has many women physicians of distinction, and the greatest among them is Mme. Klumpke-Delorme, celebrated for her researches in neurology.

amount features have been secured for the enjoyment of the public will be received with pleasure. Since the opening of this theatre the celebrated make of pictures has proved to be decidedly popular among local theatre-goers. The celebrated star, Charlotte Walker, will be seen in the leading role of the new Paramount picture in five acts, entitled "Kindling" today, Friday and Saturday. Officer 566" is the other five act Paramount feature which will afford intense delight to the patrons of this theatre during these last three days of this week. "Officer 566" is a sparkling comedy which attracted such attention when it appeared on the legitimate stage. The photo production of this play is every bit as interesting. Besides these two big Paramount features there will also be seen at this cool, comfortable theatre during the remainder of this week a very humorous Burns and Stoll comedy hit. This is one of the latest of these internationally famous fun makers. As is evident, this program is one of the largest and best that this theatre has yet offered to its patrons.

B. F. KEITH'S THEATRE

"My Best Girl" is the rather luscious title of the new Metro picture to be shown at the B. F. Keith theatre the concluding half of the present week, beginning this afternoon. It is a screen adaptation of the comedy written by Cheimung and Harold Lloyd Wolf, and it is guaranteed to prove every bit as pleasing as the original comedy did. That is putting high praise on it, but it must be recalled that "My Best Girl" was one of the past season's biggest hits. The cast of 38 principals in this piece will be headed by Max Flegman and Louis Meredith. Mr. Flegman has scored successes in "The Man on the Box," "The Truth Wagon" and "What's His Name?" and Miss Meredith, last season appeared in "The Woman and "Help Wanted." The screen arrangement is in five acts, and in over 200 scenes. It has been said that comedy is as hard to play in pictures as it is on the boards, and that is very hard indeed, if one is to bring laughter with it. But Mr. Flegman has the rare knack of projecting a comedy atmosphere about everything he enters into. The story, what there is of it, concerns the work of an old chemist who is experimenting in high explosives. Very poor, he receives aid from a wealthy collector who is interested in the same subject. The college man loves a girl, and the girl later turns out to be the daughter of the chemist. The complications are decidedly interesting. Five other pictures will also be shown.

CANOE LAKE PARK

There is no mistaking the fact that Marshall Hall's Merry-makers are making a tremendous hit at Canoe Lake Park theatre this week. It is a most extraordinary offering for a summer park and with the real mild weather striking in this week, thousands of patrons have journeyed to Canoe Lake to revel in the cool lake breezes that are continually sweeping the big park. Added interest is gained for the Merry-makers since the big picture of 15 acts includes Walter Morrison, the popular favorite, who was seen in this city with Homan's Musical Revue during his engagement at a local theatre. "The Ragtime King," as he was familiarly known in this city, has lost none of his quality in handling his syncopated melodies.

The company carries its own orchestra, which, as might be expected, adds just so much to the perfection of the entire offering, for, be it known, a strange orchestra can sometimes offset the best efforts of the most talented artists. Perhaps the most talked about and universally commended feature of the program is the presentation of "The Dance of Death," a spectacular, novel and decidedly artistic offering in the terpsichorean line that stirs the patrons to storms of enthusiastic applause. A row of the big musical comedies touring the big cities present such an elaborate spectacle as this which makes it all the more surprising for a summer park.

"The Midnight Cabaret" is another big spectacular offering, introducing all of the popular song successes of the day, a host of clever dances and a general mixture of capers and celebrations that put life and zest into the program in no stinted manner.

DR. THOMAS JEFFERSON KING

Dr. T. J. King, Lowell's famous painless dentist, has moved his office to 133 Merrimack street, where he will continue the practice of painless dentistry in the same careful and conscientious manner as in the past. Dr. King states in an interview: "The opportunity to secure new offices in a better and more modern building has presented itself at this time and I have fitted up the most modern and up-to-date dental office in this section. I have spared no expense, and I have provided every known betterment for the comfort of my patients. Absolutely painless methods and moderate charges for high grade painless dentistry will prevail. You are cordially invited to inspect my new office, even though you need no dental service."

I respectfully solicit your friendship and patronage, also the patronage of your friends, and you may be assured that my fees will remain the same. The lowest possible cost, consistent with good work and the best materials.

YOUR BOYS AND GIRLS

Sometimes a girl of 16 finds her dream embodied in a youth of her own circle. He is the untroubled boy of whom the mother knows little or nothing. This time the mother often finds with danger though neither boy or girl wish evil to the other. The boy, too, is only an inexperienced young creature, thirsting for life like her. They often look forward to a life of love together, heedless of the fact that neither is fitted for life's responsibilities.

Sometimes when a mother discovers one of these youthful romances, her first sensation is that of anger. Yet, if ever a girl needed gentleness and kindness and consideration, it is at this time. She should not be scolded like a naughty child taking forbidden fruit for the right treatment will make her a loyal friend of her mother at all times, turn her into the way which leads to good and noble womanhood, and save her from other and more serious mistakes. The wrong treatment may forever alienate her confidence and trust.

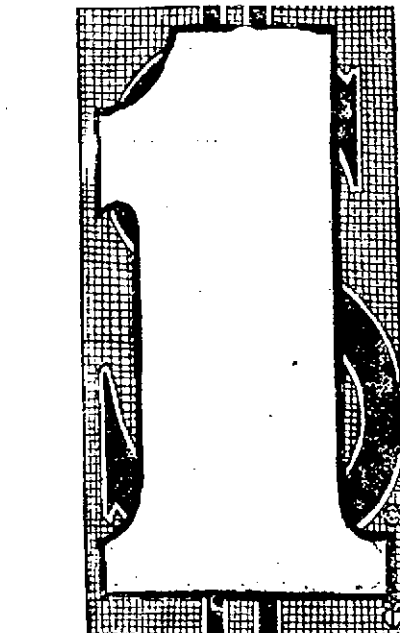

Cleanliness is one of the foundation stones on which is reared the beautiful structure of baby's good health and good temper. When it is neglected all sorts of weaknesses, discomforts and irritations creep in. Uncleanliness invites disease and furnishes a lodging place for germs. Moreover, the baby who starts off in life being comfortable and free from habits which it never loses.

No outsider has the same opportunity, and no other can have the real interest of the boy at heart. As a parent, the mother must have a thorough knowledge of the child, his natural inclination, both moral and intellectual, are a necessity. In order to comprehend my boy and his sure of his motives and must know his thoughts without forcing his confidence. And if I can keep his confidence I feel that I have held the line of the surest means of helping him.

ENUMERATORS ARE ANGRY

ENUMERATORS AIR ANGEL

State census enumerators in Lowell and elsewhere have become restive because their pay has not been forthcoming. Mr. Alex Peeteau had charge of the work in this city and he said today that some of the enumerators have called on him to ascertain the cause of the state's delay in paying them for their work.

Mr. Peeteau explained to them that the chancellor takes two or three months to check up the work and those who have become restive will take heart at the news which comes from

"The appointments were made in March following exemptions in Jan-

There has been a good deal of criticism among the enumerators in this

and other cities and Mr. Pecteau says that Mr. Gettenby is well aware of the fact, but the character of census taking was such as to make delays unavoidable.

One critic of the present system of canvassing said:

"It will come as a distinct surprise to the average citizen of the state to learn that only a few hundred of the 2100 enumerators employed in the census work have received any pay for their services, which are of a rather exacting and strenuous kind. The appointments for the position were made

payment way beyond the bounds of reason or common sense. No doubt many of the payments will be passed on to the 'heirs and assigns.'"

"At least part of the amount due should have been remitted on receipt of the completed returns. Probably the payment of the census was the last most meagre where the population was mixed, although with not enough foreign element to allow the employment of interpreters. One of these enumerators has said that he could not make \$2 a day.

"The districts were without inspectors or supervision, and de-

on civil service lines. Examinations were held in the early part of the year, and in many cases candidates were required to travel considerable distances and lose a day with expenses to qualify.

"The pay offered was one cent for schedules, giving the army service of Civil war veterans one cent for family schedules, 20 inquiries, 2½ cents for male and female of 35 and 28 inquiries respectively, with more in remote country districts, and usually no ex-

ence was placed on old maps and bliprints. These could not be depended upon to show the actual trend of the population of 1915, hence some enumerators finished early, while others in newly settled sections were long delayed.

"There has been a good deal of discussion as to the ability and value of the State census, but when the State does undertake the work, the actual field workers should be fairly promptly paid."

RACE FOR \$25,000 PURSE

FALL AUTO RACE ON THE CHICAGO SPEEDWAY POSTPONED TO OCT. SIXTEENTH

CHICAGO, July 14.—The fall automobile race meeting originally arranged for the new speedway on Sept. 19, has been set back to October 16, it was announced today. The race will be over a distance of 350 miles and for \$25,000 purse.

THE BOARD OF TRADE \$20,000 FIRE IN BOSTON

WILL HOLD ITS ANNUAL OUTING AT CANOBIE LAKE PARK JULY 29

Thursday afternoon, July 29, has been set as the date for the annual outing for the members of the Lowell board of trade and the event this year will be held at Canobie Lake park. Special electric will convey the excursionists to the summer resort, leaving Merrimack square at 12:15 o'clock and upon arriving at the park a dainty dinner will be served at the pavilion. After dinner speakers will be provided for and it was stated this morning by those in charge that the discourse will be brief.

The afternoon will be devoted to sporting events, this part of the program having been placed in the care of Arthur W. Saunders, and arrangements will be made for those who attend to return to Lowell whenever they please by regular cars. The names of the speakers will be announced later.

IN CELLAR FOR WEEK

40 AGED MEN AND WOMEN FORCED TO HIDE TO ESCAPE GERMAN BOMBARDMENT

PARIS, July 15, 3:45 a. m.—Forty aged men and women, many of them paralytics, arrived here this morning from Neuve Eglise (Nieuwerkerke) Flanders, where they had hidden in cellars for a week to escape a German bombardment. They were attended by nuns.

If you want help at home or in your business, try The Sun "Want" column.

THREE ALARMS SOUNDED FOR BLAZE IN GREEN STREET BUILDING

BOSTON, July 15.—Several firemen were blown downstairs in a hot air explosion, and the Hendricks club headquarters, the citadel of Martin Lommasney, was threatened during the course of a three-alarm fire in the New England Reed company's plant on the top floor of the brick building at 11A Green street, West End, about 7:25 last evening. The loss was about \$20,000.

The fire was discovered by a citizen, who hastened to the quarters of engine 4, on Bulfinch street. Before that engine pulled out an alarm had been sounded from box 1334.

Acting District Chief Frank Sweetney, Lieut. Downey of engine 4 and Hosemen McNamara, Boudreau and Humphreys took up a position on the top of the stairs inside the building. They were directing a stream of water upon the flames when a hot air explosion occurred. The men were bowled down stairs and for a time lost control of the hose, which thrashed about. District Chief Sweetney lost his helmet. They escaped injury, however.

SUGAR DESTROYED

More Than 3300 Tons Ruined by Fire at Hilo, Hawaii, P. I.—Several Buildings Wrecked

HILO, Hawaii, P. I., July 15.—More than 3300 tons of sugar were destroyed in a fire which caused the destruction of a large number of buildings here last night. The sugar, valued at \$150,000, represented three-fourths of the loss.

101 RANCH HERE TOMORROW WITH JESS WILLARD—BIG STREET PARADE

REAL COWGIRL WITH 101 RANCH

Tomorrow will be a busy day in Lowell for Miller Bros. & Arlington's 101 Ranch Wild West show and Jess Willard, the cowboy world's champion, will be here.

The big show will arrive at an early hour, and as expeditiously as possible the long trains will be unloaded in the B. & M. yards and the camp outfit transferred to the exhibition grounds at the old race track where the tent city is to be erected. It goes without saying that there will be a big crowd on hand to watch the unloading of the show and to see the always interesting operation of installing the show on the "lot." There are it is announced, nearly 50 big and little tents, and in combination they constitute a veritable city of canvas. One of the tents that will probably excite particular attention will be the "Jess Willard Pavilion," where the champion makes his headquarters on the grounds.

By 10 o'clock the Wild West city will be in busy, active operation; the flags will be flying; the red lemonade man of former days, who has reformed his ways and now tempts the thirsty pub-

lic with certified soda pop and ice cream cones, will be ready for business; the Indians, painted and feather-bedecked, will be on their ponies, waiting for the bugle to give the signal for the parade; the cowboys will be hurriedly getting into their "chaps"; the cowgirls will be putting the last feminine touches to their picturesque costumes; the long haired, overland stage driver will be having all kinds of trouble trying to keep the six army mules from starting down town ahead of schedule time, and Jos. C. Miller, the ranchman, and Wile Chief of the Poncas, will be ready to give the word that will start a mile of Wild West people, horses, ponies, burros, long horned steers, buffaloes and tableau floats on their hike to the business section of the city. The line will leave the grounds about 10:30.

The afternoon performance takes place at 2:15 and the night show at 8:15. A strenuous program is promised. There will be reproductions of scenes during the historic days of the old west, when horse stealing was a crime more heinous than murder; battles be-

tween Indians and white settlers; a buffalo hunt, showing how the Indians stalked the wild bison; rough riding by daring cow punchers and cowgirls; crack shooting, roping and other exhilarating events.

The management announces that Jess Willard, who was a cowboy before he became a champion, will positively and actively appear in the big arena in several of the strenuous ranch numbers. Later, with a sparring partner, he will illustrate the famous 25th round, in which Jack Johnson went down to defeat. The desire to see the giant Kansan seems to be universal.

Seats will be on sale all day tomorrow at Liggett's Pharmacy.

PRISONERS OF WAR

TRAINS WITH DISABLED FRENCH AND GERMANS PASS EACH OTHER AT BERN

BERNE, Switzerland, July 14, 10:29 a. m. via Paris, 8:15 p. m.—A special train loaded with French prisoners of war, permanently disabled, on their way home from Germany, passes here every night another special filled with similarly crippled Germans who are returning from France. After this exchange is completed 3000 members of the sanitary corps of the two nations will be transferred from one country to the other.

It is reported at Constance that 2000 French sanitary troops are being held on the German frontier awaiting transport home.

WALKING ON A WAGER

TWO OF THE WALKING CRANKS REACHED LOWELL LAST NIGHT AND HURRIED AWAY

Mr. and Mrs. T. B. Jackley of Boise, Idaho, who are walking 25,000 miles on a \$1500 wager, arrived in Lowell last night after completing 23,000 miles of the journey. Their trip includes every state in the union and it will wind up, after they have visited the capitals of New Hampshire, Vermont and Maine.

The couple were members of a party of three men and three women, who left San Francisco, Cal., Sept. 12, 1912, and they now form a party by themselves, the other having dropped out enroute. At the conclusion of their trip they will return to California, where they will visit the expositions.

HELD LAWN PARTY

The Ladies' Bible Class of the Emmanuel Baptist Church at Norman Lett's home

The home of Mr. and Mrs. Norman Lett in East Chelmsford was the scene last evening of a most enjoyable lawn party held by the Ladies' Bible class of the Emmanuel Baptist church. The grounds were prettily decorated by electric lights and Japanese lanterns. A large crowd of members and friends of the church was present and everybody had a good time. There was a drill by eight young women of the high school freshman class and other features of the entertainment included vocal solos by Philis Lord and Fred Campbell; xylophone solos by Romeo Couture, and cornet numbers by Arthur Heller. The following committees were responsible for the success of the affair:

Supper committee: Mrs. Herbert Southworth, chairman; Mrs. Charles Winslow, Mrs. Alexander Campbell and Mrs. George Reynolds.

Ice cream and tonic committee: Mrs.

H. Hurlander and Mrs. Alfred Blades. Entertainment committee: Miss M. H. Popplewell, chairman; Mrs. Mary Winslow, Mrs. Fred Campbell, Miss Hazel Osborne and Mrs. Norman Lett.

POLICE COURT SESSION

T. J. O'BRIEN IN COURT AFTER EXTRADITION FROM N. H.—OTHER CASES

Thomas J. O'Brien was brought to this city from Keene, N. H., this morning by Inspector John A. Walsh, after losing a hard fought battle in the New Hampshire courts in an effort to evade being extradited to the state of Massachusetts for trial of a statutory offense. O'Brien, who lived in Nashua and Keene, N. H., was arraigned in court today and after pleading not guilty was held over for a week in \$500 surety.

Early last month a young woman made a complaint at the police station about O'Brien, who was stopping in this city at the time, and a warrant was issued for his arrest and sent to the Keene authorities. The district attorney's office was called into the case on June 23 and started proceedings to bring the defendant to Lowell as he had refused to come on the warrant. He was then declared a fugitive from justice and another warrant was issued by the clerk of the local court. Extradition papers were made out by the district attorney's office, approved by the attorney general and signed by Gov. Walsh. Inspector John A. Walsh was then given the papers and sent to interview Attorney General James B. Tuttle of Concord, N. H., who, in turn, arranged for a hearing before Gov. Spaulding, which was held last week. John F. Benton of Keene represented O'Brien and Deputy District Attorney Crowley the state of Massachusetts.

After a long hearing before the New Hampshire governor, the extradition papers were approved and O'Brien was ordered returned to Lowell. The defendant then asked for a writ of habeas corpus and another delay was caused, the final hearing being held last evening in Keene before Judge Kivel. The habeas corpus writ was refused O'Brien and he returned to this city today in time to appear in court.

This is the first case of the kind to come up in this city and perhaps in the state as the law allowing Massachusetts authorities to bring defendants on this charge from another state was passed only about a year ago.

There were only two other cases in court this forenoon. Vincent Kapala was adjudged guilty of keeping an unlicensed dog and fined \$10 after Deputy Downey had told the court of the numerous complaints being received at the station relative to dogs biting pedestrians. One woman was sent to jail for 30 days for drunkenness.

AT THEIR NEW LOCATION

The Broadway Wholesale Millinery company moved today from its former location, 196 Merrimack street, to 153 Central street, over the L. E. shoe store, and next to A. G. Pollard company. The store did business at its old location until 5 o'clock last night when the work of moving the fixtures to the new location took place. Extensive alterations and repairs have taken place in the new store which now presents a new and pleasing appearance. The Broadway will start business tomorrow in its new store and carry new goods, their old stock having been sold at its recent sale.

MATRIMONIAL

Carleton A. Wilson and Miss Sarah Thorpe were married yesterday at the home of the bride's parents, Mr. and Mrs. James Thorpe in Wiggsville, the officiating clergyman being Rev. A. B. Riggs. The bride was attended by Miss Hannah Thorpe and the bridegroom by Thomas Alway. At the close of the ceremony a reception was held at the home of William A. Wilson, 414 Bridge street. The happy couple will be at home of their friends after August 1 at 15 Fifth street.

THE LOWELL SUN

JOHN H. HARRINGTON, Proprietor

SUN BUILDING, MERRIMACK SQUARE, LOWELL, MASS.

Member of the Associated Press

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

DANIEL'S GREAT MOVE

It has been considered the proper thing for some time by a great many of our embattled editors to scoff at everything relating to the American navy and to pour the vitals of their ridicule on Secretary Daniels. Apparently indifferent to attack, Mr. Daniels has striven to bring the navy up to a high point of efficiency, and he is at last succeeding. Fairness would lead any unbiased student of recent naval conditions to testify that Secretary Daniels has improved the condition of the enlisted men and given the profession a higher standard, has protected the country against the machinations of selfish patriots whose zeal was based on their pocketbooks, has given a free hand to any expert influence that would provide for greater effectiveness and has striven to apply the lessons of the present war to the department which he heads. One of the most persistent critics of the Daniels regime is George von L. Meyer, former secretary who forgoes in his antagonism to the present administration that the faults of the navy, such as they are, were a part of the republican heritage taken over by the democrats.

One reform that will reflect great credit on Secretary Daniels and silence much hostile criticism is his selection of an advisory board of private inventors to bring the American navy to such a point of efficiency that it will lead the world. This board will be headed by the world's most famous inventor, Thomas A. Edison who has patriotically determined to give his own country only the result of his wide experience and his genius. It will probably also contain many of the greatest men in American scientific life and army and navy experts who have given special attention to war developments. Among the names mentioned are: Hudson Maxim, Orville Wright, Alexander Graham Bell, Henry Ford and John Hayes Hammond, Jr.

It has long been a complaint of American inventors and a reproach to America in a national sense that our men of genius found recognition in foreign countries and indifference at home. Some of the most effective instruments of the great war at the present time are the results of American invention, but the inventors after vainly striving to interest this government were forced to seek a field of operations in other countries. In one sense, this was inevitable, for we were not actuated by the militarist spirit that made Germany and other European nations utilize every resource of civilization in the cause of war, but in the end this country has been the loser. Now, even our leading pacifists see that if we are to have an army or navy at all, it must be efficient enough to compete with other armies and navies, and so it is well that our government shows a disposition to recognize American ability and utilize it for the safeguarding of the nation.

The iron clad, the aeroplane, the submarine and other great instruments of modern warfare were born in America; in America is the most distinguished band of inventors in the world of science. Coupling the two facts, and providing for government co-operation, is there any reason why the American navy should not lead the world in efficiency? The navy is our great asset for national defence and nothing has been done for years that promises greater naval improvement than the formation of an advisory board of American inventors. With Edison and other world figures working on the problems of the submarine, aeroplane, etc., this nation will certainly keep pace with the foremost if it will not completely revolutionize warfare. Secretary Daniels has made a very telling answer to his traducers—and their name is legion. It is now in order to keep the work of his department a strict secret.

QUITE A DIFFERENCE

There is a great wave of indignation in England, France and Italy against the more rigorous form of the censorship that prevents many facts of the war from reaching the people. There is no wave of indignation in this country against the politicians and military authorities who shout our shortcomings from the houseposts. This is a difference that is by no means complimentary to us.

Only a few days ago, it was declared in the English parliament that for years Germany has prepared secretly for war, and everybody who reads the newspapers knows that the other powers had no idea of the extent of German preparation. Though it was the business of some government departments of all nations to keep posted on the condition of other nations, Germany managed to keep her national secrets inviolate. In this was a great national strength, and even today there are many phases of internal German matters on which the outside world is dark. Concerning the submarines and Zepplins, for instance, there is only a vague knowledge outside of German official circles.

On the other hand, Germany kept pretty well posted on the state of all other nations. Through her spy system and efficient methods, tabs were kept on the conditions of possible rivals, and the result was of incalculable value to the German government. Knowing this, all countries

have sought to preserve their respective secrets, and all have striven to give the impression that they were thriving and in the highest state of military efficiency.

The one great exception has been America, the military secrets of which are the sport of every rabid politician and windy agitator. For months many prominent leaders of public opinion have said things about our army and navy that we would resent strongly in the mouth of another, and there is no need for any power to send spies or military emissaries here to discover our secrets. We no longer have any secrets, since our army and navy have been made a football in partisan politics. When will America see the danger of it?

DAYTON CITY MANAGER

Just as the commission form of government which we enjoy has been linked with the city of Des Moines, Ia., the city manager idea is being linked with Dayton, O. A little over a year ago, the city of Dayton adopted the city manager form of government, and on the completion of a year a report was published which, if true, makes a strong argument for the city manager wherever a city suffers from municipal inefficiency. The Dayton city government consists of five commissioners and the city manager who is supposed to see that men of fitness and ability and not mere politicians are at the head of municipal departments.

That part of the report which deals with the improved financial condition of Dayton will especially interest Lowell. We quote:

"The results which have been secured from this separation of legislative and administrative powers and the elimination of departmental rivalries have been notable. In the management of public funds alone new methods have more than justified the change. Public expenditures have been strictly within the income, instead of an annual deficit of \$60,000 a year which prevailed for the six years previous. An accounting system is being installed equal to that of any private concern in the country, and which will furnish a complete control over both funds and property. Liabilities may not be incurred unless there are funds for their liquidation, thus absolutely preventing over-drafts. Funds are appropriated in accordance with a detailed budget classified by activity of departments and character of expenditure. Supplies and equipment are being standardized, and the purchasing division is buying from the lowest and best bidder and not from friends of the administration.

"In place of a record of cash receipts and cash expenditures, suitable to a cross-road grocery and which prevailed in practically every municipality, Dayton has made possible a balance sheet, supported by distinct schedules for each public utility and industry owned; provided an adequate control over permanent property, equipment and stores; and has a definite knowledge of amounts receivable and of liabilities incurred, so that no revenues may escape collection, nor appropriations and allotments be overdrawn. Adequate centralized accounting has insured the payment of the thousands of dollars of revenue formerly lost; made overdrafts impossible; discovered errors of over two hundred thousand dollars in sinking fund calculations; makes all disbursements by checks; and controls the cost records installed over street repairs, street cleaning, garbage and ash removal, etc."

The report goes on to state that the most notable savings have been made in the purchasing of supplies, savings "which will amount to more than \$33,000 on an expenditure of \$200,000." A department may not purchase until its requisition has been approved by the manager, and the purchasing agent does not order until he is assured by the accounting division that appropriated funds are available. The report also makes this boast: "Prices are ten per cent to ninety per cent less than those formerly paid. Bills are discounted at two per cent for payment within ten days after the first of the month following."

That the improvement in finances, etc., has not been at the sacrifice of public service or efficiency is the claim of the following:

"In public works the handicap of inadequate funds has been overcome in part by increased efficiency. The extension of service has been unusual. Inspection of public contract work has been completely reorganized and contractors rigidly required to conform to specifications. Street repairs are being made entirely from public revenues with the exception of a balance from bonds issued in former years; there is almost complete absence of street cleaning; streets in the business section are flushed for the first time in the history of the city; collection of rubbish and ashes has been reduced after a year of lapse and made efficient and reasonably adequate garbage collection is to be had for the first time in ten years. In the division of water every effort has been made to secure a supply more nearly equal to the demand. Pumping machinery has been overhauled, leaks investigated, pressure increased, and in the face of increased pumping there has been a decrease in the amount of coal burned. A municipal garage has been established."

It would seem from this report that Dayton has really benefited by the substitution of a business administration for the petty political administration from which most cities suffer, Lowell included. There is the danger, however, that the best ideal in municipal matters would in time deteriorate and Dayton will have to fight hard against dangerous influences in the body politic if it would keep up the present high standard. If the Dayton report is honest, it has good reason to crow, and all the cities in the country will sit up and take notice.

VETERANS' QUARTERS

The conference held at city hall Tuesday evening relative to the advisability of opening new quarters for the veterans of Lowell, brought out some interesting expressions of views though it showed that a wide difference of opinion exists. It was shown

conclusively that the basement of the Memorial building would not be at all suitable for the purpose and that to eliminate the reading room would be an injustice to the Lowell public. The factor of convenience for the veterans is not important enough to warrant such a sweeping change. For the time being there is no especial objection to the use of the old council chamber in city hall for veterans' meetings, provided the proper precautions are observed. Furthermore, if the veterans are to use their old quarters on the restoration of the Memorial building, it should be only under circumstances that would remove the danger of a repetition of the fire.

Furthermore, the remarks of Mr. Solon W. Stevens showed the necessity for a more thorough system of fireproofing the hall and its contents. Such things as we lost in the fire would have been adequately protected in other cities, and it is too late to regret our lack of foresight when we mourn for battle flags and relics that once destroyed can never be restored. Before Memorial building is again opened, the city library and the precious contents of the upper rooms should be placed beyond the risk of loss by fire.

DAISY TIME

From the time of the early violets that hide in the woodland grass to the lavish wealth of the Autumn goldenrod there are many varieties of American flowers but none is more beloved than the daisy which now decks the meadows. It is the summer flower by right of eminent domain and it is as liberal of its charms as flowers of far less elegance of form and beauty of color. Whether it be a flaming golden daisy with a heart of midnight black, or a virgin daisy with a heart of gold, it is the flower of love's young dream and vacation fields. Beloved of the amateur photographer, it has delighted many an artistic eye by its background possibilities, and it seems to belong to a picture of the summer girl with wide-brimmed hat and muslin gown. Our fields do not know the "wee modest crimson tipped flower" that Burns sang,—the daisy of Shakespeare, Chaucer and Keats, but we have a wealth of the statelier daisies that grow in the long grass and fill the summer fields with stately beauty.

A Boston paper makes a great headline on the news that reservists of one of the belligerent powers sailed, gay and laughing. This is commonplace. All of the armies have gone out laughing; the crying is done in the homes they leave, many for ever. Another picture is shown by one of the peace delegates from The Hague who quoted a military man as saying that one of the terrible sounds of the war is the voice of the wounded calling for their mothers.

At last Wiggville is to have a sewer. About time! No section needs a sewer more truly, and as for the cost of \$20,000—that's a mere bagatelle when we have been used to talking of \$70,000 or \$750,000.

The situation is critical; the situation is not critical. The president is firm; the president is undecided. The note will go at once; there will be a long delay. Germany will yield; Germany will not yield, etc., etc. Help!

What has Springfield done about the contagious disease hospital?

SEEN AND HEARD

The man who knocks his town has a family that is in need of the sympathy of neighbors.

Some of the habits of the ostrich are worthy of emulation by the human kind. We do not refer to the diet of the bird, but to the fact that they make but one long life. Isn't that an improvement?

THREE CHEERS FOR JIMMIE

An office boy in the employ of a big concern went on a errand that should have taken him 15 minutes to perform. It was nearly an hour before he got back.

"Look here, Jimmie," heathily remarked the boss when the youngster finally blew into the office, "does it take you an hour to run down to the corner?"

"It did this time, Mr. Smith," frankly answered Jimmie. "A man dropped a quarter down a hole in the pavement."

"I saw," sarcastically returned the boss. "I suppose it took you all this time to get it out?"

"Yes, sir," innocently replied Jimmie. "I had to wait until the man went away!"—Stray Stories.

TOUGH LUCK BUT GOOD PAY

"Friday is such an unlucky day," she sighed.

"It isn't half so unlucky as Tuesday," retorted her companion. "Last Tuesday, for instance, I fell out of a second-floor window, and was run over by a rat's meat barrow."

"How terrible!" she exclaimed, shuddering.

"Yes, and on the Tuesday before that," he continued, "I tumbled into a duck-pond and was brought out on the end of a boat-hook. And the Tuesday before that I was chased by a infuriated bull. On the Tuesday before that—But why continue?"

"Why don't you stay at home on Tuesdays?"

"You would be safer at home," he replied. "I'm a motion picture actor, you see, and on Tuesday we make our comic films."

WAS SOME CALCULATOR

Private Ananias certainly was a good

about the blighter on the left. Another time I was—

But the audience had fled.

CONFESSIONS OF A FAT MAN

"If a fellow comes up to me and says, 'Old scout, you're looking thinner!' It tickles me clean to my fool, fool soul."

And I ask him out to dinner.

I lie to myself, for in my heart I know I'm getting fatter.

If I fell off the Woolworth tower, Great Heavens, how I'd splutter!

On a hot June night when my chest chokes up

And my heart begins to stutter, Fear grips my throat and I swear off From beef and beer and butter.

But when day comes nine obese brain,

Consulting with my tummy, Backslides and makes some fat remark Like, 'Who would be a mummy?'

By night I suffer and hate my fat,

By day I grin and bear it, Though fatness seems an affair of the flesh,

It starts in the blooming spirit.

I kid myself and I lie to myself,

But I stick to beef and butter; If I fell into Vesuvius,

Good Heavens, how I'd splutter!

—New York Evening Sun.

SPARE THE LAMBS

Protest against the killing of young cattle and lambs for food, on the ground that it diminishes largely the supply of meat and leather and thereby works an economic loss to the community, is made by Hilde and Leather in its current number.

The publication cites a St. Louis news despatch to show that prevailing beef prices indicate scarcity of cattle and incidentally of leather. The article continues:

"Dealers in hides and leather under-

stand the situation, but we do not believe the general public realize what we are coming to by this falling off in the supply of meat or how it affects the cost of living. Eventually meat prices will be so high as to make it practically prohibitive to persons of small means and help to make poor children and men with little money so barefooted."

"There is, however, one remedy which might help considerably, and that is to prohibit the slaughter of calves and young lambs. There is no justification for this practice whatever. It profits no one. A young calf brings but a few dollars. It allowed to grow until two or three years of age, it may bring \$100 or more. If it is a steer and two-thirds as much if a heifer. Veal is not especially nourishing or digestive food, while good beef and milk are."

—New York Evening Sun.

FIRE IN BRICK STORE

A small fire in a pile of waste paper in the fruit store of O. L. Swanson at 79 Merrimack street caused an alarm from box 217, Paige and John streets, at midnight. The fire was promptly extinguished though considerable damage was done by the large quantity of smoke that poured through the building.

IN MILADY'S BOUDOIR

Dancing

The woman who does not "do the new dances" is going to have a bad time of it this summer. She will feel very much like the wall flower sitting apart while everybody else between babyhood and extreme old age is dancing to the strains of brass band, orchestra or phonograph.

Dancing is more than a craze. It is more than a passing fad. It will undoubtedly cease being the obsession it is just now after the novelty has worn off and in the big cities one will no longer be anxious to pay one to three dollars admission simply for the pleasure of being present where dancing is going on.

The new dances may not be learned in an evening. The steps are intricate and require a great deal of practice. Every dancing master is anxious to originate a new step and make his name famous.

If you would be happy in this age of tango and kindred dances, learn to dip, slide and heelste, for the only way to be truly happy is to take an active interest in every passing fancy which keeps one apace with the world's progression.

WILL RECEIVE THEIR PAY

The Bay State Cotton corporation on Marginal street, manufacturers of tire fabrics, special ducks and sail cloth, has notified its employees who are camping with the state militia that they will receive their wages in full for the time spent at the annual encampment of regiments.

If you want help at home or in your business, try The Sun "Want" column.

THE FRENCH MAID SAYS:

Marie on Learning New Dances

"I want to learn some of the new dances," announced Marjorie, as she skipped blithely into her aunt's boudoir one morning, where Marie was busy looking over some of madame's laces.

"I would," advised Marie, "for the girl who does not know the new dances will miss lots of fun this summer. Dancing in moderation has come to stay, for it has brought the joy of living into many a dull and prosaic existence. It has brought frolic to those who thought the days of frolic were gone forever. It has put the sparkle of life and the flush of exercise into eyes and complexions that never hoped to sparkle or to flush again."

"It has relieved the strain of work, so may the dancing cease, and, long may one see, as one does now, three generations of the same family gleefully disporting on the same ballroom floor. The new dances may not be 'picked up' in an evening, as one used to 'pick up' the two step or even the waltz, with a clever instructor. Five lessons by a competent teacher will, however, usually teach all there is to know."

"Grace and perfect poise in dancing takes longer to acquire, unless one is born with these attributes; but grace and poise do not seem as necessary now as plenty of endurance and suppleness. Once you have learned the ordinary steps of the tango, one step and hesitation, the series of arm movements and turns, you will have little difficulty in 'picking up' any new steps that come out."

"Oh, thank you for your encouragement, Marie," delightfully responded Marjorie. "I shall go right to work and learn all the latest steps for I know I shall not enjoy my summer unless I know them all."

MANY OUTINGS

Continued.

hold the affair at Revere, but it seems that some of the members of the fair sex preferred Nantasket, and the change was made, much to their satisfaction.

Some 200 of the store employees left Merrimack square at 7:15 o'clock in two special electric cars which were properly labeled with the association's name. The trip to Rowe's wharf, Boston, was a most pleasant one, but this was not to be compared with the hour sail down Boston harbor.

Upon arriving at the seashore many of the party went bathing and at noon a shore dinner was served at the Palm garden. The afternoon was devoted to sporting events and a visit to Paragon park. The committee this year, at the request of the members, did not provide for special cars for the return trip, so that those who desire to come home early may do so. Those in charge of the affair are Peter Corcoran and Michael Ryan.

A. G. Pollard Co.
The annual outing of the members

of the A. G. Pollard Co. Mutual Benefit association is being held at Nantasket beach today and it is said the affair will be the best ever, for this is the first time in the history of the organization that ideal weather prevailed on the day of the annual excursion. The members of the association, their wives and friends, numbering over 200, gathered at the Middlesex street station shortly before 8 o'clock this morning and later boarded two special coaches, which were attached to the regular 7:56 o'clock train for Boston. From the North station in the Hub the party took the elevated for Rowe's wharf and made the trip to Nantasket by steamer, the sail proving delightful.

Upon reaching the summer resort the party scattered, some going in bathing and others sightseeing. A shore dinner was discussed at noon at the Palm garden and in the afternoon the various attractions of Paragon park were enjoyed. The return trip will be made at a seasonable hour. The committee in charge consists of Raoul H. Monier, Paul Doherty and C. A. Delaronde.

J. L. Chalfoux Co.

"All up for Bass Point," was the slogan of the employees of the J. L. Chalfoux Co.'s store this morning, when they boarded two special electric cars at Merrimack square at 5:15 o'clock. The cars were labeled with large signs bearing the inscription, "J. L. Chalfoux Co.," and were comfortably filled with a merry crowd.

Upon reaching the summer resort a fine shore dinner was served at the New Pigeon tavern, and it is needless to say the menu was dismissed with a relish. A feature of the day was a swimming exhibition by Henry P. Sullivan, the noted swimmer, who delighted his co-workers with his aquatic stunts. A baseball game was played and other sporting events were successfully conducted. The return trip will be at 8:45 o'clock this evening. In the absence of Morton M. Walker, advertising manager of the store, all arrangements were in charge of Thomas Matthe.

rangements were in charge of Thomas Matthe.

Saunders' Market

Through the courtesy of Mrs. John F. Saunders, proprietor of the Saunders' market, the clerks and other employees of this well known establishment were given their annual excursion to the beach today.

The affair was conducted at Revere beach and all expenses were paid by Mrs. Saunders, and it is safe to say the excursionists greatly appreciated this mark of esteem. At 11:45 o'clock the employees of the store boarded a special electric car and were conveyed to the summer resort, where shortly after their arrival they were served a shore dinner at the Pleasanton hotel.

A feature of the afternoon was the outdoor sports, which consisted of a baseball game between two strong teams of the store, and other numbers as interesting. A bowling match was also held and, all in all, the 1915 excursion proved the best ever. The arrangements of the affair were in the hands of Misses Susan Ryan, R. Mulaney and Mr. Henry Kelley, who spared nothing to give the clerks of Saunders' market a most enjoyable outing.

Knights of Columbus

One of the most successful social events under the auspices of the fourth degree, Knights of Columbus, was conducted today at Nantasket beach, the affair being attended by about 200 people, including a good proportion of ladies. Two special electric cars, which left Merrimack square at 8:45 o'clock, conveyed the excursionists to Rowe's wharf, Boston, where at 11:15 o'clock the steamer for Nantasket was boarded. The sail down the harbor was delightful.

The first number on the program upon reaching the beach was the shore dinner, which was served at the finest hotel on the beach, the New Rockland house. During the dinner the party was entertained with music and a

cabaret show, which proved an ideal treat.

The hotel grounds were set aside for the Knights and their friends and in the afternoon sports of all descriptions, including special features for ladies were carried out much to the satisfaction of the spectators. The sights of Paragon park were taken in, this being included with the trip ticket and in the latter part of the afternoon a band concert and dancing were enjoyed.

The party will leave the beach between 6 and 7 o'clock. The committee responsible for the success of the affair was composed of the following: Joseph F. Roarke, Frank L. Mealey, Edward F. Saunders, Thomas J. O'Donnell, John J. O'Connor and Martin H. Reilly.

Puritan Chapter

About 200 members of Puritan chapter, Eastern Star lodge and their friends journeyed to Revere on their annual outing this morning. The trip was made by special electric and proved a most pleasant one. Dinner was served at one of the beach hotels and the many attractions along the shore were taken in, while the traditional dip was not forgotten. The affair was in charge of a committee headed by C. G. Anderson.

Church Outing

The members of the Pawtucket Congregational church, including men, women and children, spent the day at Mountain Rock, the occasion being the annual outing of the church. Two special cars rolled out of Merrimack square shortly after 8 o'clock and the ride was enjoyed by all, but particularly by the little ones. A basket dinner was provided for and a varied program of outdoor events was successfully carried out. The affair was in charge of the pastor of the church, Rev. F. G. Alger.

GASOLOGUE No. 1

"What do you mean — 'Ignition point?'"

"I mean the temperature at which the gasoline will vaporize so that it can be exploded by a spark plug."

"Humph! Same thing as 'boiling point?'"

"Practically."

"And you say low ignition point is the real test for gasoline?"

"The only real test."

"But I've always thought it depended on gravity—the higher the gravity the better the gasoline."

"That's a motor-myth. Low gravity gasoline has more kicks in it—more heat units—and, provided the ignition point is right, it is better to use and costs less when you figure miles per gallon."

"Instead of high gravity, I'm to ask for—"

"Ask for SOCONY Motor Gasoline. It's simpler. The gravity is right, the ignition point is right, and, more than that, SOCONY Gasoline is always the same wherever you get it."

Bros. were given a holiday today. Preliminary arrangements had been made for a general outing at Revere beach, but at the eleventh hour, all the plans were abandoned and the employees of the firm went their own way, some going to summer resorts, while others enjoyed a fishing trip.

Special Cars

Besides the long list of excursions above mentioned, the Bay State Street Railway Co. conducted its regular Thursday excursions to Revere and Nantasket beaches (two large cars filled with excursionists, men and women, leaving Merrimack square at 8 o'clock. It was stated that a large number of other Lowellites went to the seashore this morning by train and automobiles.

The Druggists

Lowell druggists and assistants with soda and cigar clerks, took a day off today, as they are wont to do each year, and journeyed to Nantasket beach where the annual outing of the Lowell Pharmaceutical association was held. With ideal outing weather prevailing, the program provided at the seashore afforded great pleasure for all and though many successes of a similar nature have been conducted in the past none proved more enjoyable than the event today.

Each year the outing is looked forward to with pleasurable anticipation by employees of all Lowell's drug stores and hence a great deal of enthusiasm was evident this forenoon. While the clouds that hovered in the heavens early this morning threatened to break and bring disappointment the sun soon peeped through and assured a pleasant day, all that was needed to make the pill pounders and soda clerks happy.

Promptly at 10:30 o'clock the doors of all drug stores were locked for the only day in the year. All haste was then made to the Middlesex street station where a special train was waiting to convey the party of 100 or more to

Boston, where the big Nantasket steamer was boarded. The hour's sail to the beach was a delightful one and every minute was used to advantage for the merrymakers from Lowell.

Upon arriving at the beach, the first number on the program was a dip in the ocean deep, and many of the druggists who have been attending the outings for years have almost learned to swim, it was reported. Reservations had been made at Nantasket house and the party sat down to a

pretentious six course shore dinner, one of the kind that has made this hostelry famous along the New England coast. After every appetite was satisfied there was speaking by members of the association and an eloquent address by John J. Tobin of South Boston, a member of the state board of pharmacy.

The afternoon was spent in sports and visiting the places of amusement along the beach. The return trip will be made this evening.

GARDNER BROOKS WINS

LOWELL BOXER LACED A RECENT
IMPORTATION FROM ENGLAND IN
NEW YORK LAST NIGHT

Gardner Brooks lapped an English boxer who was supposed to be a coming champ over at New York last evening and was back in The Sun office at 9 o'clock this morning, looking as chipper as if he had been doing nothing more strenuous than watching the Lowell team come along out of the hole.

Gardner maintains a strict neutrality in his business; he meets and licks them all, whether they be allies or Ger-

GARDNER BROOKS

mans, and last night at the St. Nicholas club in 6th street, he was stacked up against Percy Aubrey of England, who in the past nine weeks had met and defeated seven men. It remained for Gardner to put his all conquering career on the block.

The Brooks-Aubrey bout was a semi-final to a 10-round affair between Ralph Gruman of San Francisco, known as "The Shade of Joe Gans," and Joe Arzave, from Sacramento, Cal., who enjoys the sobriquet of "Western Terry McGovern."

Bal Masteron, says in today's New York Telegraph: "In the semi-final Gardner Brooks of Lowell, Mass., gave Percy Aubrey of England a jolly good lacing, don't you know. And Percy took it, don't you know, like a bleeding good sport of top. As one of the spectators remarked: 'Blime, but, eh's a fighter, this Brooks, eh—what?'" Brooks will remain in Lowell for a brief rest during the hot weather although on account of his fine performance in the ring he has made a big hit with New York fight fans and is in big demand. He turned down a match for next Saturday night but has several ahead of him. Gardner weighed in last night at 117 and keeps at about that weight all the time.

NOTED GREEK ATHLETE

JAMES ANDROMIDAS, ATHLETIC
CHAMPION OF CANADA, VISITING
IN THIS CITY

Great interest has been awakened in athletics in the local Greek colony by the return to Lowell of James P. Andromidas, the noted athlete and Canadian champion and a local athletic club is being formed under his direction.

Andromidas came to Lowell from Sparta when he was but 10 years of age and remained here several years. While in this city he developed athletic tendencies and could be seen practicing on the boulevard with other local athletes. Leaving Lowell he went to New York and afterward to Canada where he won the Canadian amateur championships.

His records speak for themselves, and are as follows:

Running high jump 6 ft. 2 in.
Running broad jump 22 ft. 5 in.
Running hop, step, jump 45 ft. 5 in.
Triple jump 32 ft. 11 in.
Standing broad jump 10 ft. 4 in.
Pole vault 10 ft. 6 in.
12-pound shot 45 ft. 7 in.
Discus throwing 125 ft. 4 in.

On Monday evening Mr. Andromidas had a number of athletes trying out and while practicing himself made 6 feet, 11-2 inches on a high jump. He is a member of the Irish-American Athletic club of New York.

FEDS COMING TO HUB

NEW TERRITORY TO BE INVADED
BY FEDERAL LEAGUE NEXT
SEASON

CHICAGO, July 15.—New territory will be invaded by the Federal League next season it was announced today by James A. Gilmore, president of the organization in continuing the report that the league's headquarters will be moved from Chicago to New York city within the next two weeks.

Plans are being made, Mr. Gilmore admitted, for a new circuit in 1916 and clubs may be launched in Detroit, Boston and Cleveland. It already has been decided upon, he said, to place a club in New York city. Whether it would be the Newark club that is to be transferred to New York the Federal League executive declined to say.

The decision to transfer the league's headquarters came as a surprise. As Chicago was the birthplace of the organization it was assumed that its official base would remain here.

"The transfer is dictated by necessity alone," President Gilmore explained. "We are going to place a club in New York city next year, and as this will entail a lot of additional work for this office, I thought it best to move there."

"As it was organized baseball that questioned our right to be called a major league, we will try to correct that view next year when we get our new circuit into operation. It seems to be the impression that no league can be a major without New York, so we intend to satisfy organized ball in that regard."

President Gilmore asserted that financially the league never was in better shape.

YESTERDAY'S RESULTS

N. E. League
Lowell 6, Lawrence 3.
Portland 0, Lawrence 0 (5 innings—darkness).
Lynn 3, Manchester 2.
Fitchburg 2, Lewiston 1 (5 innings).

National
Boston-Pittsburgh—rain.
New York 6, Chicago 5 (first game).
Chicago 3, New York 1 (second game).

Brooklyn 2, Cincinnati 1 (10 innings).
Philadelphia 6, St. Louis 3.

American League
First game, Cleveland 3, Boston 2; second game, Boston 7, Cleveland 1.
Chicago 6, Philadelphia 4.
Detroit 12, New York 3.
Washington 2, St. Louis 1 (11 innings).

Federal
First game, Brooklyn 3, Baltimore 7; second game, Baltimore 5, Brooklyn 4.
First game, Buffalo 4, Newark 1; second game, Buffalo 4, Newark 0.
Pittsburgh 5, Kansas City 4.
Chicago 4, St. Louis 1.

DIAMOND DAZZLES

Lewiston will be here Saturday; likewise Arthur and the 11d.

Five wins out of six played and three of them from the league leaders is going some.

Manager Ketchner of the Lowell team will give a talk on baseball to the boys of the Y. M. C. A. on Saturday evening.

Hitting three baggers and home runs with three on bases is what makes the game popular.

Only one game behind Lewiston for third last place. Verily, we are moving.

You will recall what the Braves did last year when they started from last place.

Manager Pearson must have felt like a plucked chicken when he realized what he had done in canning Thompson.

Quite a number of Lowell fans journeyed to Lawrence yesterday and were well rewarded.

It looks good for a big attendance for the remainder of the season.

Leave it to Walter Ahearn to discover the little irregularities in the game.

ATHLETES AND ATHLETICS

The sub-committee on sports of the Elks outing committee has decided upon a ball game between Lowell and Nashua looks as these two crowds have had some hot games in the past. A long and attractive list of sports is being arranged and will be announced later. There will be open events as well as others for members exclusively and attractive prizes will be offered.

One of the very best lightweight matches that could be made was arranged in New York. It will bring together Johnny Dundee and Jack Britton in a bout at the Madison Square Garden club on July 29. Although the men have practically agreed to make 133 pounds at ringside, it is doubtful if this will be the weight, as Britton would have much trouble making it.

Since Messrs. Wrenn, McCormick, Murphy and their partisans recently ruffled the waters of the Merrimack they have been ruffling the severity of The Sun editorial room with daily invasions and challenges, corrections of their respective swins to Lawrence, they have been ruffling the severity of everything else except the long green stuff that speaks so eloquently of sporting events. As was suggested in this column recently, the only proper way to proceed is for the challenger to post a forfeit to show that he means business and have the challenged one cover it or not. There'll be ice on the ice and the rivals get together to settle the question of supremacy, judging from the way they are going at it, at present.

BARROWS BANGED BEAUT

MADE HOME RUN WITH THREE ON
BASE IN EIGHTH INNING—ZIESER
INVINCIBLE

A home run drive with the bases filled won for Lowell over the local outfit at Riverside park yesterday afternoon, the final score being 6 to 3. The champs got all their runs in the first inning when Zieser was wild, but after that he was invincible.

Fuller started the game for Lawrence and Lowell scored one run on him in the second inning. Every time the batter was in deep trouble and he was finally taken out in the seventh inning after passing the first man to face him. Shears went in and got by the Lawrence and while he held Lowell down to one run for six innings, Aleck thought he was too good to last and whipped him out, putting in Shears, the human cut-up, also adept scissors and who looks the part. Shears went dull in the eighth and was sadly in need of being ground when Aleck came along with another thought carved in ivory. It seems that Thompson, a first class pitcher, was playing left field and Pearson desired to have him remain there, but wanted to give him a few innings in which to warm up, so he announced to Umpire Aubrey that Harris would relieve Thompson in the left field. Aubrey made the announcement and the moment he did so Thompson was retired from the game for keeps and could not return the same day. At the close of the inning when Thompson got ready to go in on the mound it dawned on Pearson that he had pulled something only equalled by one Merkle some years ago and Aleck thought he was too good to last and he pulled something only equalled by one Merkle some years ago and Aleck thought he was too good to last and he pulled something only equalled by one Merkle some years ago.

Walter Ahearn, it was who got on to the move and called the umpire's attention to it. Walter always has been in working order during the game.

Lawrence figured quite prominently in the first inning and only the latter walked, after Mattie had booked him for two strikes. O'Connell bunt to Estes and the latter sent the ball to second somewhat tardily and there were two on. Mahoney sacrificed to Estes and the runners moved up. Warner walked and there was a standing room only on the bases. Thompson hit to centre for two bases and Luyster and O'Connor wended their way homeward. Ostergren fled to Greenhalge and Warner came home.

In the second Barrows singled to right and then purlined second. Greenhalge went out on a grounder. Bowcock singled to centre and Cuke scored. The next two went out. It was in the eighth that the marauders took the edge of Shears. Dee walked and Ahearn singled to centre, Shorty advancing one. Zieser got the ball in the short ribs and rubbed himself to first, filling the bases. Then came Aleck with the unhappy thought and Shears had to keep on cutting. Swayne hit to Ostergren who nailed Dee at the plate. Fahy went out, Mahoney to Ostergren, but Ahearn scored. Then Estes walked and once more the bases were comfortably crowded. Then Cuke performed the man of the hour stunt by sending the ball over the centre field fence for a home run, clearing up the bases for four large runs. The others went out speedily, but what of it, that swat of Barrows' won the game.

Lowell 0 1 0 0 0 0 0 5-6

Lawrence 2 0 0 0 0 0 0 0-3

Two-base hits: Luyster, O'Connell, Thompson. Home run: Barrows. Stolen bases: Barrows, Ahearn. Sacrifice: Swayne, O'Connell, Mahoney, Ostergren. Double plays: Mahoney, Warner and Ostergren; Luyster and Ostergren. Left on bases: Lowell 13; Lawrence 3. Bases on balls: O'Connell 3; off Fuller 5; off Shears 2. Hits: Off Fuller 8 in 6 innings; off Shears 6 in 3 innings. Hit by pitcher: By Shears (Zieser); by Zieser (Warner). Struck out: By Zieser 3, by Fuller 1; by Shears 1. Umpire, Aubrey. Time, 1:44.

RESOLUTE AND VANITIE

NEW YORK, July 15.—Today's race of the cup defense yachts Resolute and Vanitie was the last of a series of three ocean races sailed over the America's cup course off Sandy Hook. The Resolute had won the first two races, the second one on her time allowance of 1 minute and 11 seconds, although the Vanitie finished first by 18 seconds. Thus far the Resolute has won six of the seven races sailed this season. Today's course was a 30-mile triangle.

RUBBER CLUB OUTING

ENJOYABLE AFTERNOON AT THE
VESPER CLUB BY MEN FROM
OTHER CITIES

Rubber manufacturers from all parts of the country, over 200 strong, gathered at the Vesper Country club in Tyngsboro for the 16th annual outing of the Rubber club of America. The program was a well prepared one and besides the routine of sports, etc., contained many pleasing features. Music was furnished during the afternoon and evening by the Lynn Cadet band and the Lotus club of Boston. Dinner was served at 7 o'clock in the club dining room.

The day's sports resulted as follows: Shot put won by F. W. Swann; canoe tilting contest, won by Joseph Weeks; tennis singles, won by C. H. Lowe with E. S. Lane, second; mock cock fight, won by W. L. Patchen; swimming con-

test, won by Joseph Weeks; three-legged race, won by G. B. Adams and J. S. Clapp; quilts, won by D. Fineburg with Joseph Miller second; cock fight golf match won by Fred Hood; golf driving contest won by Wallace Page. The best gross golf score of the day was made by Wallace Page and the best net by C. W. Harrison with C. W. Chandler, second.

The committee in charge of the outing included Philip E. Young of New Bedford, chairman; Robert L. Rice of Watertown and Francis H. Appleton, Jr., of Boston.

The present officers of the club are as follows: George B. Hodgeman, of New York, president; Harvey S. Preston of Akron, O., first vice president; Van R. Carmel of New York, second vice president; Harry S. Vorhies of New York, secretary and treasurer.

GAMES TOMORROW

THE SPELLBINDER

One of the most striking instances of how badly shot-up the state republican machine is at the present time was evidenced at Saturday's big outing at the Hunting Club, when Frank Hall, secretary of the republican state committee spoke on the needs of the republican party locally, as to registration.

On the way to the grounds the writer was in company with Mr. Hall and when some one asked the question as to the number of registered voters in Lowell former Senator Hill-ton replied that there were about 15,000. Immediately Mr. Hall said, "You're way out; there are not that many." The writer's opinion was asked and when he ventured the guess that there were about 15,000 Mr. Hall produced a card from his pocket and said from it: "Lowell, assessed poll 21,000; registered voters, 11,000." Later, when addressing the meeting he again quoted those figures and the audience was expected to accept them as being accurate.

But Mr. Hall was only about 5000 out of the way, which probably is close, considering conditions with the republican machine.

In Lowell at the beginning of the present year there were 26,048 assessed polls and 15,553 registered voters. The republican state machine has had such a strenuous existence in the past few years that it has completely lost track of its surroundings, and believes it would seem, because it has not moved on itself, that the world hasn't moved, and is still clinging to figures and theories that were in vogue when last it possessed influence.

There was a noticeable lack of the enthusiasm that indicates the spirit of victory at that outing. Messrs. McCall and Cushing were well received, it is true, but the spirit wasn't there, that indescribable feeling that means success. The only sure thing in the line of future success appeared to be Congressman Rogers, for in the opinion of everybody present he's the man of destiny in the republican ranks. It was noticeable too, that much more interest was taken in the minor contests, particularly that for sheriff than in the head of the ticket. Much was said about the progressives coming back, but the party's only chance to get them all back would be to nominate Bird as the republican candidate for governor and that will not be done and hence Governor Walsh, assuming that he will be the democratic candidate, will get an even share of the progressive votes throughout the state. Col. Butler Ames placed himself on record as favoring McCall for governor, and that means something for Hon. Samuel W. in these parts. Rep. Jewett stuck pretty close to the dogmatic Cushing, during the election, and asked together during the year at the state house. Sounding individual republicans on how Lowell would vote on the head of the ticket it would appear that Lowell will favor McCall in the primaries.

The outing had more of the appearance of a campaign for sheriff than a general love feast of the party for the lieutenants of both Sheriff Fairbairn and "Del" Messer, of Concord, who will contest with him for the contest for lieutenant governor throughout the day. It may or may not be worthy of note that the Messer rooters principally were men from out of town. The personal geniality and popularity of Senator Bagley of Boston placed the contest for auditor before the crowd at the outing for both the senator and his opponent, former Senator George of Haverhill were present. Little was heard of the contest for lieutenant governor although both candidates were present while County Commissioner Williams who is up for reelection was comparatively unknown as he went about the crowd.

The High School Matter

The Pawtucket bridge matter having been disposed of for this year we are now called upon to witness another exhibition of the municipal council trying to handle a big financial prop-

osition, and they're going at it, in a manner similar to that in which they handled the bridge matter.

Relative to the bridge, they settled upon the lump sum that the bridge was going to cost \$80,000 before they had seen any plans. In the high school matter, they have settled upon the cost of the building, \$700,000, have selected the site and are planning to house the children temporarily, before they have seen any plans of the building they propose to construct. Just now they are much concerned over the care of the children while the new building is in process of construction, but they haven't come to any conclusion as to the nature, material or exact size of the building itself. Ordinarily a city government should be able to handle a proposition such as the building of a new school, but after the waste of money last year in the fitting up of a \$35,000 temporary annex and the subsequent mis-handling of the Pawtucket bridge matter, it is quite evident that the best interests of the city will be conserved by placing the responsibility for building the new school in the hands of men outside the city government.

At a conference held a few days ago relative to the new building, Mayor Murphy wanted it understood that no more money would be spent on temporary annexes. If he had only said that one year ago instead of wasting \$35,000 on that unsanitary affair in Kirk street, the public would have applauded with better grace.

Com. Duncan a few days ago suggested that as nobody seems to know just what kind of a building is needed, it would be well to get an expert to set the government right. Yet the municipal council is ready to seize a whole lot of land in Kirk street and pay for it before it knows whether it needs it all or not, or what it is going to build upon it.

Mr. Elliott's Statement

Herford Elliott of the school board made an interesting statement at the recent conference. Mr. Elliott is one of Lowell's leading real estate men and at the conference he said that he never knew of any property in Kirk or Anne street to sell for as high as its assessed value. Mr. Elliott as a member of the school committee has authority over a temporary annex in Kirk street which was bought only one year ago by the present government for \$25,000, although it is sold for \$19,000, but when the city took it the price was \$23,000.

At that same conference, Com. Duncan is quoted as saying: "I think the jury, if this property were seized, and an appeal taken to the court would say that the assessed valuation was too high." After purchasing the land in Kirk street for \$25,000 about \$10,000 additional was wasted on a building that was opened for business without compliance with the building laws, without running water, closets, window shades or knobs on the doors. When a government will overlook these small but important features of a school building in making a little annex school, what may we not fear that they will overlook in the construction of a 100-room school house on which they have started, before they have seen any plans.

The Contagious Disease Hospital

It's the middle of July, and the law says that we must start a contagious disease hospital by Sept. 1. As yet the municipal council has not given the matter any consideration. Why not announce the selection of the site in Pawtucketville matter and relieve the anxiety that exists in certain quarters?

The papers recently made note of Mayor Murphy's statement to the effect he had made provisions for the care of tuberculosis cases at Lawrence, and one misgotten, that the something new building was a far and might be dispensed with without doing them any great harm.

He was informed that it was the only physical exercise that they got, whereupon the practical commissioner ventured the opinion that they could get exercise enough at home helping their mothers wash the dishes and sweep the floors.

Springfield Again

Mayor Murphy informed the municipal council Tuesday that the Springfield high school is going to adopt afternoon sessions. Thus, Lowell must do so. Some day somebody at city hall will spring something original, and he'll be shot at sunrise.

THE SPELLBINDER.

If you want help at home or in your business, try The Sun "Want" column.

time to do so until it has a place of its own.

LEGAL NOTICES

MORTGAGEE'S SALE OF REAL ESTATE

By virtue of the power of sale contained in a certain mortgage deed made by Arthur L. Cady to Henry W. Day, dated June 22, 1888, and recorded with Middlesex (North District) Deeds, 138, 288, said mortgagee being now held under legal assignment by Lizzie W. Ordway, will be sold at public auction on the premises hereinafter described, for breach of the condition of said mortgage, and for the purpose of foreclosing the same, on Saturday, the thirty-first day of July, 1915, at three o'clock in the afternoon, all and singular the premises conveyed by said mortgage deed, and therein described substantially as follows, to-wit: A certain lot of land with the building thereon, situated on the southerly side of Cady street in Lowell, in the County of Middlesex and Commonwealth of Massachusetts, and bounded as follows: Beginning at the northwesterly corner of the premises at a point in the southerly line of said Cady street, thence southerly at a right angle with the southerly line of said Cady street, sixty-three and 57-100 (63.57) feet, thence at a right angle easterly five and 15-100 (5.15) feet to land now owned or formerly owned by Lizzie W. Ordway, thence at a right angle northerly by said Lizzie W. Ordway, sixty-three and 57-100 (63.57) feet to said Cady street, thence westerly at a right angle with the southerly line of said Cady street, thirty and 15-100 (31.15) feet to the point of beginning.

Being Lot No. 2 on a plan entitled "Plan of the Lyman Cady Estate, Lowell, Mass., surveyed and laid out by George Bowers, Civil Engineer," which plan is recorded in Middlesex (North District) Registry of Deeds as Plan No. 18 of Book of Plans No. 10, in the said County of Middlesex.

Said premises are to be sold subject to any unpaid taxes and other public assessments.

Five hundred dollars of the purchase money to be paid at time and place of sale. Other terms at sale.

For further particulars inquire of Charles H. Brigham, 35 Milk street, Boston, Mass., or of LIZZIE W. ORDWAY, Assignee and Present Holder of said Mortgage.

COMMONWEALTH OF MASSACHUSETTS, Middlesex, ss. Probate Court.

To the next of kin and all other persons interested in the estate of Louis P. Turcotte, in said county of Middlesex.

Whereas Orianna E. Pevey, the conservator of the property of said Louis P. Turcotte, has presented her petition for authority to sell the real estate therein specified of her said ward to raise the sum of one thousand dollars, for the maintenance of said ward.

And she is hereby cited to appear at a Probate Court, to be held at Cambridge, in said County of Middlesex, on the twenty-seventh day of July, A. D. 1915, at nine o'clock in the afternoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is ordered to serve this citation by delivering a copy thereof to each of you fourteen days, at least, before said Court, or by publishing the same once in each week, for three successive weeks, in the Lowell Sun, a newspaper published in Lowell, the last publication to be one day at least, before said Court.

Witness my hand and seal of said Probate Court, this 14th day of July, A. D. 1915.

W. E. ROGERS, Registrar.

Giving Out the News

The recent attempt of a local publication to tell what would have happened under another administration if the big Fourth of July show had been held in Lowell, and its exploitation of the fact that there was only one case of shooting and robbery, as something for which the present administration is to be given credit, are both murder and funnery. As a matter of fact, there were some 15 cases of thefts reported to the police over the Fourth, which were not given out to the newspapers, while there were also other cases that were not even reported to the police. It was Commissioner Rountree himself who made known the fact that his office had received reports of the fact that the finding of the man who had been shot was something that the police could not keep from the public. Under the former administration the papers were speedily given full details of all infractions of the law, but under the present, the newspapers don't seem to get any more police news than it is necessary to give out, which makes a big difference. The papers were not informed about the arrest of a 16-year-old girl for drunkenness recently.

Grand Army Men's Request

While Lowell owes a big debt to her Grand Army men and should give them a little the best of it when she can, there are times when others must also be considered, as in the case of the request of the G. A. R. vets for the use of the public reading room in the Memorial building. Some 600 men use the reading room daily, a much greater number than the Grand Army men can muster. It would seem that the city can find some satisfactory place for the veterans other than the public reading room.

An Apt Quotation

A correspondent sends me the following quotation as applicable to the municipal council: "They are groping in the dark, in a labyrinth of their own contriving, they have lost their direction and are trying all roads but the right one to get out of it." The above is decidedly applicable in the case of the Pawtucket bridge matter, and indications are that it can be used again to describe their actions on the new high school.

Practical Physical Exercise

At the conference over the new high school, Tuesday, Commissioner Morse expressed the opinion that the district drilling was a far and might be dispensed with without doing them any great harm.

He was informed that it was the only physical exercise that they got, whereupon the practical commissioner ventured the opinion that they could get exercise enough at home helping their mothers wash the dishes and sweep the floors.

Springfield Again

Mayor Murphy informed the municipal council Tuesday that the Springfield high school is going to adopt afternoon sessions. Thus, Lowell must do so. Some day somebody at city hall will spring something original, and he'll be shot at sunrise.

LEGAL NOTICES

MORTGAGEE'S SALE OF REAL ESTATE

By virtue of the power of sale contained in a certain mortgage deed made by Arthur L. Cady to Henry W. Day, dated June 22, 1888, and recorded with Middlesex (North District) Deeds, 138, 288, said mortgagee being now held under legal assignment by Lizzie W. Ordway, will be sold at public auction on the premises hereinafter described, for breach of the condition of said mortgage, and for the purpose of foreclosing the same, on Saturday, the thirty-first day of July, 1915, at three o'clock in the afternoon, all and singular the premises conveyed by said mortgage deed, and therein described substantially as follows, to-wit: A certain lot of land with the building thereon, situated on the southerly side of Cady street in Lowell, in the County of Middlesex and Commonwealth of Massachusetts, and bounded as follows: Beginning at the northwesterly corner of the premises at a point in the southerly line of said Cady street, thence southerly at a right angle with the southerly line of said Cady street, sixty-three and 57-100 (63.57) feet, thence at a right angle easterly five and 15-100 (5.15) feet to land now owned or formerly owned by Lizzie W. Ordway, thence at a right angle northerly by said Lizzie W. Ordway, sixty-three and 57-100 (63.57) feet to said Cady street, thence westerly at a right angle with the southerly line of said Cady street, thirty and 15-100 (31.15) feet to the point of beginning.

Being Lot No. 2 on a plan entitled "Plan of the Lyman Cady Estate, Lowell, Mass., surveyed and laid out by George Bowers, Civil Engineer," which plan is recorded in Middlesex (North District) Registry of Deeds as Plan No. 18 of Book of Plans No. 10, in the said County of Middlesex.

Said premises are to be sold subject to any unpaid taxes and other public assessments.

Five hundred dollars of the purchase money to be paid at time and place of sale. Other terms at sale.

For further particulars inquire of Charles H. Brigham, 35 Milk street, Boston, Mass., or of LIZZIE W. ORDWAY, Assignee and Present Holder of said Mortgage.

COMMONWEALTH OF MASSACHUSETTS, Middlesex, ss. Probate Court.

To the next of kin and all other persons interested in the estate of Louis P. Turcotte, in said county of Middlesex.

Whereas Orianna E. Pevey, the conservator of the property of said Louis P. Turcotte, has presented her petition for authority to sell the real estate therein specified of her said ward to raise the sum of one thousand dollars, for the maintenance of said ward.

And she is hereby cited to appear at a Probate Court, to be held at Cambridge, in said County of Middlesex, on the twenty-seventh day of July, A. D. 1915, at nine o'clock in the afternoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is ordered to serve this citation by delivering a copy thereof to each of you fourteen days, at least, before said Court, or by publishing the same once in each week, for three successive weeks, in the Lowell Sun, a newspaper published in Lowell, the last publication to be one day at least, before said Court.

Witness my hand and seal of said Probate Court, this 14th day of July, A. D. 1915.

W. E. ROGERS, Registrar.

Giving Out the News

The recent attempt of a local publication to tell what would have happened under another administration if the big Fourth of July show had been held in Lowell, and its exploitation of the fact that there was only one case of shooting and robbery, as something for which the present administration is to be given credit, are both murder and funnery. As a matter of fact, there were some 15 cases of thefts reported to the police over the Fourth, which were not given out to the newspapers, while there were also other cases that were not even reported to the police. It was Commissioner Rountree himself who made known the fact that his office had received reports of the fact that the finding of the man who had been shot was something that the police could not keep from the public. Under the former administration the papers were speedily given full details of all infractions of the law, but under the present, the newspapers don't seem to get any more police news than it is necessary to give out, which makes a big difference. The papers were not informed about the arrest of a 16-year-old girl for drunkenness recently.

Grand Army Men's Request

While Lowell owes a big debt to her Grand Army men and should give them a little the best of it when she can, there are times when others must also be considered, as in the case of the request of the G. A. R. vets for the use of the public reading room in the Memorial building. Some 600 men use the reading room daily, a much greater number than the Grand Army men can muster. It would seem that the city can find some satisfactory place for the veterans other than the public reading room.

An Apt Quotation

A correspondent sends me the following quotation as applicable to the municipal council: "They are groping in the dark, in a labyrinth of their own contriving, they have lost their direction and are trying all roads but the right one to get out of it." The above is decidedly applicable in the case of the Pawtucket bridge matter, and indications are that it can be used again to describe their actions on the new high school.

Practical Physical Exercise

At the conference over the new high school, Tuesday, Commissioner Morse expressed the opinion that the district drilling was a far and might be dispensed with without doing them any great harm.

He was informed that it was the only physical exercise that they got, whereupon the practical commissioner ventured the opinion that they could get exercise enough at home helping their mothers wash the dishes and sweep the floors.

Springfield Again

Mayor Murphy informed the municipal council Tuesday that the Springfield high school is going to adopt afternoon sessions. Thus, Lowell must do so. Some day somebody at city hall will spring something original, and he'll be shot at sunrise.

IN ITS NEW HOME

Electric Light Co. Elegantly Equipped in Market St. Office

The Lowell Electric Light corporation has moved into its new home, 29-31 Market street, and the corporation's present quarters are pretentious and well appointed. The big brick building has been renovated and has been made to fit the business for which it was intended with the result that the greatest convenience possible has been worked out in all of the depart-

JOHN A. HUNNEWELL

ments. The offices are on the second floor and there is natural and artificial light galore. Excellent taste and judgment have been exercised in the arrangement of things and there is an elegance about the place that extends from the bay trees at the front entrance to the remotest corner of the establishment that gives even the casual visitor a sort of prosperous feeling. The little Hylo theatre in the window, in which is being presented a domestic drama in four acts, is very cute and is the piece de resistance so far, at least, as the children are concerned.

The company's new offices were open to inspection yesterday and the scene during the afternoon and evening was an animated one. Hundreds of men, women and children visited the establishment and admired the model offices, arranged not only for the comfort and convenience of the employees but more especially for the efficiency of the service. The hours of reception were from 2 to 5 o'clock and an orchestra of seven pieces gave a varied program. The offices, immaculate in every way, were prettily decorated with palms, ferns and beautiful flowers. The company occupies the first two floors and the basement of the building that up to within a very few weeks ago was not noted for its attractiveness. Today, however, it stands out, brilliant and conspicuous, a charm to the eye and a bright spot in Market street. The front of the building is painted "Merrimack green," in keeping with the white way color scheme and to night the two white way lamps on the front above the first floor will be lighted and it is expected that their brilliancy enhanced by other lights, and there are many of them, will put

THE THAW CASE

Prisoner May be Set Free by Judge Hendrick Tomorrow

NEW YORK, June 15.—While awaiting the decision of Supreme Court Justice Hendrick on the question of Harry K. Thaw's sanity, Thaw's counsel has prepared for submission to court today a formal offer vacating the original commitment under which he was first sent to Matteawan asylum. Justice Hendrick had promised to receive application for such an order today, but his decision on the question of freeing Thaw as sane is not expected until tomorrow. The jury in this case was acting only in an advisory capacity and its finding does not bind the court.

In the event of a decision to discharge Thaw, counsel for the state were ready to give notice of an appeal and to ask that Thaw be held on bail pending the result of such appeal.

Thaw spent the night in Ludlow street jail. The prospect of seeing Thaw attracted a large crowd to the court house today. Thaw was brought from the jail and taken to the court room. He remained there some time and then, at 10 o'clock, he was taken to the same time Justice Hendrick started from his chambers across the street to formally adjourn the court until tomorrow morning.

When the jury announced late yesterday afternoon its decision that Thaw is now sane there was a great demonstration in court.

Thaw Kisses Mother
Meanwhile Thaw, who until the verdict was announced, sat at the counsel table with his chin resting in a handkerchief, had turned around and grasped the hand of several of his closest friends. He went to where his mother was sitting, a few feet away, and, throwing his arms about her neck, kissed her twice.

"I expect to go out to the coast if I am liberated by Justice Hendrick," said Thaw to interviewers. "After that trip I shall return to Pittsburgh and devote the rest of my life to business."

"What sort of business?" Thaw was asked.
"Looking after my property," he replied, and added with a grin, "If I have any property left."

In explaining why two ballots were taken one of the jurors, Paul J. Marks, a brother of the president of the Borough of Manhattan, said that on the first ballot the vote was 11 to 1 that Thaw was sane.

The dissenting juror said that he cast his ballot that way more as a protest against the jury's decision, so that the verdict would not be rendered without formal discussion. The vote was unanimous on the second ballot.

Mr. Marks also said that he and the other members of the jury believed that Thaw was eccentric and, possibly, mentally weak, but that they did not believe he would harm anyone.

comb and the Misses Nellie, Elizabeth and Alice Shea, and three brothers, John and James of the Concord Dry company and Charles Shea.

HERRON—Mrs. Lillian May Herron died this morning at her home, 50 West street, Lawrence, aged 30 years and 5 months. She leaves a husband, John, and three children: a son, William, 11, and two daughters, 8 and 6 years of age.

DOHERTY—Winifred Doherty died suddenly Tuesday night at her home, 148 Chandler street, Boston, aged 14 years, 1 month, 29 days. She was the daughter of Elizabeth M. and George J. Doherty, formerly of Lowell.

The body was brought to the home of her uncle, William C. Doherty, of 248 Middlesex street, this city.

ANDROS-DIPOLOIS—Anna Andros-Dipolous, infant daughter of John and Christina Andros-Dipolous, died yesterday at the home of her parents, 11 Tremont street.

KLACKOWSKI—Mrs. Mary Klackowski, aged 24 years, died July 13, at her home, 184 Middlesex street. She leaves her husband.

WHITE—The funeral of Mrs. Mary White took place this morning from her home, 37 Fulton street. High mass of requiem was celebrated at St. Michael's church at 9 o'clock by Rev. Fr. John T. Mulholland. Burial was in the Immaculate Conception cemetery in Lawrence under the direction of Undertaker C. H. Melloy.

BARRE—The funeral of James J. Barre took place this morning from the home of his sister, Mrs. Sarah Griffin, 34 Marion street. High mass of requiem was celebrated at St. Michael's church at 9 o'clock by Rev. Fr. John T. Mulholland. Burial was in the Immaculate Conception cemetery in Lawrence under the direction of Undertaker C. H. Melloy.

GRADY—Joseph Ralph Grady, a well known member of the Sacred Heart parish, died this morning at the home of his parents, Police Officer William H. and Catherine F. Grady, 35 June street. He was a member of the battleship Rhode Island crew when it entered Vera Cruz, and it was there that he contracted the sickness that caused his death. He leaves to mourn his loss, besides his parents, Mrs. Sarah H. Grady, a daughter, Mrs. Elizabeth Connelly, a sister, Mrs. Mary E. Bolton, and four brothers, George M., William H., Frederick J. and John E. Shields.

SHEA—Thomas A. Shea, a well known and highly esteemed member of St. Margaret's parish, died this morning at his home, 249 Dewey street, West Forest street, after a lingering illness, which he had borne uncomplainingly and with resignation. He is survived by his mother, Mrs. Mary Shea; four sisters, Mrs. W. F. Whit-

PROTEST OF PACKERS

CONFERENCE TO BRING RELIEF—HINT URGING SPECIAL SESSION OF CONGRESS

WASHINGTON, July 15.—American meat packers, in conference here with the state department, seeking relief from British detention of some fourteen million dollars worth of cargoes to European neutrals, have been asked by representatives of cotton growers, live stock interests, state officials in the cotton and cattle belts and other American business interests affected by the war, to join in the general conference here, having for its object a proposal for a special session of congress to deal with the rights of neutrals. It also would take up the question of providing shipping facilities for Americans.

Representatives of the great Chicago packing houses who continued their conferences with state department officials today disclaimed any initiative action in the proposed conference and said their cooperation in the movement depended on whether the negotiations now in progress resulted in any relief.

GETS BIG WAR ORDER

LACKAWANNA STEEL CO. SELLS 60,000 TONS OF RAILS TO RUSSIA

NEW YORK, July 15.—The Lackawanna Steel Co. announces the sale of 60,000 tons of steel rails to the Russian government for delivery in September. These rails, it is understood, are to be used mainly in additional construction of the trans-Siberian railroad.

ARREST 176,618 IN MASS.

HISTORY OF BAY STATE—25,820 JAILED

BOSTON, July 15.—The number of arrests in Massachusetts in 1914 was the largest in the history of the state, according to a report issued by the prison commissioner today.

Of 176,618 who were taken into custody, 25,820 reached the prisons, where it was found that 14,817 or 57 percent had been there before. Seventy percent of the arrests were for drunkenness. The next largest class of offenders were violators of the automobile regulations, 5565 of whom were taken into custody.

BOGUS SOLICITOR BUSY

The Trades and Labor council authorizes the statement that there is a bogus solicitor about town representing himself as being affiliated with labor organizations and that the council has taken the matter up with the police.

PERSONALS

Mrs. Dunn and daughter Lillian of Pleasant street, Dracut, will spend their vacation in New York.

Mrs. Charles Atherton and family of 12 Cherry place have gone to North Vassboro, Me., to spend the next two months.

MIDEX SAFE DEPOSIT & TRUST CO.

The Middlesex Trust Co., corner Merrimack and Palmer streets, is distributing a coupon to the holders of its bonds. On one side is the name of the bank. On the reverse side is the following reading:

"I will accept this on deposit for 25 cents if you open a new savings account of \$5 or more, leaving it in the bank one year and pay compound interest on your savings April 1 and October 1."

The purpose of the distribution of this coupon is to invite persons, particularly the young, to start a savings account. One does not need a state and pencil nor interest tables to discover that his or her first \$5 of savings will earn more than the ordinary interest the first year.

The Glasgow tramways committee has sanctioned the employment of nearly 400 women to act as temporary conductors. They will receive \$4.50 for a fifty-one-hour week.

Florence MacLachlan, Philadelphia's flower girl, who has been making a fortune in the city, has issued a challenge to motorists of other cities to meet her over the 16-mile course.

THE WM. H. BENT RESIDENCE

One of the most complete, costly, and genteel residence estates in the Highlands district of Lowell. The buildings were erected in 1894 at an original cost approaching \$20,000; the house is very handsome and rich in its finish and appointments; the stable or garage is in harmony with the premises; the plot of land is mature in its development and possesses some thirty ornamental shade and fruit trees effectively placed. The premises are numbered 107 Livingston avenue, the next estate but one from Princeton boulevard; this end of Livingston avenue is practically at the height of the land in this section of the Highlands, has a quietness and dignity of atmosphere peculiarly its own in its gentility; this neighborhood is unexcelled in its character.

PROTEST OF PACKERS

CONFERENCE TO BRING RELIEF—HINT URGING SPECIAL SESSION OF CONGRESS

WASHINGTON, July 15.—American meat packers, in conference here with the state department, seeking relief from British detention of some fourteen million dollars worth of cargoes to European neutrals, have been asked by representatives of cotton growers, live stock interests, state officials in the cotton and cattle belts and other American business interests affected by the war, to join in the general conference here, having for its object a proposal for a special session of congress to deal with the rights of neutrals. It also would take up the question of providing shipping facilities for Americans.

Representatives of the great Chicago packing houses who continued their conferences with state department officials today disclaimed any initiative action in the proposed conference and said their cooperation in the movement depended on whether the negotiations now in progress resulted in any relief.

GETS BIG WAR ORDER

LACKAWANNA STEEL CO. SELLS 60,000 TONS OF RAILS TO RUSSIA

NEW YORK, July 15.—The Lackawanna Steel Co. announces the sale of 60,000 tons of steel rails to the Russian government for delivery in September. These rails, it is understood, are to be used mainly in additional construction of the trans-Siberian railroad.

ARREST 176,618 IN MASS.

HISTORY OF BAY STATE—25,820 JAILED

BOSTON, July 15.—The number of arrests in Massachusetts in 1914 was the largest in the history of the state, according to a report issued by the prison commissioner today.

Of 176,618 who were taken into custody, 25,820 reached the prisons, where it was found that 14,817 or 57 percent had been there before. Seventy percent of the arrests were for drunkenness. The next largest class of offenders were violators of the automobile regulations, 5565 of whom were taken into custody.

BOGUS SOLICITOR BUSY

The Trades and Labor council authorizes the statement that there is a bogus solicitor about town representing himself as being affiliated with labor organizations and that the council has taken the matter up with the police.

PERSONALS

Mrs. Dunn and daughter Lillian of Pleasant street, Dracut, will spend their vacation in New York.

Mrs. Charles Atherton and family of 12 Cherry place have gone to North Vassboro, Me., to spend the next two months.

MIDEX SAFE DEPOSIT & TRUST CO.

The Middlesex Trust Co., corner Merrimack and Palmer streets, is distributing a coupon to the holders of its bonds. On one side is the name of the bank. On the reverse side is the following reading:

"I will accept this on deposit for 25 cents if you open a new savings account of \$5 or more, leaving it in the bank one year and pay compound interest on your savings April 1 and October 1."

The purpose of the distribution of this coupon is to invite persons, particularly the young, to start a savings account. One does not need a state and pencil nor interest tables to discover that his or her first \$5 of savings will earn more than the ordinary interest the first year.

The Glasgow tramways committee has sanctioned the employment of nearly 400 women to act as temporary conductors. They will receive \$4.50 for a fifty-one-hour week.

Florence MacLachlan, Philadelphia's flower girl, who has been making a fortune in the city, has issued a challenge to motorists of other cities to meet her over the 16-mile course.

By J. E. CONANT & CO., Auctioneers

OFFICE, LOWELL, MASSACHUSETTS
IT IS MY FIXED PURPOSE TO ADVERTISE AND PLEDGE WITHOUT LIMIT OR RESERVE OF ANY KIND WHATSOEVER TO THE HIGHEST BONA FIDE BIDDERS AT ABSOLUTE AUCTION SALE—

FREE FROM ENCUMBRANCE

British Government Seizes Coal

SEVERAL BIG STRIKES IN THE UNITED STATES

ADMIRALTY TAKES OVER ALL RESERVE SUPPLIES

ALD. MORSE TELLS OF WORK ON STREETS

PROVIDENCE, R. I., July 15.—The strike of 2100 members of the street car men's union called at midnight, resulted today in an almost complete tie-up of the Rhode Island company's system. Out of 453 cars that are run in normal times, it was admitted by President A. E. Potter of the Rhode Island Co. today that only 49 were in operation this forenoon. The cars that did run carried but few passengers.

The officials of the car men's union would concede that only eight cars were running on the whole system. At union headquarters it was stated that the 16 men who remained were old employees, mostly strikers and inspectors.

President Potter of the railroad company stated that the 80 men manning the cars in operation today are men who have been with the company for many years and do not belong to the union. He said that more cars would be running before night. Asked if the company intended to import strike breakers, Mr. Potter stated that nothing of the kind had been discussed by the company officials.

Up to 10 o'clock not a single act of violence had been reported. There are no additional policemen detailed on the streets although many officers are held at the various stations in case of emergency.

Cause of Strike
While the union some time ago presented demands for increased wages and improved working conditions, the immediate cause of the strike was a demand by the union that it should be allowed to name three arbitrators to settle the differences.

What Union Demands
In a statement issued shortly before noon by the officers of the union it was declared thatasmuch as the Rhode Island Co. had declined to accept the three arbitrators named by the union, the latter organization now insisted on all of its original demands, which include increased wages, shorter hours, the abolition of the automatic fare collector and a guarantee of so much a day for spare men.

It was further declared in the statement that many of these demands had been waived in the conferences that were held prior to the strike. Business Agent Coleman said that although the original demands called for an increase of from two to seven cents an hour, the union modified its demands several times in the conferences and finally all they asked for was one-half cent an hour for all men. He claimed that the matter of arbitration was first proposed by the company, that the union assented to it, but broke away from the conferences when, as he contended, the railroad company went back on some of the matter it had agreed to stipulate by.

Pulled Off Car
The first sign of real trouble came this afternoon when a conductor and motorman were pulled off their car on the Cranston street line. The conductor, a newly hired man, was badly beaten up. The assailants were gone when the police arrived. The motorman was unharmed.

Mayor Gainer wrote to both the Rhode Island company and the officers of the union today suggesting that a satisfactory agreement between the two sides as to the only point of dispute—the method of selecting a board of arbitration.

Congressman O'Shaughnessy sent to the department of labor at Washington a telegram suggesting that the federal authorities intervene and arbitrate the dispute if they have jurisdiction in the matter.

At the close of a long meeting of the board of directors of the Rhode Island Co. it was stated that the proposed arbitration was now a dead issue and that the company would not recede from the position it had taken. It was announced that new men were being hired, but that they were not professional strike-breakers.

At 2 o'clock this afternoon there were 36 cars running on the entire system. The only car running today between Narragansett Pier and East Greenwich on the Sea View road was

operated by State Senator Frank D. Caswell, assistant superintendent of the road, as motorman, and William C. Clark, the superintendent, as conductor.

TIRED AT PAWTUCKET
PAWTUCKET, R. I., July 15.—Not a car was running in this city today as a result of the car strike which went

TO TAKE NO CHANCES
SAND FILLED BAGS ALONG DECKS OF LINER BALTIC WHICH SAILED FOR ENGLAND

NEW YORK, July 15.—As a protection against gun fire from submarines, a shelter of sand-filled bags was piled along the decks of the White Star line steamship Baltic that sailed today for Liverpool with 314 passengers and a full cargo, part of which consisted of ammunition and war supplies.

Unusual precautions were taken by steamship officials to protect the Baltic prior to her sailing. In addition to the usual guards a cordon of private detectives was thrown around the entire pier and along the bulkheads. No one other than known members of the crew and identified passengers were allowed within 20 feet of the ship. As a further precaution the space between decks was screened with heavy canvas.

DANIELS VISITS EDISON
SECRETARY SEEKS VIEWS ABOUT MEN TO BE INVITED TO JOIN BOARD

WASHINGTON, July 15.—With the departure of Secretary Daniels for West Orange, N. J., to confer with Thomas A. Edison in regard to the proposed navy bureau of invention and the civilian advisory board naval officials look for an announcement to follow immediately after the conference. The secretary will seek the views of Mr. Edison about some of the men to be invited to join the advisory board. Pending the conference, however, Mr. Daniels will not make known the names of other possible board members.

SUMMER OUTINGS
Bring to all of us much needed and delightfully pleasant variations from our ordinary humdrum routine. Whether we take them by the still waters of some neighboring lake or within sound of the roar of the Atlantic, they are equally enjoyable. In both places people seem to wear the sporting apparel which is so comfortable and becoming. We specialize in these goods.

CHALIFOUX'S

CARDIFF July 15, 6.43 p. m.—The British admiralty has taken over all the reserve supplies of coal.

LONDON, July 15, 12.10 p. m.—Out of the various manifestations of unrest in the British labor field shown since the outbreak of the war there developed today what may prove, unless an early solution is found, one of the most serious strikes in the history of the country.

More than 150,000 men already have laid down their tools, thereby shutting down virtually all the mines in the Welsh coal fields, which supply steam coal for the British navy. The government using for the first time the authority granted by the so-called munitions measure, ruled that the miners must not strike, a royal proclamation to this effect was issued yesterday. The miners answer to this proclamation was to go on strike.

Though subject to a heavy daily fine for striking and though urged by their leaders to allow their demands for higher pay to be arbitrated, the miners threw aside all advice and today refused to take up their picks, thus not only stopping the mines but leaving idle the mine railways and some ships engaged in coal transportation.

Theoretically the government is empowered to check the strike forthwith, but it is a puzzling problem how the fines authorized under the munitions measure are to be enforced. No rioting in the strike district has been reported.

The men's leaders have called a conference in the hope of reaching a settlement and the whole country is watching the outcome of the case which is to be a test of the government's power to force labor to arbitrate in the face of the men's contention though not of the leaders that, having made their demands there is nothing to arbitrate.

DEFY BRITISH GOVERNMENT
CARDIFF, Wales July 15, 12.32 a. m.—In spite of optimistic predictions that serious labor difficulties in the coal fields would be averted, virtually

every miner in Wales was idle this morning, the day fixed for the beginning of the miners' strike for higher wages.

In one district alone 20,000 men struck, defying the government's proclamation that the provisions of the munitions act would be invoked to prevent a cessation of operations. By 10 o'clock it was estimated that upwards of 120,000 men were out in all parts of the Welsh fields.

A meeting of the executive committee of the South Wales Miners' union was called for this forenoon to confer with representatives of the board of trade, but the rank and file of the miners are obdurate and the government proclamation seems only to have stiffened their resolution to stand firm in their demands.

Men who strike in the face of the government prohibition are subject to a fine of \$15 a day in default of which they may be imprisoned.

REFUSE TO RETURN
LONDON, July 15, 6.02 p. m.—A despatch from Cardiff to the Central News agency says that the miners' conference by a vote of 130 to 113 decided not to accept the recommendation of the council to return to work.

TENS OF THOUSANDS LOST
HONG KONG, July 15.—Tens of thousands of natives are estimated to have been drowned by the floods in the Chinese provinces of Kwangtung, Kwangsi and Kiangsi, according to the latest reports reaching here.

A fire-swept area of one mile and raging floods are handicapping the work of rescue in Canton. The city was in darkness last night, the water having inundated the electric light plant.

Missionaries have arrived here seeking the assistance of the United States gunboat Callao to aid in the work of rescue. The last report received here from Canton before communication was cut said that the Christian hospital was in danger from fire.

LEADING STORES CLOSE FOR ANNUAL OUTINGS
This is Merchants' day in Lowell and the city is almost deserted for thousands of men and women left during the early hours for the beach and various summer resorts. With the exception of a few variety and fruit stores, all the business establishments closed for the day, the clerks being given an opportunity to spend a whole day at the beach, and many took advantage of the kindness of their employers to leave the hot and dusty city for an excursion to the beach sands.

A few dark clouds in the early hours appeared ominous but fortunately the mists cleared and the day proved a most ideal one, much to the satisfaction of the store clerks, who have had their half holidays spoiled by rain since the stores began closing on Thursday afternoon.

The chief outings which are being held today are as follows: Bon Marche clerks at Nantasket; A. G. Pollard Co's clerks at Nantasket; J. L. Chailoux Co's at Bass Point; Saunders' market clerks at Revere; Eastern Star lodge at Haver; Pawtucket Congregational church at Mountain Rock; Knights of Columbus at Nantasket; Druggists association at Nantasket.

Bon Marche
The members of the Bon Marche Employees Mutual Benefit association are holding their annual outing at Nantasket beach. The first plans were to

NEBRASKAN TORPEDOED
WASHINGTON, July 15.—Germany, in an official memorandum transmitted today from Berlin by Ambassador Gerard, admits that the American steamer Nebraska was torpedoed by a submarine. The German memorandum expresses regret and readiness to make reparation and assures the United States that the attack "was not meant for the American flag but is to be considered an unfortunate accident."

Secretary Lansing made public the German memorandum which disposes of the question whether the Nebraska was struck by a torpedo or by a mine. The German memorandum closes the incident, it was said, except as to the payment of damages.

The Nebraska case, coming close on the sinking of the Lusitania and coupled with the attack on the Gulfight, threatened to become one of the important issues in the controversy with Germany over submarine warfare. There were some circumstances which made the case complex.

The Nebraska had been under charter to the White Star line of the International Mercantile Marine, but the charter had been cancelled and she was returning home to carry coal from Newport News to the California coast for the United States navy. With her sister ship, the Minnesota, from May to August of 1914, she had been under charter to the United States as an army transport, carrying horses from Galveston to Vera Cruz. She was one of the first ships to go through the Panama canal.

ness agent for the machinists' organization here, added another phase today to the already complicated industrial situation growing out of the trouble over the millwrights' union affiliations at the plant of the Remington Arms Co. If this plan is carried out, it was stated, it will involve close to 20,000 men.

ORAL ARGUMENT
WASHINGTON, July 15.—Oral argument on "the fundamental principles involved in the work of making valuation of the property" of common carriers will begin before the interstate commerce commission early in October.

Representatives of state railway commissions, as well as representatives of the railroads will discuss the questions. Dates will be announced later.

WRECKED BY EXPLOSION
BIG GRAIN ELEVATOR ACROSS HUDSON RIVER DESTROYED—SIX INJURED
NEW YORK, July 15.—An explosion today wrecked a big grain elevator in Weehawken, across the Hudson river from New York and severely injured a half dozen men who were working there.

DEMAND EIGHT HOUR DAY
BRIDGEPORT, Conn., July 15.—Demand for an eight hour day for machinists throughout the city to be made the latter part of the week" according to a statement by J. J. Bowen, business agent for the machinists' organization here, added another phase today to the already complicated industrial situation growing out of the trouble over the millwrights' union affiliations at the plant of the Remington Arms Co. If this plan is carried out, it was stated, it will involve close to 20,000 men.

TRAIN WRECKED
WASHINGTON, July 15.—A train between Vera Cruz and Mexico City, has been wrecked by a bomb near Arizaco. The explosion killed and wounded many persons. A telegram from Vera Cruz to the state department says it is uncertain whether the train left Vera Cruz July 12 or 13. The railroad has discontinued selling tickets to Mexico City.

SENATOR DREYFUS DEAD
PARIS, July 15, 4.55 p. m.—Senator Ferdinand Dreyfus, who was a member of the most important committees of the French upper house and a writer and expert on economic and social questions, died here today.

DR. McLAUGHLIN APPOINTED
PROVIDENCE, R. I., July 15.—Dr. Thomas J. McLaughlin of Woonsocket was appointed a member of the state board of health by Gov. Beekman today to succeed the late Dr. James O'Hare of this city.

Charles J. Morse, commissioner of streets and highways, stated today that he has 600 men at work on the streets and sewers and he says he started construction work earlier this year than any year since the new form of government was introduced. "People might think," said Mr. Morse, "that because there's a considerable amount of money remaining unexpended from the street department appropriations and loans that the normal amount of work is not being done. I did more work last year than I did more before in one year in Lowell, to my knowledge and I am going to do more work this year than was done last year. I have 600 or more men at work at the present time and you can take it from me that I won't have as many men in November, no odds whether I am a candidate or not."

"I started construction work earlier this year than usual, earlier than it was ever started under the new form of government and I have a few figures here that will substantiate my statement. In 1912, when Brown had charge of the payroll for the week of May 11 showed 120 men employed and for the week of May 15, 415 men. In 1913, under Donnelly, there were 567 men on the payroll for the week of May 9 and 566 for the week of May 16. I took charge last year and the payroll for the week of May 2 shows 357 men engaged and 565 for the week of May 16. This year there were 512 men on the payroll during the week of May 8, and 488 for the week of May 15. The bad weather was responsible for the reduction in the number of men for the week of May 15. I give you those figures to prove that construction work started earlier in 1914 and 1915 than in any other year since the new charter became operative."

New Concrete Mixer
Mr. Morse is very much pleased with the new concrete mixer. It is being operated in Gorham street and he says it is doing fine work. He says that as soon as his men have learned to operate it to advantage it will do as much work as two of the old mixers. The new mixer goes under its own steam. The old machines have to be hauled by the men. He also states that not as many men are required to operate the new machine as are required on the old machines. The new machine is called the Koehring mixer. It handles sand, stone and cement. It has a 20-foot boom that operates at either side and can cover a 10-foot street at once.

Quarries for Veterans
The municipal council chamber from all appearances will not be placed at the disposal of the G. A. R. as a meeting place. Members of the municipal council do not take very kindly to the proposition and City Solicitor Hennessy says the city hall was dedicated to a particular public service and that the municipal council cannot divert it from that particular use. And, aside from that, he says it would be establishing a dangerous precedent to allow an organization quarters there, except that they might meet temporarily as is being done at the present time. Asked to explain how it was that the veterans were allowed in Memorial hall,

Body from River
Identified as That of Robert Robinson, a Printer

The body of Robert Robinson, aged 40 years, was found floating on the surface of the Merrimack river, Elmwood, Dracut, by Paul Robinson of that village about 9 o'clock this morning. The body was removed to the rooms of Undertaker Healey, where it was positively identified by a letter addressed to Robinson and signed by Secretary Fred Spend of the Lowell Typographical union, of which the deceased is believed to have been a member. Mr. Spend had contributed to his support from the union funds.

The body had undoubtedly been in the water for at least a week judging from its condition, when viewed by Medical Examiner Melgas. Little of the man's past could be learned. At Tobin's printery and the Lawler Printing Co., where he had worked, it was said that he never gave any information about himself and they did not even know his address. He was about 40 years of age and single. He was known to the fraternity as "Mysterious" and had been ill for some time past.

In the pocket of his coat was found a newspaper dated July 7.

BERNSTORFF IS INVITED
SECY LANSING ASKS GERMAN AMBASSADOR TO CONFER WITH HIM

WASHINGTON, July 15.—Secretary Lansing today asked the German ambassador, Count von Bernstorff to confer with him tomorrow morning. It is assumed they will discuss the situation between Germany and the United States.

WOMAN AND CHILD WERE FOUND IN GAS FILLED ROOM IN BOSTON TUESDAY

BOSTON, July 15.—The bodies of a young woman and child found in a gas filled room in a Revere street lodging house in the West End district on Tuesday, were identified today as Mrs. Florence Emma Mason and her seven years old son, Francis, of North Cambridge.

No explanation has been offered why the woman should have addressed a note to Edwin Powers of South Orange, N. J., saying that she was going to kill the boy and herself.

BOY TAKEN SUDDENLY ILL
John Higgins, a lad of 15 years who resides in a court which runs from 512 Gorham street, took suddenly ill about 3.45 o'clock this afternoon while standing near Gorham street. He was taken to the hospital in the ambulance in a critical condition.

SCHOONER SUNK—CREW SAFE
JACKSONVILLE, Fla., July 15.—The schooner Marjorie A. Spencer of Bangor, Me., was sunk in the St. John's river last night by the steamer Yari, from Miami. The crew escaped.

Bridge Is Unsafe
Alderman Hannagan of Lawrence has caused the bridge over the Shawheen river leading into Massachusetts avenue, North Andover, to be placarded as unsafe for loads exceeding five tons. This is known as the Loring street bridge and in consequence of an agitation for which Mr. Hannagan is responsible plans have been devised to replace the present structure with a bridge of concrete construction and a special act was passed by the legislature providing for its erection and apportioning the cost between the city of Lawrence, the Essex county and the Bay State Street Railway company.

BATTED FROM THE BOX
LAWRENCE PLAYERS FORCED HOUSE OUT OF GAME—GREEN TO THE RESCUE

A week ago tomorrow Lowell and Lawrence crossed bats at Riverside park with Lawrence in first place and Lowell in last, and from all appearances the contest was over. But on the occasion of that meeting a new manager, Charles Klechmer, entered the contest, and he pulled a victory for Lowell, the first they'd won in a long time.

Today Lowell and Lawrence met again at Spalding park for the fifth time in six days, with four victories out of five games to the credit of the erstwhile cellar-champs, and with Lowell no longer in last place. A mighty change has taken place in the local team since they met Lawrence less than a week ago and that change which was for the better, is appreciated by the Lowell public who cheer the players in the large numbers and the enthusiasm at Spalding park.

Before the game one could hear throughout the grand stand the expression: "It's a good bet they'll pass Harrows and Greenhalge today, all right," for both members of the Lowell team have become famous as men who break up games by hanging out three homers and home runs when the bases are filled and runs are needed.

Lawrence batted House off the rubber in the third inning and Faddy Green was called to the rescue. In the fourth inning that had been played up to the time of going to press Lawrence had scored four runs with nary a counter for the home team.

PLACING BOMBS IN FRENCH AIRSHIP JUST BEFORE FLIGHT OVER THE GERMAN LINES

PLACING BOMB ON AIRSHIP

In the accompanying illustration is shown a striking photograph taken on the allies' war front in France. A French aeroplane is about to make a flight over the German lines and is being loaded with its deadly equipment. The aviation squad is loading the ship with bombs, which are to be hurled at the foe.

HELD LAWN FETE

St. Columba's Parish
Opened Annual Event
on Church Grounds

The annual lawn fete of St. Columba's parish was opened very successfully yesterday afternoon with a baby show on the church grounds. There was a large attendance of the parishioners and of young people from the various other parishes of the city. In the evening the grounds were brilliantly illuminated with arc and incandescent lights, which with the various decorated booths and tables and the display of bunting made the scene decidedly fascinating. The attendance last evening was very large and all thoroughly enjoyed the program.

The Lowell Cadet band, John J. Giblin leader, gave a delightful concert program which was highly enjoyed by all present. Some of the features seem to have been borrowed from the Fourth of July midway and Connie Cronin, in charge of the novelty wheel, proved himself as good a "barker" as ever appeared on the midway. There were other wheels and other "barkers," but none to come up to "Connie." There was an African dancer who seemed very anxious to have somebody aim at his cranium and quite a few accepted the invitation while he tantalized those who went wide of the

mark. Edward McCarthy, Henry Tighe, Frank Cogger and Charles McQuillan each had charge of a separate feature that helped to swell the re-

REV. JOHN A. DEGAN

venes of the evening and at the same time to provide amusement for the crowd. Miss Katherine McDermott and

an able corps of assistants had charge of the jewelry table and Miss John Monahan presided over the mystery table. Messrs. Joseph Molloy, Frank Donovan, Thomas J. O'Donnell and Victor Achin provided automobiles which were kept busy during the evening, accommodating those who wished to ride around Pawtucketville. This number made a great hit and the "Mitt-neys" did a rushing business. Rev. Fr. Degan and his assistant, Rev. Fr. Buckley, were busy throughout the evening seeing that nobody was neglected in the distribution of favors. This afternoon an entertainment was provided for the children and the fete will be continued this evening.

The officers and committees in charge were as follows:
General manager, Joseph L. Cunningham; assistant general manager, Jos. McAvinue. Amusement committee, Charles Gallagher, chairman; Cornelius Cronin, Joseph Cunningham, Michael McDermott, John Cryan, Patrick Gallagher, Charles McQuillan, Norbert Burns, Patrick Brosnahan, Matthew Wholey, Henry Tighe, William McKone, Michael Barry, William Sullivan.

Music committee, Cornelius Cronin, Joseph McAvinue, William McDonald, Jos. McAvinue, William McDonald, John Clancy, Michael Lynch, Daniel Wholey, Charles McQuillan, Andrew Molloy.
Refreshment committee, John Monahan, chairman; candy table, Miss Katherine McDermott, chairman. The members of the general committee are: Joseph Canino, chairman; Joseph McAvinue, secretary; Andrew Molloy, Timothy Wholey, Thomas Sexton, William McDonald, Matthew Wholey, Patrick Gallagher, Charles McQuillan, John Dunne, Michael Barry, Thomas Judge, Frank Cogger, Norbert Burns, Michael McDermott, John Clancy, Cornelius Cronin, William McDonald, Patrick Gallagher, John Cryan, Patrick Gallagher, Charles Brennan, John Walsh, Edward McCarthy, Thomas McKone, Mrs. Patrick Sexton, Mrs. John McNamara, Mrs. Lizzie Campbell, Mrs. Owen McCusker, Mrs. John Raymond, Mrs. Thomas Judge, Mrs. John Swift, Mrs. John Monahan, Mrs. George Hamilton, Mrs. Daniel Quinn, Mrs. John Blessington, Misses Loretta Shea, Gertrude Shea, Elizabeth Murphy, Elizabeth Murray, Minnie Farley, Mary Wholey, Katherine Wholey, Laura Cogger, Agnes Dunne, Martha Dundon, Mary Haudan, Alice Sexton, Gertrude Schorfeld, Sadie Murray, Katherine Farrell, Marie Sullivan, Bernice McDermott, Christina Magee, Stella Quinn, Catherine Holmes, Katherine Magee and Pearl Donelass.

In the baby show, held during the afternoon, the prize winners were as follows: Prettiest blonde, two years and under, Alice G. Brooks; prettiest brunette, two years and under, Malvina Raymond; smallest baby, Stella B. Beaudet; fattest baby, Josephine Gallagher; prettiest baby between three and four years of age, Rosanna Roberts.

TABOO FREAKISH SHOES

PERFORATIONS AND DECORATIONS
WERE FROWNED ON—RETURN TO
"NORMAL AND SANE" LINES

NEW YORK, July 15.—As a result of the meeting of representatives of the National Shoe Retailers' association, the National Foot & Shoe Manufacturers' association, the National Wholesalers' association and the National Last association, a decree was issued today against the so-called freakish styles of women's shoes. The manufacture of shoes of odd colors, lacing at the side and back was disapproved and it was agreed to return to the more conservative fashions during the coming season. Women's shoes for ordinary wear will be black with cloth uppers and to be proper the cloth must also be black. Perforations and other decorations were frowned on. This was described by the spokesman of the conference as a return to "normal and sane" lines. Men's shoes are to remain conservative in design and either black or tan.

Continued

into effect at midnight. Hundreds of motor busses were used to carry many of the factory employees to their places of business this morning and they have been freely patronized during the day. The street railway officials say they hope to be able to operate some cars before the day is over.

JITNEYS BUSY AT WOODSOCKET
WOODSOCKET, R. I., July 15.—Local car barns were locked and not a street car was put in operation today as a result of the strike of the Rhode Island trolley men which began at midnight. Motor busses carried hundreds from surrounding towns to the local mills and also conducted Woodssocket factories in Burrillville and the Blackstone valley. Cars on the Milford, Attleboro and Woodssocket line run as far as the state line at Hollingham and the Worcester Consolidated cars come to the state line at Blackstone. Seventy platform men and 10 track men are affected here. There was no disorder.

SINGLE CAR RUNNING

DANIELSON, Conn., July 15.—With the exception of a single car running between Danielson and East Killingly, a distance of four miles, the Providence and Danielson trolley line of the Rhode Island company, a 30-mile stretch of road, was tied up today as a result of the strike at Providence.

CHERRY & WEBB
NEW YORK
CLOAK STORE
12-18 JOHN STREET

Iron workers unless the troubles are smoothed over.

There is also said to be unrest among machinists in other shops in the city, following the announcement that the Remington Arms company had voluntarily made a reduction from a 10-hour day to one of eight hours with no change in pay for the company machinists. Predictions are made that other shops will be asked to make similar concessions.

In view of a disturbance last night, when a laborer was beaten by one of the guards because he stepped over the so-called "dead-line" where the construction work is in progress, extra precautions have been taken by the company to prevent trouble. Early today the millwrights stationed pickets near the company buildings.

PIERCED HOT LAST NIGHT

BRIDGEPORT, Conn., July 15.—One hundred workmen, 20 guards and the Bridgeport police reserves took part in a fierce riot last night at the new plant of the Remington Arms company, where small arms for the allies will be made. The riot brings to fever heat the labor excitement of the past week which Tuesday caused the walkout of the structural iron workers at the

plant and yesterday a walkout of the millwrights and the iron workers of the new plant of the sister company, the Remington Union Metallic Cartridge company.

It is said here that the United States contemplates making a government arsenal at Bridgeport.

TENNIS TOURNAMENT
SAN FRANCISCO, July 15.—Four San Francisco players were to compete today in the singles semi-final matches of the Panama-Pacific exposition tennis tournament. Maurice E. McLoughlin, former national singles champion, was to play John R. Strachan, California singles champion, and Clarence J. Griffin was to meet William F. Johnston.

As a result of the defeat yesterday of R. Norris Williams, 2nd, of Harvard university, national singles champion, by Clarence Griffin, eastern players were eliminated from all semi-final contests with the exception of one doubles team, Dean Mathew and G. M. Church of Princeton university have won preliminary matches and were scheduled to appear today against W. N. Ambrose and F. Bass of San Francisco.

BRADT'S SODA BISCUIT

WHOLESOME AND DELICIOUS—MADE IN LOWELL

New Post Toasties

There's a body, a crispness and true corn flavour to the

that are unequaled by any other corn flake.

Ordinary, common-place "corn-flakes" do not appeal to one after having once enjoyed the surprising goodness of these superior bits of toasted corn meats.

Try the New Post Toasties—your grocer has them now.

SHOWS BIG INCREASE

REVENUE BUSINESS GOOD—LIQUOR AND INCOME TAXES CAUSE RAPID GROWTH

BOSTON, July 15.—According to figures given out by Collector John F. Malley, business at the local internal revenue office which covers the entire state has nearly doubled in four years, this due to the money collected from the income tax, which went into effect last year, although the tax from fermented liquors shows an increase of over \$500,000 over the previous year.

The total amount collected from all sources during the year ended June 30 was \$12,951,625, as compared with \$9,116,791 for the fiscal year of 1914, an increase of \$3,834,834. In 1913, the total collections amounted to \$7,239,475, and in 1912 they were \$7,223,131. There has been a gain of approximately \$5,000,000 since Collector Malley came into office.

One of the greatest sources of revenue was the income tax, a total of \$4,535,141 being collected. This is \$1,022,075 more than in 1914, the first year of the tax, when a total of \$3,513,066 was taken in. For this year computations amounted to \$1,553,935 to the income tax total, while \$2,553,108 was collected from individuals.

These figures show a decrease of \$145,145 in the amount collected from corporations, and an increase of \$1,177,221 in the individual collections.

The largest source of revenue was fermented liquors and distilled spirits, which together brought a total of \$5,229,655 into the treasury, an increase of \$650,193 over last year, when \$4,579,462 was taken in from these two sources. This year \$2,351,165 came from distilled spirits and \$3,171,732 from fermented liquors. Last year distilled spirits brought in \$2,332,653 and fermented liquors \$2,510,107.

An added source of revenue this year was the special war tax which brought in more than \$1,000,000. A total of \$1,044,335 came from the sale of documentary and proprietary stamps, while brokers paid special taxes amounting to \$28,288, bankers \$126,112, theatres \$24,338, and howling alleys and billiard tables \$29,915.

From registration and the sale of blanks under the new narcotic law, in effect March 1, a total of \$9,566.29 was realized.

The remainder of the total collected came from the following sources: Tobacco and cigars, \$732,111; butter, \$227,771; oleomargarine, \$19,439; miscellaneous, \$125,587; penalties, \$18,584. Last year the revenue from these sources was: Tobacco and cigars, \$512,867; butter, \$202,909; oleomargarine, \$11,207; miscellaneous, \$137; penalties, \$1927. An increase is shown in nearly every instance.

Collector Malley stated that more than a third of the business was done in the month of June, when \$4,517,393 was collected. The last day of the month \$1,512,076 was collected.

OF INTEREST TO WOMEN

The newest of London's 600 railway stations, which has just been opened, is situated entirely by women, from stationmaster to porters.

Perhaps the most coveted of all orders for women is the Golden Rose, which is bestowed upon pious daughters of the Catholic church by the pope.

Miss Anna Robertson, head of the military department of a large New York firm, has just started on her fortieth trip across the Atlantic.

The Illinois Mothers' Pension law has been amended so that mothers whose husbands have deserted them will be eligible to receive pensions.

Miss Jane J. Martin, head of the advertising department of a large trading stamp concern, is said to be the highest paid woman in advertising work.

Paris has many women physicians of distinction, and the greatest among them is Mme. Klumpke-Dejeffre, celebrated for her researches in neurology.

BARTLETT & DOW, 216 Central Street

amount features have been secured for the enjoyment of the public will be received with pleasure. Since the opening of this theatre the celebrated make of pictures has proved to be decidedly popular among local theatre-goers. The celebrated star, Charlotte Walker, will be seen in the leading role of the new Paramount picture in five acts, entitled "Kindling," today, Friday and Saturday. "Officer 66" is the other five act Paramount feature which will afford intense delight to the patrons of this theatre during these last three days of this week. "Officer 66" is a sparkling comedy which attracted much attention when it appeared on the legitimate stage. The photo production of this play is every bit as interesting. Besides these two big Paramount features there will be seen at this cool, comfortable theatre during the remainder of this week a very humorous Burns and Stoll comedy hit. This is one of the latest of these internationally famous fun making acts. As is evident, this program is one of the largest and best that this theatre has yet offered to its patrons.

D. E. KETH'S THEATRE

"My Best Girl" is the rather luscious title of the new Metro picture to be shown at the D. E. Keth theatre the concluding half of the present week, beginning this afternoon. It is a screen adaptation of the comedy written by Channing Pollock and Kenneth Wolf, and it is guaranteed to prove every bit as pleasing as the original comedy did. That is putting high praise on it, but it must be recalled that "My Best Girl" was one of the past season's biggest hits. The cast of 35 principals in this piece will be headed by Max Fegman and Louis Meredith. Mr. Fegman has scored successes in "The Man on the Box," "The Truth Wagon" and "What's His Name?" and Miss Meredith last season appeared in "The Woman" and "Help Wanted." The screen arrangement is in five acts, and in over 200 scenes. It has been said that comedy is as hard to play in pictures as it is on the boards, and that is very hard indeed, if one is to bring laughter with it. But Mr. Fegman has the rare knack of projecting a comedy atmosphere about everything he enters into. The story, what there is of it, concerns the work of an old chemist who is experimenting in high explosives. Very poor, he receives aid from a wealthy colleague who is interested in the same subject. The college man loves a girl, and the girl later turns out to be the daughter of the chemist. The complications are decidedly interesting. Five other pictures will also be shown.

CANOE LAKE PARK

There is no mistaking the fact that Marshall Hall's Merry-makers are making a tremendous hit at Canoe Lake Park theatre this week. It is a most extraordinary offering for a summer park and with the real mild weather striking in this week, thousands of patrons have journeyed to Canoe Lake in the cool lake breezes that are continually sweeping the big park. Added interest is gained for the Merry-makers since the program of 15 attractions includes Walter Morrison, the popular favorite, who was seen in this city with Homan's Musical Revue during his engagement at a local theatre. "The Palace," the college man loves a girl, and the girl later turns out to be the daughter of the chemist. The complications are decidedly interesting. Five other pictures will also be shown.

The company carries its own orchestra, which, as might be expected, adds just so much to the perfection of the entire offering, for, be it known, a strange orchestra can sometimes offset the best efforts of the most talented artists. Perhaps the most talked about and universally commended feature of the program is the presentation of "The Dance of the Hours," a spectacular (and) decidedly artistic offering in the turquoise line that stirs the patrons to storms of enthusiastic applause. Few of the big musical companies touring the big cities present such an elaborate spectacle as this which makes it all the more surprising for a summer park.

"The Midnight Cabaret" is another big spectacular offering, introducing all of the popular song successes of the day, a host of clever dances and a general mixture of cabaret celebrations that put little into the program in no stinted manner.

DR. THOMAS JEFFERSON KING

Dr. T. J. King, Lowell's famous painless dentist, has moved to 123 Merrimack street, where he will continue the practice of painless dentistry in the same careful and conscientious manner as in the past.

Dr. King states in an interview: "The opportunity to secure new offices in a better and more modern building has presented itself at this time and I have fitted up the most modern and up-to-date dental office in this section. I have spared no expense and I have provided every known instrument for the comfort of my patients. Absolutely painless methods and moderate charges for high grade painless dentistry will prevail. You are cordially invited to inspect my new office even though you need no dental service."

I respectfully solicit your friendship and patronage, also the patronage of your friends, and you may be assured that my fees will remain the same. The lowest possible cost, consistent with good work and the best materials."

YOUR BOYS AND GIRLS

Sometimes a girl of 16 finds her dream embodied in a youth of her own circle. He is the untrained boy of whom the mother knows little or nothing. This is the time when the danger of the other. The boy, too, is only an inexperienced young creature, thirsting for a life of love and adventure, heedless of the fact that neither is fitted for life's responsibilities.

Sometimes when a mother discovers one of these youthful romances, her first sensation is that of anger. Yet, if ever a girl needed gentleness and kindness and consideration, it is at this time. She should not be scolded like a naughty child taking forbidden fruit for the right treatment will make her a loyal friend of her mother at all times, turn her into the way which leads to good and noble womanhood, and save her from other and more serious mistakes. The wrong treatment may forever alienate her confidence and trust.

Cleanliness is one of the foundation stones on which is based the beautiful structure of a baby's good health and good temper. When it is neglected all sorts of weaknesses, discomforts and irritations creep in. Cleanliness, hygiene, disease and furnishes a lodging place for germs. Moreover, the baby who starts off in life being comfortable, forms clean habits which it can keep all its life. No outsider can have the real interest of the boy at heart, as the parent. The importance of the child's natural inclination, both moral and intellectual, are a necessity. In order to comprehend my boy I must know his thoughts without forcing his confidence. And if I can keep his confidence I feel that I have hold of one of the surest means of helping him.

NEW DRIVE AT WARSAW

Przanysz Captured by Germans—Austria Protests to the U. S. Against Export of War Munitions

Przanysz has been taken by the Germans almost at the inception of what appears to be a new drive at Warsaw from the north.

The official statement from Berlin announces the capture and also records successes along the East Prussian frontier to the northeast. The village of Konsyn, south of Kolno, has been taken and the heights of Olszanka, northeast of Suwalki, stormed.

Heavy Losses to French

Simultaneously the Germans report the breaking down of attempts by the French to win back lost ground in the Argonne region and the infliction of heavy losses upon the attacking forces.

German Trenches Captured

Paris reports the capture of a line of German trenches north of Arras and the failure of a German attack in the Woerwe region. It concedes a German advantage at one disputed point in the Argonne.

Austria Protests to U. S.

Austria has made representations to Washington that this country's exports of war munitions to the entente allies have reached such dimensions as to threaten the neutrality of the United States.

German Forces Active

German forces again are active in the region north of Warsaw, causing military observers to believe that a drive at the Polish capital from what direction may be imminent.

The Russians admit a German offensive has begun in one sector, where a Russian force retired to its second line positions. Apparently the same operations, however, were alluded to in the most recent German official statement as resulting in "local successes."

French Claim Success

The German drive at the French lines in the Argonne forest region has been followed by attempts on the part of the French to regain lost ground. The latest report from Paris claims partial success in the effort.

On Gallipoli Peninsula

Two hills defending Kithia on the Gallipoli peninsula were occupied by the troops of the entente allies after four assaults on Monday last, according to Athens advices received in London. Constantinople, reporting on the same engagements, says that allied attacks, in which warships supported the troops, were repulsed with heavy losses.

A German submarine sank the Norwegian steamer Rym. One of the merchantman's engineers was killed.

Daily British Government

Great Britain's coal strike problem continues acute, 150,000 miners having gone out, despite the prohibitions of the munitions act.

FEATURES OF LAST NIGHT'S WAR NEWS IN BRIEF FORM

Berlin reports the Germans captured French positions west of Verdun on a two-mile front, capturing 2551 prisoners.

Paris declares the German assault in the Argonne has been stopped, after the Germans gained a quarter of a mile.

French gain foothold in German trenches at several points in Argonne forest and capture wood west of that region.

British on east bank of canal south-west of Eindhoven in Belgium repulse a German attack.

Germans claim local successes in northern Poland.

French aeroplanes drop six-inch shells on junction between Douai and Lille.

Bernstorff makes appointment to give Lansing his interpretation of German note.

TEDDY ROOSEVELT 3D AS ROUGH RIDER ON THE BEACH AT SOUTHAMPTON, N. Y.

TEDDY ROOSEVELT III ON THE BEACH PHOTOS BY AMERICAN PRESS ASSOCIATION

Among the daily visitors at Southampton beach is Teddy Roosevelt 3d. He is the son of Theodore Roosevelt, Jr., and his young wife, who was Eleanor Alexander. Two views of the sturdy youngster are here shown. In one the camera man got him to pose astride of Carter Carnegie, son of T. M. Carnegie, one of his playmates. He was giving an imitation of his famous grandfather as a rough rider. When the camera man started to snap the youngster, however, he began to cry. In the inset picture is another snapshot. In this picture the baby displays his teeth in true Rooseveltian style.

MR. GIAKOS RELEASED

DISTRICT ATTORNEY ORDERED HIS RELEASE FROM HEAVY BAIL TO-DAY

Athanasios Giakos, the man ordered held in \$2000 bail for his appearance at the Demos murder trial after testifying at the inquest a week ago today, was taken from the Lowell jail to the local police court this afternoon, where Judge Enright discharged the bail and recognized him in the sum of \$30. This was done at the recommendation of the district attorney's office after Giakos had told his story to the grand jury this forenoon. The sitting of the grand jury was then adjourned till tomorrow morning. D. J. Donahue appeared in behalf of Giakos.

CITY HALL NEWS

Mayor Murphy stated today that all but \$12,000 of the insurance money on the Memorial building has been received. The amount received on the building is \$50,536.17; on the contents, \$4700.20, and on the portraits, \$200. The \$1200 outstanding is on the building insurance.

2,000,000 Rifles Wanted

A man in Buffalo, N. Y., wants to place an order for 2,000,000 rifles and he wants Mayor Murphy to help him out. He does not say if the rifles are for the allies or the Germans. His letter to the mayor reads as follows:

July 13, 1915.

Dear Sir—I have been authorized by a representative of certain contracting parties to place orders for 2,000,000 rifles. I am, of course, not a manufacturer, but I am a dealer in arms. I will deposit 25 per cent of order with New York bank, and finish paying for rifles as soon as inspected and placed in stock.

Twenty-two months will be allowed for delivery of such number of the 2,000,000 as one can furnish; after four months the government requires a percentage of the order shipped each month.

Stocks can be made from either ash, walnut or hard maple.

I would be glad if you would put me in touch with, or bring to their attention, this matter with any manufacturers in your municipality, or elsewhere, who can make arrangements to take a portion of the two million order and to quote the price and quantity of arms made.

Assuring you of my appreciation of any assistance in this matter, and acknowledging by early mail, I have the honor to be, sir,

Yours respectfully,

E. J. H. Pauley, Buffalo, N. Y.

A SCARCITY OF SALT

THREATENS TO OFFSET BENEFITS DERIVED BY FISHERMEN FROM LARGE CATCH OF COD

ST. JOHNS, N. F., July 15.—A scarcity of salt threatens to offset to a large extent the benefits to be derived by Newfoundland fishermen from the unusually large catch of cod along the northern and eastern coasts and on the Grand Banks this summer. Because of the small catch during the past two or three years the importers this season reduced their orders for salt, which comes from Tripoli, Sicily, and Cadiz, Spain. In addition, the war has caused delays to steamers bringing the salt.

Practically all the salt in the island has now been distributed to the fishing ports. Although at least 15,000 tons additional is expected to reach this city during the next month, it will arrive too late to save a large amount of cod which is rapidly piling up at the various fishing centers.

A SCARCITY OF MONEY

MEXICO CITY, FREED OF PERIODS OF SIEGE, NOW CONFRONTED WITH ANOTHER FAMINE

WASHINGTON, July 15.—Mexico City, freed of the perils of siege, and with prospects of food for the starving now is confronted with another famine—scarcity of money.

Millions in currency, issued by various factions in control of the capital, passed from one to the other during the last year, have been repudiated by each succeeding government. Although supported by decree while the issuing faction remained in control, all such currency now in the hands of the populace is of doubtful value. Villa issued large amounts, as did Zapata, and when Gen. Obregon first occupied the city for Gen. Carranza he made a large issue. Now that food may come in, many of the famished, although possessed of one or other kind of money, may be unable to buy it. Officials here have been expecting that the Carranza government will act to regulate the situation.

Travelers arriving yesterday at Vera Cruz reported Mexico City "poor and sad" and that foreigners were safe from molestation. The populace seemed indifferent to the shifting scenes of government.

IMPRESSIVE CEREMONIES

Body of Archbishop James E. Quigley Who died in Rochester, Buried at Chicago Today

CHICAGO, July 15.—The body of Archbishop James Edward Quigley who died in Rochester, N. Y., on Saturday, was buried with impressive ceremonies today.

SIR EDWARD GREY BETTER

LONDON, July 15, 1:45 p. m.—Sir Edward Grey, whose eyesight has been benefited sufficiently from his short rest has today resumed his duties as secretary for foreign affairs, says a statement given out today by the British official press bureau.

HOME RULE ACT

Dublin Corporation Leaves it in Mr. Redmond's Hands

DUBLIN, July 15.—By a vote of 30 to 22 the city corporation yesterday refused to endorse a resolution demanding that "the home rule act shall be put into operation in the whole of Ireland on the 15th of September next."

By the same majority the corporation adopted an amendment expressing confidence in John E. Redmond, the Irish nationalist parliamentary leader, to select the speediest means and the proper moment to bring the settlement into operation.

Though the movers of the original resolution protested that there was nothing inimical to Mr. Redmond in the majority decision and a suggestion of dissent in the nationalist ranks.

A disorderly scene followed the announcement of the result of the vote. It appears that the opposition to the Irish party had been quietly working on the scheme for some time. There is every assurance that the act will take effect at the conclusion of the war.

HIGHLAND CLUB OUTING

MEMBERS STARTED IN AUTO PROCESSION FOR MARTIN LUTHER CAMP

The annual outing of the members of the Highland club is being held at the Martin Luther camp in Tyngsboro this afternoon, and the event, according to several old members, is one of the best of its kind in the history of the organization. The weather is ideal for such an occasion and nothing was spared by the committee in charge to make the outing the best ever.

Shortly after 12 o'clock about 200 members of the club gathered at their well appointed quarters in Princeton street and awaited the forward march signal, when a procession of some 35 motor-filled automobiles started for the camp. Upon arriving at the camp the waiters provided an appetizing luncheon which was relished by all.

Most of the afternoon was devoted to sporting events, including a baseball game between the married and unmarried men of the club, and this proved one of the attractions of the day. A car-over contest and races of all descriptions were also on the program, and, despite the warm weather, all greatly enjoyed the outdoor program.

At 5 o'clock all sat down to a bountiful dinner, the menu consisting of steamed clams and salmon with all the fixings. This was followed by salads and ices. The homeward trip will be started in the evening.

The committee consisted of the following: Frank Hanchett, chairman; Arthur Dion, Orrin Webster, J. S. Hanson, Harry Briggs, Frank Kenney, Walter Wiley, Otis Byam, Frank Huntley, Wallace Drew, Henry Reynolds, William Potter, Maurice Valliant, Herbert E. Webster, Albert J. Blazon, Frank Cheney, Thomas Corcoran and Joseph Carroll.

PRES. WILSON IS BUSY

WORKING, GOLFING AND AUTO-MOBILING—NO REPORT ON G. T. MARYE'S RESIGNATION

CORNISH, N. H., July 15.—President Wilson divided his time today between working, golfing and automobiling. He was out on the golf links early this morning and afterwards retired to his study to consider official business. He has been absent from Washington during his present trip longer than at any other time since becoming president.

CORNISH, N. H., July 15.—Reports that George T. Marye, American ambassador at Petrograd, had presented his resignation to President Wilson. The president could not be reached directly by members of his party said that Mr. Marye's resignation had not been received since Mr. Wilson reached Cornish.

TOLL RATES REDUCED

CUT FOR ALL VEHICLES EXCEPT AUTOS USING KITTYRY BRIDGE OWNED BY B. & M.

PORTSMOUTH, N. H., July 15.—A reduction in the toll rates for all vehicles except automobiles using the Kittyry bridge, said to be the only toll bridge remaining in New England, was announced today. The bridge is owned by the Boston & Maine railroad. The cut in rates averages 33 per cent and will become effective on Aug. 15.

The rate for automobiles remains 15 cents with an additional charge of two cents for each passenger. The charge for ox-teams is reduced from 15 to 10 cents.

PREPAREDNESS OF ITALY

AUSTRIAN RED BOOK SAYS ITALIAN GOVERNMENT RECEIVED FALSE INFORMATION

BERLIN, July 15, (by wireless to Sayville, N. Y.)—A despatch from Prague, Bohemia, to the Over Seas News agency says:

"Dr. Raschin, a Czech leader, has been arrested. He was president of the Czech newspaper Narodny Listy and a well known Pan-Slavism leader. Five years ago he was sentenced to prison for political reasons. More recently he was elected member of the Austrian diet."

Among the news items prepared by the Over Seas News agency today for transmission abroad by wireless telegraphy was the following:

"The Austro-Hungarian government has published a Red book dealing with the preparedness of Italy for war. It shows that the Italian government recognizes the preparedness of Italy for war. It shows that the Italian government recognizes the preparedness of Italy for war. It shows that the Italian government recognizes the preparedness of Italy for war."

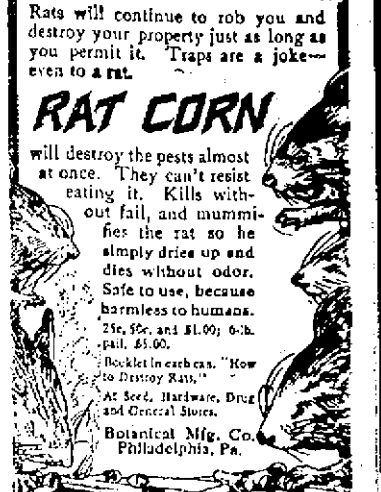

ELKS LODGES IN PARADE

LOS ANGELES, CALIF., JULY 15.—The annual parade of Elks lodges was to bring to a climax today the entertainment and business of the 1915 reunion of Benevolent and Protective Order of Elks. Newly elected officers were to be installed at the closing session of the grand lodge.

WM. H. GERRISH DEAD

STATE SMOKE INSPECTOR VICTIM OF GASOLINE EXPLOSION—WAS BORN IN LOWELL

MALDEN, July 15.—William H. Gerrish, state smoke inspector, who was burned in a gasoline explosion in a local garage on Sunday, died today from his injuries. He was born in Lowell in 1878 and leaves a widow and a daughter.

MALDEN CHURCH PARTY

OVER 300 ENJOYING MERRY TIME AT LAKEVIEW—PARTY HAD BAD ACCIDENT LAST YEAR

The annual outing of the members of East Avenue Baptist church of Malden, is being held today at Lakeview, and those present hope the event will not be disturbed by an accident similar to that which occurred last year, when a man and woman lost their lives by drowning while canoeing.

There are 325 people present, including men, women and children and all have made up their minds to make a good day of it. Six special electric cars of the jumbo type left Malden at 9:30 o'clock this forenoon and arrived at Lakeview park shortly after 11 o'clock with one of the merriest crowds aboard that has been seen at Lakeview for a long time.

At noon luncheon was served and it did not matter whether those around the grove were members of the excursion party or not, they were served with substantial food, the committee having made arrangements to serve the entire population of Lowell if it so happened that the excursion party was so large.

The afternoon was devoted to bathing, fishing, boating and dancing, while a number of the excursionists who were enjoying their first trip in the district took a walk along the country road. Those in charge of the party were Rev. John L. Nichol, pastor; James E. High, superintendent, and Charles Stokes, assisted superintendent. The return trip will be made at a seasonable hour this evening.

HIS HAND TORN OFF

OPERATIVE AT BOOTH MILLS CAUGHT IN GEARS OF A MACHINE TODAY

Edward Grovelous of Suffolk street met with a painful accident while starting a carding machine in the Booth Mills today. He was caught in the gears of the machine and his right hand was torn off. The accident occurred while he was working on the machine. The machine was a carding machine, and he was caught in the gears. The accident was a serious one, and he is now in the hospital.

TOLL RATES REDUCED

CUT FOR ALL VEHICLES EXCEPT AUTOS USING KITTYRY BRIDGE OWNED BY B. & M.

PORTSMOUTH, N. H., July 15.—A reduction in the toll rates for all vehicles except automobiles using the Kittyry bridge, said to be the only toll bridge remaining in New England, was announced today. The bridge is owned by the Boston & Maine railroad. The cut in rates averages 33 per cent and will become effective on Aug. 15.

The rate for automobiles remains 15 cents with an additional charge of two cents for each passenger. The charge for ox-teams is reduced from 15 to 10 cents.

"Personally Conducted" Economy Trips to California

If you can go to California in a comfortable touring sleeping car, by the most interesting scenic route, at a great saving in expense, and in charge of a Special Conductor, paid to look after details and explain the points of interest; then why spend a lot of money on costly "Limited" train service? You can go on a Burlington Route "Personally Conducted" Party. This way is not only much more economical, but much more interesting as well. Through Colorado no extra cost.

You will be interested in learning the expense of this trip is well within your reach. Just call or write and I will gladly explain all the details. Alex Stokes, New England Passenger Agent, C. & N. Y. R., 264 Washington St., Boston.

THE BOARD OF TRADE \$20,000 FIRE IN BOSTON

WILL HOLD ITS ANNUAL OUTING
AT CANOBIE LAKE PARK JULY
20

Thursday afternoon, July 29, has been set as the date for the annual outing for the members of the Lowell board of trade and the event this year will be held at Canobie Lake park. Special electric will convey the excursionists to the summer resort, leaving Merrimack square at 12.45 o'clock and upon arriving at the park a dainty dinner will be served at the pavilion. After dinner speakers will be provided for and it was stated this morning by those in charge that the discourse will be brief.

The afternoon will be devoted to sporting events, this part of the program having been placed in the care of Arthur W. Saunders, and arrangements will be made for those who attend to return to Lowell whenever they please by regular cars. The names of the speakers will be announced later.

IN CELLAR FOR WEEK

40 AGED MEN AND WOMEN FORCED
TO HIDE TO ESCAPE GERMAN
BOMBARDMENT

PARIS, July 15, 9.45 a. m.—Forty aged men and women, many of them paralytics, arrived here this morning from Neuve Eglise (Nieuwerkerke) Flanders, where they had hidden in cellars for a week to escape a German bombardment. They were attended by nurses.

If you want help at home or in your business, try The Sun "Want" column.

THREE ALARMS SOUNDED FOR
BLAZE IN GREEN STREET BUILD-
ING

BOSTON, July 16.—Several firemen were blown downstairs in a hot air explosion, and the Hendricks club headquarters, the citadel of Martin Lommasney, was threatened during the course of a three-alarm fire in the New England feed company's plant on the top floor of the brick building at 11A Green street, West End, about 7.25 last evening. The loss was about \$20,000.

The fire was discovered by a citizen, who hastened to the quarters of engine 4, on Bulfinch street. Before that engine pulled out an alarm had been sounded from box 1334.

Acting District Chief Frank Sweeney, Lieut. Downey of engine 4 and firemen McNamara, Boudreau and Humphreys took up a position on the top of the stairs inside the building. They were directing a stream of water upon the flames when a hot air explosion occurred. The men were bowled down stairs and for a time lost control of the hose, which thrashed about. District Chief Sweeney lost his helmet. They escaped injury, however.

SUGAR DESTROYED

More Than 3000 Tons Ruined by Fire
at Hilo, Hawaii, P. I.—Several Buildings Wrecked

HONOLOULU, Hawaii, P. I., July 15.—More than 3000 tons of sugar were destroyed in a fire which caused the destruction of a large number of buildings here last night. The sugar, valued at \$160,000, represented three-fourths of the loss.

101 RANCH HERE TOMORROW WITH
JESS WILLARD—BIG STREET PARADE

REAL COWGIRL WITH 101 RANCH

Tomorrow will be a busy day in Lowell for Miller Bros. & Arlington's 101 Ranch Wild West show and Jess Willard, the cowboy world's champion, will be here.

The big show will arrive at an early hour, and as expeditiously as possible the long trains will be unloaded in the B. & M. yards and the camp outfit transferred to the exhibition grounds at the old race track where the tent city is to be erected. It goes without saying that there will be a big crowd on hand to watch the unloading of the show and to see the always interesting operation of installing the show on the "lot." There are, it is announced, nearly 60 big and little tents, and in combination they constitute a veritable city of canvas. One of the tents that will probably excite particular attention will be the "Jess Willard Pavilion," where the champion makes his headquarters on the grounds.

By 10 o'clock the Wild West city will be in busy, active operation; the flags will be flying; the red lemons and men of former days, who has reformed his ways and now tempts the thirsty pub-

lic with certified soda pop and ice cream cones, will be ready for business; the Indians, painted and feathered, will be on their ponies, waiting for the bugle to give the signal for the parade; the cowboys will be hurriedly getting into their "chaps"; the cowgirls will be putting the last feminine touches to their picturesque costumes; the long haired, overland stage driver will be having all kinds of trouble trying to keep the six army mules from starting down town ahead of schedule time; and Joe C. Miller, the ranchman, and Wite Chief of the Ponies, will be ready to give the word that will start a mile of Wild West people, horses, ponies, burros, long horned steers, buffaloes and tableau floats on their hike to the business section of the city. The line will leave the grounds about 10.30.

The afternoon performance takes place at 2.15 and the night show at 8.15. A strenuous program is promised. There will be reproductions of scenes during the historic days of the old west, when horse stealing was a crime more heinous than murder; battles be-

between Indians and white settlers; a buffalo hunt, showing how the Indians stalked the wild beast; rough riding by during cow punches and cowgirls; crack shooting, roping and other exhilarating events.

The management announces that Jess Willard, who was a cowboy before he became a champion, will positively and actively appear in the big arena in several of the strenuous ranch numbers. Later, with a sparring partner, he will illustrate the famous 25th round in which Jack Johnson went down to defeat. The desire to see the giant Kansan seems to be universal.

Seats will be on sale all day tomorrow at Liggett's Pharmacy.

PRISONERS OF WAR

TRAINS WITH DISABLED FRENCH
AND GERMANS PASS EACH OTHER
AT BERNE

BERNE, Switzerland, July 14, 10.29 a. m., via Paris, 8.15 p. m.—A special train loaded with French prisoners of war, permanently disabled, on their way home from Germany, passes here every night another special filled with similarly crippled Germans who are returning from France. After this exchange is completed 3000 members of the sanitary corps of the two nations will be transferred from one country to the other.

It is reported at Constance that 2000 French sanitary troops are being held on the German frontier awaiting transport home.

WALKING ON A WAGER

TWO OF THE WALKING CHANKS
REACHED LOWELL LAST NIGHT
AND HURRIED AWAY

Mr. and Mrs. T. R. Jackley of Boise, Idaho, who are walking 25,000 miles on a \$1500 wager, arrived in Lowell last night after completing 23,000 miles of their journey. Their trip includes every state in the union and it will wind up, after they have visited the capitals of New Hampshire, Vermont and Maine.

Three men and three women, who left San Francisco, Cal., Sept. 12, 1912, and they now form a party by themselves, the others having dropped out en route. At the conclusion of their trip they will return to California, where they will visit the expositions.

HELD LAWN PARTY

The Ladies' Bible Class of the Im-
manuel Baptist Church at Norman
Leith's Home

The home of Mr. and Mrs. Norman Leith in East Chelmsford was the scene last evening of a most enjoyable lawn party held by the Ladies' Bible class of the Emmanuel Baptist church. The grounds were prettily decorated by electric lights and Japanese lanterns. A large crowd of members and friends of the church was present and everybody had a good time. There was a drill by eight young women of the high school freshman class and other features of the entertainment included vocal solos by Philip Lord and Fred Campbell; xylophone solos by Romeo Couture, and cornet numbers by Arthur Heller. The following committees were responsible for the success of the affair:

Supper committee: Mrs. Herbert Southworth, chairman; Mrs. Charles Winslow, Mrs. Alexander Campbell and Mrs. George Reynolds.

Ice cream and tonic committee: Mrs.

MATRIMONIAL

8 Hulselander and Mrs. Alfred Blades.
Entertainment committee: Miss M.
H. Poylswell, chairman; Mrs. Mary
Winslow, Mrs. Fred Campbell, Miss
Hazel Osborne and Mrs. Norman Leith.

POLICE COURT SESSION

T. J. O'BRIEN IN COURT AFTER
EXTRADITION FROM N. H.—
OTHER CASES

Thomas J. O'Brien was brought to this city from Keene, N. H., this morning by Inspector John A. Walsh, after losing a hard fought battle in the New Hampshire courts in an effort to evade being extradited to the state of Massachusetts for trial of a statutory offense. O'Brien, who lived in Nashua and Keene, N. H., was arraigned in court today and after pleading not guilty was held over for a week in \$500 surety.

Early last month a young woman made a complaint at the police station about O'Brien, who was stopping in this city at the time, and a warrant was issued for his arrest and sent to the Keene authorities. The district attorney's office was called into the case on June 23 and started proceedings to bring the defendant to Lowell as he had refused to come on the warrant. He was then declared a fugitive from justice and another warrant was issued by the clerk of the local court. Extradition papers were made out by the district attorney's office, approved by the attorney general and signed by Gov. Walsh. Inspector John A. Walsh was then given the papers and sent to interview Attorney General James B. Tuttle of Concord, N. H., who, in turn, arranged for a hearing before Gov. Spaulding, which was held last week. John E. Benton of Keene represented O'Brien and Deputy District Attorney Crowley the state of Massachusetts.

After a long hearing before the New Hampshire governor, the extradition papers were approved and O'Brien was ordered returned to Lowell. The defendant then asked for a writ of habeas corpus and another delay was caused, the final hearing being held last evening in Keene before Judge Kivel. The habeas corpus writ was refused O'Brien and he returned to this city today in time to appear in court.

This is the first case of the kind to come up in this city and perhaps in the state as the law allowing Massachusetts authorities to bring defendants on this charge from another state was passed only about a year ago.

There were only two other cases in court this forenoon. Vincent Kapala was adjudged guilty of keeping an unlicensed dog and fined \$10 after Deputy Downey had told the court of the numerous complaints being received at the station relative to dogs biting pedestrians. One woman was sent to jail for 30 days for drunkenness.

AT THEIR NEW LOCATION
The Broadway Wholesale Millinery company moved today from its former location, 135 Merrimack street, to 165 State street, over the L. K. shoe store, and next to A. G. Pollard company. The store did business at its old location until 6 o'clock last night when the work of moving the fixtures to the new location took place. Extensive alterations and repairs have taken place in the new store which now presents a new and pleasing appearance. The Broadway will start business tomorrow in its new store and carry new goods, their old stock having been sold at its recent sale.

ATTEND TO YOUR
TEETH
NOW

Carlton A. Wilson and Miss Sarah Thorpe were married yesterday at the home of the bride's parents, Mr. and Mrs. James Thorpe in Wiggsville, the officiating clergyman being Rev. A. B. Riggs. The bride was attended by Miss Hannah Thorpe and the bridegroom by Thomas Alway. At the close of the ceremony a reception was held at the home of William A. Wilson, 614 Bridge street. The happy couple will be at home to their friends after Aug. 1 at 15 Fifth street.

DANIEL'S GREAT MOVE

It has been considered the proper thing for some time by a great many of our embattled editors to scoff at everything relating to the American navy and to pour the vitals of their ridicule on Secretary Daniels. Apparently indifferent to attack, Mr. Daniels has striven to bring the navy up to a high point of efficiency, and he is at last succeeding. Fairness would lead any unbiased student of recent naval conditions to testify that Secretary Daniels has improved the condition of the enlisted men and given the profession a higher standard, has protected the country against the machinations of selfish patriots whose zeal was based on their pocketbooks, has given a free hand to any expert influence that would provide for greater effectiveness and has striven to apply the lessons of the present war to the department which he heads. One of the most persistent critics of the Daniels regime is George von L. Meyer, former secretary who forgets in his antagonism to the present administration that the faults of the navy, such as they are, were a part of the republican heritage taken over by the democrats.

One reform that will reflect great credit on Secretary Daniels and silence much hostile criticism is his selection of an advisory board of private inventors to bring the American navy to such a point of efficiency that it will lead the world. This board will be headed by the world's most famous inventor, Thomas A. Edison who has patriotically determined to give his own country only the result of his wide experience and his genius. It will probably also contain many of the greatest men in American scientific life and army and navy experts who have given special attention to war developments. Among the names mentioned are: Hudson Maxim, Orville Wright, Alexander Graham Bell, Henry Ford and John Hayes Hammond, Jr.

It has long been a complaint of American inventors and a reproach to America in a national sense that our men of genius found recognition in foreign countries and indifference at home. Some of the most effective instruments of the great war at the present time are the results of American invention, but the inventors after vainly striving to interest this government were forced to seek a field of operations in other countries. In one sense, this was inevitable, for we were not actuated by the militarist spirit that made Germany and other European nations utilize every resource of civilization in the cause of war, but in the end this country has been the loser. Now, even our leading pacifists see that if we are to have an army or navy at all, it must be efficient enough to compete with other armies and navies, and so it is well that our government shows a disposition to recognize American ability and utilize it for the safeguarding of the nation.

The iron clad, the aeroplane, the submarine and other great instruments of modern warfare were born in America; in America is the most distinguished band of inventors in the world of science. Coupling the two facts, and providing for government co-operation, is there any reason why the American navy should not lead the world in efficiency? The navy is our great asset for national defence and nothing has been done for years that promises greater naval improvement than the formation of an advisory board of American inventors. With Edison and other world figures working on the problems of the submarine, aeroplane, etc., this nation will certainly keep pace with the foremost if it will not completely revolutionize warfare. Secretary Daniels has made a very telling answer to his traducers—and their name is legion. It is now in order to keep the work of his department a strict secret.

QUITE A DIFFERENCE

There is a great wave of indignation in England, France and Italy against the more rigorous form of the censorship that prevents many facts of the war from reaching the people. There is no wave of indignation in this country against the politicians and military authorities who shout our shortcomings from the houseposts. This is a difference that is by no means complementary to us.

Only a few days ago it was declared in the English parliament that for years Germany has prepared secretly for war, and everybody who reads the newspapers knows that the other powers had no idea of the extent of German preparation. Though it was the business of some government departments of all nations to keep posted on the condition of other nations, Germany managed to keep her national secrets inviolate. In this was a great national strength, and even today there are many phases of internal German matters on which the outside world is dark. Concerning the submarines and Zeppelins, for instance, there is only a vague knowledge outside of German official circles.

On the other hand, Germany kept pretty well posted on the state of all other nations. Through her spy system and efficient methods, she was kept on the conditions of possible rivals, and the result was of incalculable value to the German government. Knowing this, all countries

have sought to preserve their respective secrets, and all have striven to give the impression that they were thriving and in the highest state of military efficiency.

The one great exception has been America, the military secrets of which are the sport of every rabid politician and windy agitator. For months many prominent leaders of public opinion have said things about our army and navy that we would resent strongly in the mouth of another, and there is no need for any power to send spies or military emissaries here to discover our secrets. We no longer have any secrets, since our army and navy have been made a football in partisan politics. When will America see the danger of it?

DAYTON CITY MANAGER

Just as the commission form of government which we enjoy has been linked with the city of Des Moines, Ia., the city manager idea is being linked with Dayton, O. A little over a year ago, the city of Dayton adopted the city manager form of government, and on the completion of a year a report was published which, if true, makes a strong argument for the city manager wherever a city suffers from municipal inefficiency. The Dayton city government consists of five commissioners and the city manager who is supposed to see that men of fitness and ability and not mere politicians are at the head of municipal departments.

That part of the report which deals with the improved financial condition of Dayton will especially interest Lowell. We quote:

"The results which have been secured from this separation of legislative and administrative powers and the correlation of departmental efforts have been remarkable. In the management of public funds alone new methods have more than justified the change. Public expenditures have been kept strictly within the income budget of an annual deficit of \$50,000 a year which prevailed for the six years previous. An accounting system is being installed equal to that of any public concern in the country, and which will furnish a complete control over both funds and property. Liabilities may not be incurred unless there are funds for their liquidation, thus absolutely preventing over-drafts. Funds are appropriated in accordance with a detailed budget classified by activity of departments and character of expenditure. Supplies and equipment are being standardized, and the purchasing division is buying from the lowest and best bidder and not from friends of the administration.

"In place of a record of cash receipts and cash expenditures, suitable to a cross-road grocery, and which prevails in practically every municipality, Dayton has made possible a balance sheet, supported by distinct schedules for each public utility and industry owned; provided an adequate control over permanent property, equipment and stores; and has a definite knowledge of accounts receivable and of liabilities incurred, so that no revenues may escape collection, nor appropriations and allotments be overdrawn. Adequate centralized accounting has insured the payment of several thousand dollars of revenues formerly lost, made overdrafts impossible; discovered errors of over two hundred thousand dollars in sinking fund calculations; makes all disbursements by check, and controls the cost records installed over street repairs, street cleaning, garbage and ash removal, etc."

The report goes on to state that the most notable savings have been made in the purchasing of supplies, savings "which will amount to more than \$33,000 on an expenditure of \$200,000." A department may not purchase until its requisition has been approved by the manager, and the purchasing agent does not order until he is assured by the accounting division that appropriated funds are available. The report also makes this boast: "Prices are ten per cent to ninety per cent less than those formerly paid. Bills are discounted at two per cent for payment within ten days after the first of the month following."

That the improvement in finances, etc., has not been at the sacrifice of public service or efficiency is the claim of the following:

"In public works the handicap of inadequate funds has been overcome in part by increased efficiency. The extension of the city has been under inspection of public contract work has been completely reorganized and contractors rigidly required to conform to specifications. Street repairs are being made entirely from public funds, with the exception of a balance from bonds issued in former years; there is almost double the amount of street cleaning; streets in the business section are flushed for the first time in the history of the city; collection of rubbish and ashes has been resumed; electric street cars have been repaired and reasonably adequate garbage collection is to be had for the first time in ten years. In the division of water, every effort has been made to secure a supply more nearly equal to the demand. Pumping machinery has been overhauled, leaks investigated, pressure increased, and in the face of increased consumption, there has been a decrease in the amount of water turned. A municipal garage has been established."

It would seem from this report that Dayton has really benefited by the substitution of a business administration for the petty political administration from which most cities suffer. Lowell included. There is no danger, however, that the best part of municipal matters would in the deterioration of Dayton and Lowell will have to fight and against democratic influences in the body politic if it were kept up the present high standard. If the Dayton report is honest, it has been a lesson to us, and all the cities in the country sit up and take notice.

VETERANS' QUARTERS

The conference held at city hall Tuesday evening relative to the advisability of opening new quarters for the veterans of Lowell brought out some interesting expressions of views though it showed that a wide difference of opinion exists. It was

conclusively that the basement of the Memorial building would not be at all suitable for the purpose and that to eliminate the reading room would be an injustice to the Lowell public. The factor of convenience for the veterans is not important enough to warrant such a sweeping change. For the time being there is no especial objection to the use of the old council chamber in city hall for veterans' meetings, provided the proper precautions are observed. Furthermore, if the veterans are to use their old quarters on the restoration of the Memorial building, it should be only under circumstances that would remove the danger of a repetition of the fire.

Furthermore, the remarks of Mr. Solon W. Stevens showed the necessity for a more thorough system of fireproofing the hall and its contents. Such things as we lost in the fire would have been adequately protected in other cities, and it is too late to regret our lack of foresight when we mourn for battle flags and relics that once destroyed can never be restored. Before Memorial building is again opened, the city library and the precious contents of the upper rooms should be placed beyond the risk of loss by fire.

DAISY TIME

From the time of the early violets that hide in the woodland grass to the lavish wealth of the Autumn goldenrod there are many varieties of American flowers but none is more beloved than the daisy which now decks the meadows. It is the summer flower by right of eminent domain and it is as liberal of its charms as flowers of far less elegance of form and beauty of color. Whether it be a flaming golden circle with a heart of midnight black, or a virgin circle with a heart of gold, it is the flower of love's young dream and vacation fields. Beloved of the amateur photographer, it has delighted many an artistic eye by its background possibilities, and it seems to belong to a picture of the summer girl with wide-brimmed hat and muslin gown. Our fields do not know the "wee modest crimson tipped flower" that Burns sang,—the daisy of Shakespeare, Chaucer and Keats, but we have a wealth of the staller daisies that grow in the long grass and all the summer fields with starry beauty.

A Boston paper makes a great headline on the news that reservists of one of the belligerent powers sailed, gay and laughing. This is commonplace. All of the armies have gone out laughing; the crying is done in the homes they leave, many for ever. Another picture is shown by one of the peace delegates from The Hague who quoted a military man as saying that one of the terrible sounds of the war is the voice of the wounded calling for their mothers.

At last Wigginville is to have a sewer. About time! No section needs a sewer more truly, and as for the cost of \$20,000—that's a mere bagatelle when we have been used to talking of \$70,000 or \$700,000.

The situation is critical; the situation is not critical. The president is firm; the president is undecided. The note will go at once; there will be a long delay. Germany will yield; Germany will not yield, etc., etc. Help!

SEEN AND HEARD

The man who knocks his town has a family; this is in need of the sympathy of neighbors.

Some of the habits of the ostrich are worthy of emulation by the human kind. We do not refer to the diet of the bird, but to the fact that they mate but once during life. Isn't that an improvement?

THREE CHEERS FOR JIMMIE

An office boy in the employ of a big concern went on an errand that should have taken him 10 minutes of the forenoon. It was nearly an hour before he got back. "Look, here, Jimmie," heatedly remarked the boss, when the youngster finally blew into the office. "Does it take you an hour to run down to the corner?" "It did this time, Mr. Smith," frankly answered the boy, "because I drank a quart of cold water in the pavement."

"I see," sarcastically returned the boss. "I suppose you took you all this time to get it out?" "Yes, sir," innocently replied Jimmie. "I had to wait until the man went away."—Stray Stories.

TOUGH LUCK BUT GOOD PAY

"Friday is such an unlucky day," she sighed. "Isn't half so unlucky as Tuesday," retorted her companion. "Last Tuesday, for instance, I fell out of a second-floor window, and was run over by a cat's meat barrow." "How terrible!" she exclaimed, shuddering. "Yes, and on the Tuesday before that, I continued," I tripped into a duck-pond and was brought out on the end of a boat-hook. And the Tuesday before that I was chased by an infuriated bull. On the Tuesday before that—But why continue?" "Why don't you stay at home on Tuesday?" queried his companion. "You would be safer at home if I did, because I'd lose my job if I did," he replied. "I'm a motion picture actor, you see, and on Tuesday we make our comic films."

WAS SOME CALCULATOR

Private Ananias certainly was a good shot. "Veg," he said to a circle of young soldiers. "I was in a bit of a lull once. There were two German snipers at me, and I'd only one bullet left. They were a good bit apart, but I thought I'd wait until I got down to ten yards. If I shot one, the other would get me sure. I'll tell you, boys, that thing makes you think quick. What did I do? Well, my knowledge of trigonometry saved me. I got behind a stove, worked out a few calculations and angles on a scrap of paper, stuck my bayonet in the sand with the edge towards me, took cover, and let her go. And, boys, the plan worked, for the bullet was split clean in half and one hit killed the German on the right and the other bit blotted

out the blighter on the left. Another time I was—"

But the audience had fled.

CONFESSIONS OF A FAT MAN

If a fellow comes up to me and says, "Old scout, you're looking thinner," it tickles me clean to my fool, fool soul. And I ask him out to dinner.

I lie to myself, for in my heart I know I'm getting fatter. If I fell off the Woolworth tower—Great Heavens, how I'd splutter!

On a hot June night when my chest chokes up. And my heart begins to stammer, Fear grips my throat and I swear off From beef and beer and butter.

But when day comes mine obese brain, Consulting with my tummy, Backslides and makes some fat remark Like, "Who would be a mummy?"

By night I suffer and hate my fat. By day I grin and bear it. Though fattiness seems an affair of the flesh, It starts in the blooming spirit.

I kid myself and I lie to myself, But I stick to beef and butter; If I fell into Vesuvius, Good Heavens, how I'd splutter!

—New York Evening Sun.

SPARE THE LAMBS

Protest against the killing of young cattle and lambs for food, on the ground that it diminishes largely the supply of meat and leather and thereby works an economic loss to the community, is made by Hide and Leather in its current number.

The publication cites a St. Louis news dispatch to show that prevailing beef prices indicate scarcity of cattle and incidentally of leather. The article continues:

"Dealers in hides and leather under-

stand the situation, but we do not believe the general public realizes what we are coming to by this falling off in the supply of meat or how it affects and will continue to increase the cost of living. Eventually meat prices will be so high as to make it practically prohibitive to persons of small means and help to make poor children and men with little money foodless.

"There is, however, one remedy which might help considerably, and that is to prohibit the slaughter of calves and young lambs. There is no justification for this practice whatever. It profits no one. A young calf grows until two or three years of age, it may bring \$100 or more if it is a steer and two-thirds as much if a heifer. Veal is not especially nourishing or digestive food, while good beef and mutton are."

FIRE IN FRUIT STORE

A small fire in a pile of waste paper in the fruit store of O. L. Swanson at 78 Merrimack street caused an alarm from box 217, Police and John streets, at midnight. The fire was promptly extinguished though considerable damage was done by the large quantity of smoke that poured through the building.

IN MILADY'S BOUDOIR

Dancing

The woman who does not "do the new dances" is going to have a sad time of it this summer. She will feel very much like the wall flower sitting apart while everybody else between babyhood and extreme old age is dancing to the strains of brass band, orchestra or phonograph.

Dancing is more than a craze, it is more than a passing fad. It will undoubtedly cease being the obsession it is just now after the novelty has worn off and in the big cities one will no longer be anxious to pay one to three dollars admission simply for the pleasure of being present where dancing is being on.

The new dances may not be learned in an evening. The steps are intricate and require a great deal of practice. If you have decided to learn the new dances before vacation, set about it at once, and do not be at all discouraged at the constantly changing steps. Every dancing master is anxious to originate a new step and make his name famous.

If you would be happy in this age of tango and kindred dances, learn to dip, and slide and the hearties one with no way to be truly happy is to take an active interest in every passing fancy which keeps one apace with the world's progression.

WILL RECEIVE THEIR PAY

The Day State Cotton corporation on Marginal street, manufacturers of tire fabrics, special ducks and sail cloth, has notified its employees who are exempting with the state militia that they will receive their wages in full for the time spent at the annual encampment of regiments.

If you want help at home or in your business, try The Sun "Want" column.

THE FRENCH MAID SAYS:

Muscle on Learning New Dances

"I want to learn some of the new dances," announced Marjorie, as she skipped blithely into her aunt's boudoir one morning, where Marie was busy looking over some of madame's lace.

"I would," advised Marie, "for the girl who does not know the new dances will miss lots of fun this summer. Dancing in moderation has come to stay, for it has brought the joy of living into many a dull and prosaic existence. It has brought frolic to those who thought the days of frolic were gone forever. It has put the sparkle of life and the flush of exercise into eyes and complexions that never hoped to sparkle or to flush again."

"It has relieved the strain of work, so may the dancing craze continue, and long may one see, as one does now, three generations of the same family gleefully disporting on the same ball-room floor. The new dances may not be "picked up" in an evening, as one used to "pick up" the two step or even the waltz with a clever instructor. Five lessons by a competent teacher will, however, usually teach all there is to know."

"Grace and perfect poise in dancing takes longer to acquire, unless one is born with these attributes; but grace and poise do not seem as necessary now as plenty of endurance and suppleness. Once you have learned the ordinary steps of the tango, one step and hesitation, the series of arm movements and turns, you will have little difficulty in picking up any new steps that come out."

"Oh, thank you for your encouragement, Marie," delightedly responded Marjorie. "I shall go right to work and learn all the latest steps for I know I shall not enjoy my summer unless I know them all."

MANY OUTINGS

Continued

hold the affair at Revere, but it seems that some of the members of the fair sex preferred Nantasket, and the change was made, much to their satisfaction.

Some 300 of the store employees left Merrimack square at 7.45 o'clock in two special electric cars which were properly labeled with the association's name. The trip to Rowe's wharf, Boston, was a most pleasant one, but this was not to be compared with the hour sail down Boston harbor.

Upon arriving at the seashore many of the party went bathing and at noon a shore dinner was served at the Palm garden. The afternoon was devoted to sporting events and a visit to Paragon park. The committee this year, at the request of the members, did not provide for special cars for the return trip, so that those who desire to come home early may do so. Those in charge of the affair are Peter Corcoran and Michael Ryan.

A. G. Pollard Co.
The annual outing of the members

THE SUN
IS ON SALE
AT THE
NORTH STATION
BOSTON

of the A. G. Pollard Co. Mutual Benefit association is being held at Nantasket beach today and it is said the affair will be the best ever, for this is the first time in the history of the organization that ideal weather prevailed on the day of the annual excursion. The members of the association, their wives and friends, numbering over 200, gathered at the Middlesex street station shortly before 8 o'clock this morning and later boarded two special coaches, which were attached to the regular 7.56 o'clock train for Boston. From the North station in the Hub the party took the elevated to Rowe's wharf and made the trip to Nantasket by steamer, the sail proving delightful.

Upon reaching the summer resort the party scattered, some going in bathing and others sightseeing. A shore dinner was discussed at noon at the Palm garden and in the afternoon the various attractions of Paragon park were enjoyed. The return trip will be made at a seasonable hour. The committee in charge consists of Raul H. Monlor, Paul Doherty and C. A. Delaroude.

J. L. Chalfoux Co.

"All up for Bass Point," was the slogan of the employees of the J. L. Chalfoux Co.'s store this morning, when they boarded two special electric cars at Merrimack square at 8.15 o'clock. The cars were labeled with large signs bearing the inscription "J. L. Chalfoux Co." and were comfortably filled with a merry crowd.

Upon reaching the summer resort a fine shore dinner was served at the New Pigeon tavern, and it is needless to say the menu was dismished with a relish. A feature of the day was a swimming exhibition by Henry F. Sullivan, the noted swimmer, who delighted his co-workers with his aquatic stunts. A baseball game was played and other sporting events were successfully conducted. The return trip will be at 8.45 o'clock this evening. In the absence of Morton M. Walker, advertising manager of the store, all arrangements were in charge of Thomas

Matte.

Saunders' Market

Through the courtesy of Mrs. John F. Saunders, proprietor of the Saunders' market, the clerks and other employees of this well known establishment were given their annual excursion to the beach today.

The affair was conducted at Revere beach and all expenses were paid by Mrs. Saunders, and it is safe to say the excursionists greatly appreciated this mark of esteem. At 11.45 o'clock the employees of the store boarded a special electric and were conveyed to the summer resort, where shortly after their arrival they were served a shore dinner at the Pleasanton hotel.

A feature of the afternoon was the outdoor sports, which consisted of a baseball game between two strong teams of the store, and other numbers as interesting. A bowling match was also held and, all in all, the 1915 excursion proved the best ever. The arrangements of the affair were in the hands of Misses Susan Ryan, R. Mulhally and Mr. Henry Kelley, who spared nothing to give the clerks of Saunders' market a most enjoyable outing.

Knights of Columbus

One of the most successful social events under the auspices of the fourth degree, Knights of Columbus, was conducted today at Nantasket beach, the affair being attended by about 200 people, including a good proportion of ladies. Two special electric cars, which left Merrimack square at 8.45 o'clock, conveyed the excursionists to Rowe's wharf, Boston, where at 11.15 o'clock the steamer for Nantasket was boarded. The sail down the harbor was delightful.

The first number on the program upon reaching the beach was the shore dinner, which was served at the finest hotel on the beach, the New Rockland house. During the dinner the party was entertained with music and a

cabaret show, which proved an ideal treat.

The hotel grounds were set aside for the Knights and their friends and in the afternoon sports of all descriptions, including special features for ladies were carried out much to the satisfaction of the spectators. The sights of Paragon park were taken in, this being included with the trip ticket and in the latter part of the afternoon a band concert and dancing were enjoyed.

The party will leave the beach between 6 and 7 o'clock. The committee responsible for the success of the affair was composed of the following: Joseph P. Roske, Frank L. Mealey, Edward P. Saunders, Thomas J. O'Donnell, John J. O'Connor and Martin H. Kelly.

Paragon Chapter

About 200 members of Paragon chapter, Eastern Star lodge and their friends journeyed to Revere on their annual outing this morning. The trip was made by special electric and proved a most pleasant one. Dinner was served at one of the beach hotels and the many attractions along the shore were taken in, while the traditional dip was not forgotten. The affair was in charge of a committee headed by C. G. Anderson.

Church Outing

The members of the Pawtucket Congregational church, including men, women and children, spent the day at Mountain Rock, the occasion being the annual outing of the church. Two special cars rolled out of Merrimack square shortly after 8 o'clock and the ride was enjoyed by all, but particularly by the little ones. A basket dinner was provided for and a varied program of outdoor events was successfully carried out. The affair was in charge of the pastor of the church, Rev. F. G. Alger.

P. Sousa & Co.
The Gorham Street Department Store 99-103 GORHAM STREET

Bros. were given a holiday today. Preliminary arrangements had been made for a general outing at Revere beach, but at the eleventh hour, all the plans were abandoned and the employees of the firm went their own way, some going to summer resorts, while others enjoyed a fishing trip.

Special Cars

Besides the long list of excursions above mentioned, the Bay State Street Railway Co. conducted its regular Thursday excursions to Revere and Nantasket beaches two large cars filled with excursionists, men and women, leaving Merrimack square at 8 o'clock. It was stated that a large number of other Lowellites went to the seashore this morning by train and automobiles.

The Druggists

Lowell druggists and assistants with soda and cigar clerks, took a day off today, as they are wont to do each year, and journeyed to Nantasket beach where the annual outing of the Lowell Pharmaceutical association was held. With ideal outing weather prevailing, the program provided for all and though many successes of a similar nature have been conducted in the past none proved more enjoyable than the event today.

Each year the outing is looked forward to with pleasurable anticipation by employees of all Lowell's drug stores and hence a great deal of enthusiasm was evident this forenoon. While the clouds that hovered in the heavens early this morning threatened to break and bring disappointment the sun soon peeped through and assured a pleasant day, all that was needed to make the pill pounders and soda clerks happy.

Promptly at 10.30 o'clock the doors of all drug stores were locked for the only day in the year. All haste was then made to the Middlesex street station where a special train was waiting to convey the party of 100 or more to

Boston, where the big Nantasket steamer was boarded. The hour's sail to the beach was a delightful one and every minute was used to advantage for the merry-makers from Lowell.

Upon arriving at the beach, the first number on the program was a dip in the ocean deep, and many of the druggists who have been attending the outings for years have almost learned to swim, it was reported. Reservations had been made at Nantasket house and the party sat down to a

pretentious six course shore dinner, one of the kind that has made this hostelry famous along the New England coast. After every appetite was satisfied there was speaking by members of the association and an eloquent address by John J. Tobin of South Boston, a member of the state board of pharmacy.

The afternoon was spent in sports and visiting the places of amusement along the beach. The return trip will be made this evening.

GASOLOGUE No. 1

"What do you mean—"Ignition point?"

"I mean the temperature at which the gasoline will vaporize so that it can be exploded by a spark plug."

"Humph! Same thing as 'boiling point?'"

"Practically."

"And you say low ignition point is the real test for gasoline?"

"The only real test."

"But I've always thought it depended on gravity—the higher the gravity the better the gasoline."

"That's a motor-myth. Low gravity gasoline has more kicks in it—more heat units—and, provided the ignition point is right, it is better to use and costs less when you figure miles per gallon."

"Instead of high gravity, I'm to ask for—"

"Ask for SOCONY Motor Gasoline. It's simpler. The gravity is right, the ignition point is right, and, more than that, SOCONY Gasoline is always the same wherever you get it."

SAMUELS and SYLENZ (The Silent Partner)

THE SPELLBINDER

One of the most striking instances of how badly shot-up the state republican machine is at the present time was evidenced at Saturday's big outing at the Bunting Club, when Frank Hall, secretary of the republican state committee spoke on the needs of the republican party locally, as to registration.

On the way to the grounds the writer was in company with Mr. Hall and when some one asked the question as to the number of registered voters in Lowell former Senator Hillon replied that there were about 15,000. Immediately Mr. Hall said, "You're way off; there are not that many." The writer's opinion was that when he ventured the guess that there were about 15,000 Mr. Hall produced a card from his pocket, and read from it: "Lowell, assessed poll, 21,000; registered voters, 11,000." Later, when addressing the meeting he again quoted those figures and the audience was expected to accept them as being accurate.

But Mr. Hall was only about 5000 out of the way, which probably is close, considering conditions with the republican machine.

In Lowell at the beginning of the present year there were 26,046 assessed polls and 15,538 registered voters. The republican state machine has had such a strenuous existence in the past few years that it has completely lost track of its surroundings, and believes it would seem, because it has not moved on itself, that the world hasn't moved, and is still clinging to figures and theories that were in vogue when last it possessed influence.

There was a noticeable lack of the enthusiasm that indicates the spirit of victory at that outing. Messrs. McCall and Cushing were well received. It is true, but the spirit wasn't there, that indescribable feeling that means success. The only sure thing in the line of future success appeared to be Congressman Rogers, for in the man of destiny in the republican ranks. It was noticeable too, that much more interest was taken in the minor contests, particularly that for sheriff than in the head of the ticket. Much was said about the progressives coming back, but the party's only chance to get them all back would be to nominate third as the republican candidate for governor and that will not be done and hence Governor Walsh, assuming that he will get the democratic candidate, will get an even share of the progressive votes throughout the state.

Col. Butler Ames placed himself on record as favoring McCall for governor, and that means something for Hon. Samuel W. In these parts, Jewett stuck pretty close to the dog-eared third as the republican candidate for governor and that will not be done and hence Governor Walsh, assuming that he will get the democratic candidate, will get an even share of the progressive votes throughout the state.

osition, and they're going at it, in a manner similar to that in which they handled the bridge matter.

Relative to the bridge, they settled upon the lump sum that the bridge was going to cost \$30,000 before the school matter, they have settled upon the cost of the building, \$700,000, have selected the site and are planning to house the children temporarily, before they have seen any plans of the building they propose to construct. Just now they are much concerned over the care of the children while the new building is in process of construction, but they haven't come to any conclusion as to the nature, material or exact size of the building itself. Ordinarily a city government should be able to handle a proposition such as the building of a new school, but after the waste of money last year in the fitting up of a \$35,000 temporary annex and the subsequent handling of the Pawtucket bridge matter, it is quite evident that the best interests of the city will be conserved by placing the responsibility for building the new school in the hands of men outside the city government.

At a conference held a few days ago relative to the new building, Mayor Murphy wanted it understood that no more money would be spent on temporary annexes. If he had only said that one year ago instead of wasting \$35,000 on that unsatisfactory affair in Kirk street, the public would have applauded with better grace.

Com. Duncan a few days ago suggested that as nobody seems to know just what kind of a building is needed, it would be well to get an expert to set the government right. Yet the municipal council is ready to seize a whole lot of land in Kirk street and pay for it before it knows whether it needs it all or not, or what it is going to build upon it.

Mr. Elliott's Statement

Hertford Elliott of the school board made an interesting statement at a recent conference. Mr. Elliott is one of Lowell's leading real estate men and at the conference he said that he never knew of any property in Kirk or Anna street to sell for as high as its assessed value. Mr. Elliott as a member of the school committee has authority over a temporary annex in Kirk street which was bought only one year ago by the present government for \$25,000, although it was offered for sale previously, it is sold for \$10,000, but when the city took it the price was \$25,000.

At that same conference, Com. Duncan is quoted as saying, "I think that the jury, if this property were sold, and an appeal taken to the court would say that the assessed valuation was too high." After purchasing the land in Kirk street for \$25,000 about \$10,000 additional was wasted on a building that was opened for business without compliance with the building laws, without running water, water closets, window shades or knobs on the doors. When a government will overlook these small but important features of a school building in making a little annex school, what may we not fear that they will overlook in the construction of a 100-room school house on which they have started, before they have seen any plans.

The Contagious Disease Hospital.

It's the middle of July, and the law says that we must start a contagious disease hospital by Sept. 1. As yet the municipal council has not given the matter any consideration. Why not announce the selection of the site in Pawtucketville matter and relieve the anxiety that exists in certain quarters?

The papers recently made note of Mayor Murphy's statement to the effect he had made provisions for the care of tuberculosis cases at Lawrence, and one might think that something new had happened. The city has been paying for tuberculosis cases at the different isolation hospitals of this kind in the state for years, and will continue to do so until it has a place of its own.

Mayor vs. Architects

The leading school architects of the state figure on \$5000 per room as the cost of school buildings. High school buildings included, but not Tuesday's conference when Supt. Moller referred to estimating the cost of the Lowell school on this basis. Mayor Murphy immediately stated that in his opinion the local school would cost \$1000 more, or \$6000 per room. Why should a schoolhouse built for Lowell cost \$1000 more per room than schoolhouses built for other cities of the state? And who should know, the mayor or the architects?

Sever for South Lowell

Now that the campaign is soon to open it was necessary to do something for South Lowell, and hence money has been voted for a sewer that might have been built by this time if it had been when the request was made. At the meeting Tuesday evening Mayor Murphy took care to remind the residents of South Lowell that he had recommended something for them in his budget. He also attempted to slip something over on Col. Carmichael's department by intimating that the bad odor in that district was due to the condition of the city water, and the colonel protested vigorously.

Being too busy on a plan entitled "Plan of the Lyman City Estate, Lowell, Mass., surveyed June, 1893," by George Bowers, Civil Engineer, which plan is recorded in Middlesex ss. Probate Court, in the case of the estate of Lyman City, in book of Plans No. 6.

Said plan is to be sold subject to any unpaid taxes and other public assessments.

Five hundred dollars of the purchase money to be paid at time and place of sale. Other terms at sale.

For further particulars inquire of Charles H. Brigham, 19 Milk street, Boston, Mass., or of

MAJ. W. D. ORWY, Assignee and Present Holder of said Mortgage.

COMMONWEALTH OF MASSACHUSETTS, Middlesex ss. Probate Court.

To the heirs-at-law, next of kin and all other persons interested in the estate of Lucy E. Parkhurst, of Lowell, in said county of Middlesex.

Whereas Orianna E. Peavy, the conservator of the property of said Lucy E. Parkhurst, has petitioned for authority to mortgage certain real estate therein specified of her said ward to raise the sum of one thousand dollars, for the maintenance of said ward.

You are hereby cited to appear at a Probate Court, to be held at Cambridge, in said County of Middlesex, on the twenty-seventh day of July, A. D. 1915, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is ordered to publish this citation once in each week, for three successive weeks, in The Lowell Sun, a newspaper published in Lowell, the last publication to be on one day at least, before said Court.

Witness, Charles J. McIntire, Esquire, First Judge of said Court, this eighth day of July, in the year one thousand nine hundred and fifteen.

W. E. ROGERS, Register.

JULY 22-26

Grand Army Men's Request

While Lowell owes a big debt to her Grand Army men and should give them a little the best of it when she can, there are times when others must also be considered, as in the case of the request of the G. A. R. for the use of the public building.

Some 500 men use the reading room daily, a much greater number than the Grand Army men can muster. It would seem that the city can find some satisfactory place for the veterans other than the public reading room.

An Apt Quotation

A correspondent sends me the following quotation as applicable to the municipal council: "They are groping in the dark, in a labyrinth of their own contrivance, in which they have lost direction and are trying all roads but the right one to get out of it." The above is decidedly applicable in the case of the Pawtucket bridge matter, and indications are that it can be used again to describe their actions on the new high school.

Practical Physical Exercise

At the conference over the new high school, Tuesday, Commissioner Morse expressed the opinion that the girls' drilling was a fad and might be dispensed with without doing them any great harm.

He was informed that it was the only physical exercise that they get, whereupon the practical commissioner ventured the opinion that they could get exercise enough at home helping their mothers wash the dishes and sweep the floors.

Springfield Again

Mayor Murphy informed the municipal council Tuesday that the Springfield high school is going to adopt afternoon sessions. Thus Lowell must do so. Every day somebody at city hall will spring something original, and he'll be shot at sunrise.

LEGAL NOTICES

MORTGAGEE'S SALE OF REAL ESTATE

By virtue of the power of sale contained in a certain mortgage deed made by Arthur L. Cady to Henry W. Ordway, dated June 20, 1913, and recorded with Middlesex (North District) in book 253, folio 23, said mortgage being now held under assignment by public auction or to premises described, for breach of the condition of said mortgage and for the purpose of foreclosing the same on Saturday, the thirty-first day of July, at three o'clock in the afternoon, at and singular the premises conveyed by said mortgage deed, and thereat described substantially as follows:

A certain lot of land with the buildings thereon, situated on the southerly side of City street in Lowell, in the County of Middlesex, and Commonwealth of Massachusetts, and bounded and described as follows:

Beginning at the northwesterly corner of the premises at a point in the southerly line of said City street, three feet south of right angle with said southerly line of City street, sixty-three and 5/16 (63.3125) feet; thence at a right angle (easterly) to the southerly line of said City street, thence at a right angle northerly by said City street, sixty-three and 5/16 (63.3125) feet; thence westerly by said City street, fifty-five and 1/2 (55.5) feet to the point of beginning.

Being lot No. 1 on a plan entitled "Plan of the Lyman City Estate, Lowell, Mass., surveyed June, 1893," by George Bowers, Civil Engineer, which plan is recorded in Middlesex ss. Probate Court, in the case of the estate of Lyman City, in book of Plans No. 6.

Said premises are to be sold subject to any unpaid taxes and other public assessments.

Five hundred dollars of the purchase money to be paid at time and place of sale. Other terms at sale.
